Rusty Bogue,

As acting Edgar County Airport Manager I have requested proof of liability insurance covering each plane flying with your AG Spraying operation. Knowing how important it is to your operation and the fanatical security of the Edgar County Airport in case of mishaps. This is not a new ruling it has been a policy from beginning of the Crop Dusting Program.

Since I have not received a copy of said Aircraft Certificate of Insurance I am requesting you stop operations of your AG Spraying operations until you can supply valid proof of Aircraft Insurance.

Failure to comply with this request will put your continued operation from the grounds of the Edgar County Airport in jeopardy.

Successfully Yours,

Jimmy Wells
