

Better Government Association offering free FOIA training

DuPage Co. ([ECWd](#)) –

The Better Government Association has asked us to assist in the promotion of their upcoming citizen watchdog training to be held at the DuPage Unitarian Universalist Church on April 24th, 2017.

Full details can be found at [this link](#).

We encourage everyone to get involved in these type of free training programs, as this type of training is an important step for the people of Illinois who wish to learn more about their local government and to better understand their right to obtain public records.
