Subject: Req for IL State Statutes Printed Volumes

Good morning, Mr. Allen:

I'm the Director of Publishing at IICLE®, and I write to respond to your inquiry to iicleinfo regarding whether we publish print, bound copies of the Illinois Compiled Statutes. We do not; our publications are exclusively secondary research sources (we publish volumes that provide practical legal guidance and which do address statutory law in conjunction with relevant, controlling case precedent in the context of particular practice areas). For instance, we have a number of estate planning-related handbooks that, depending on the subtopic of interest, examine the pertinent, controlling statutory and common law principles and arguments implicated in that focused area.

I believe Lexis Nexis still prints bound copies of the annotated statutes and they are, of course, available for free online at <http://www.ilga.gov/legislation/ilcs/ilcs.asp>. They are searchable online as well.

With respect to your specific practice guidance needs, please visit our website at www.iicle.com for a complete listing, content and pricing information for our library of over 115 publications. If we can be of any further assistance, please give us a call at (800) 252-8062. Thank you for contacting IICLE®.

Best,

Amy McFadden
