Your local officials are making efforts to develop a rural water system for the area. To determine the feasibility and the desire for such services, you are asked to make the following agreement:

I desire service for my home located in Hunter township,
(home, farm, business)
section 6, Edgar county.
(Clark or Edgar)

I agree to pay Clark-Edgar Rural Water District, Paris, Illinois, an advance connection fee in the amount of \$750; \$65 upon execution of this Agreement, and the balance of \$685 before construction begins.

I agree to become a customer of the system as soon a service is available to my property and to pay the monthly charges required by the rules, rates, and regulations to be adopted by the governing board of the District. In the event I breach this contract by refusing or failing without just cause to connect to the system, I agree to pay the minimum monthly charges for a length of time as determined by the Board, but not to exceed the term of the FmHA Loan. I agree to execute the District's standard Permanent Water Main Easement granting them the right to place, construct, operate, repair, maintain, relocate, remove or abandon in place, water and distribution lines or other appurtenances of the system on my property to be served by this User's Contract.

In the event the required number of users are not obtained or for some other reason the project cannot continue, the user fees will be used to pay organizational and other miscellaneous expenses and after all expenses are paid any remaining user fees will be pro-rated to each depositor. However, in the event the project proceeds but for some reason service can not be furnished to me, then at my request ALL money previously deposited by me will be refunded.
