OK, I here they are saying that even for non university events, the list is too burdensome at around 3000 events in a 12 month period.

Does not include athletic events.

Mr. Kraft,

Per our conversation last week, I have inquired as to whether we could provide a financial listing of the catering for all non-University events. I have found out that it is possible for us to produce such a report, but even with limiting the list to non-University events, it is estimated that we would have approximately 3,000 events for a 12 month period. Given the amount of events, please let me know if you would be willing to reduce the timeframe of your request to a six month period and/or limit your request to a specific location. If you would be willing to reduce the timeframe of your request and/or limit it to a certain location, please let me know what time period and/or location you would want us to focus on.

Please note, to the extent you are interested in catering costs for suites at athletic games, I have learned that such information would not be available in the list I described above. Such information is kept in another department and would require a different search. If you are interested in this information, I would recommend that you proceed with a narrowed version of the above request and, after that request has been processed, submit another FOIA request for this information.

Please let me know if you have any questions.

Thanks,
Kathy

How about the last 12 months? Will that work?

Re: FOIA 14-662

Dear Mr. Kraft:

I write to respond to your Freedom of Information request of October 6, in which you requested:

- “1. Copy of financial transaction history for the catering department for the last 3 years.
2. Copy of all invoices issued by the catering department for the last 3 years.”

Our office has conducted a preliminary search for the documents.
