

ALGONQUIN TOWNSHIP HIGHWAY DEPARTMENT

3702 U.S. Hwy 14, Crystal Lake, IL 60014

October 16, 2018

Press Release - For Immediate Release

Each year the Algonquin Township Road District has been purchasing salt to ensure the roads of the District are safe. Each year the Road District uses at least 2,000 tons of salt. The Village of Oakwood Hills has agreed to purchase excess salt from the Road District because the District has the facilities to store salt without it being subject to waste.

Presently, there is a shortage of salt and the Road District has secured the necessary supplies for this next winter. However, due to an oversight, this year's purchase was not put out for bid. To remedy this situation, the Road District is considering several options and has conferred with its counsel. Until there is a remedy to the situation, the Road District will not disburse any payment to any supplier until all such actions comply with state law.

Be Blessed,
