Cc: "Doug Corbett" <DCorbett@fiphd.org>

CMS Renewables, Inc. is the installing entity for Day and Night Solar so the **contract we sent you is the Day and Night Solar/CMS Renewables, Inc.**

contract. **Day and Night Solar provides the solar products and CMS is the installation arm of that business.** These are the same companies that recently installed a system on the new Monical's Pizza in Watseka owned by Dennis Wittenborn of Watseka. D & B Electric out of Watseka, IL was the installing electrician at both sites.

As indicated by the copy of the email I sent you and as parts are recopied below, the ad was ran as many times as each of these four papers ran in one week.
