Coles county Illinois assessment issue

 Adrienne Bailey (217) 785-6636 update... **Adrienne bailey**

2/6/17

RE: [External] Fwd: Coles county Illi... Details

To: Cory Sanders

Cory, there is nothing that specifically allows you to roll back assessments, especially **if they were correctly done.** Your county is set up on the 4-year assessment cycle, so doing one "quadrant" at a time is perfectly allowable assuming you are following the proper "quad districts".

I would be careful on rolling back the assessments that were already done, **as there will be republishing requirements along with other requirements.** We cannot provide guidance about doing this; you would be best to consult your state's attorney regarding this matter. However, I can tell you the statute does not address a procedure for rolling back assessments **on properly assessed property.**

Thank you,
