---

Hi Doug,

I do not have a problem with a press release as long as we have documentation that there was nothing that the Illinois State Attornies representative found that we did that was illegal. I also would like to have some documentation to show that Jill and Diane were removed without just cause. I don't know if the Illinois States Attorney needs to provide that or how that is handled but I am sure that Mr Boyer would know what is needed and where to get what we need. I am sure that the media would like to see documentation and I would not want to be painted like Mr Copas of just saying something without the proof to back up what we are saying. I believe that the news release would help the department to regain some of its trust with the residents of both counties who may have questioned us due to this attack. If we do get an apology I will be surprised. Being that Diane and Jill were removed illegally does that mean that they are still members of the Board or do they actually need to be reappointed? I also was wondering about Susan Wynn Bence, was her term up? If not is she still a member or the board? Anyway I think we need to be able to speak with each other and with Mr. Bowen as he has been a great support to the board and get his take as well before we put out a press release. I don't think what we do will change Mr Copas in any way. He seems to be set in his agenda. As long as he has support from where ever he is getting it I think he may continue.

Teddie Jensen

3) Okay Mr. Boyer - I'll forward this email to those board members and have them contact me. It's vital that the Ford County Board is also supportive of a public media press release. The two counties may wish to send out separate notices once the official word comes from the AG. My personal opinion is that the message (if that action is decided) should be one coordinated and united message. Board of health members please 'Reply to all' -

Thank you,  
Doug

Let's get the Board members (other than Copas and the new appointees) on board and do that through a press release, once you have verification that the AG is backing out.

I also wanted to speak with you regarding the ability to "leverage" with the Iroquois Co Board now that nothing has been found by the IL Attorney General - Question - Can we ask (demand) that since nothing has been found that our original board of health members (Kaeb, Clatterbuck) be given an apology and be reinstated onto the board of health?? Let me know your thoughts  
.....

Thanks Ron,

Doug
