Aaron,

I talked to Steve Price from IDOT after lunch today get a current SI mix for Zimmerly's in Paris. He said at this time Zimmerly's **IS NOT** an IDOT approved source for concrete. He did not know when they would be reapproved because he is waiting on them to get back to him. I also got two SI mixes for Clark County Ready Mix in Martinsville from John Burton at District 7. One is a straight cement mix and the other is 25% fly ash mix.

Joshua
