

Darrel Cox Questions

Illinois v. Lester Kleffman, a case in the Illinois Appellate court upholding and enforcing state law pertaining to the sale of seized weapons, which was considered felony Official Misconduct.

In an effort to be brief, the appellate court stated and I quote? “Sales of such weapons are unauthorized.”

- 1. Isn't it true your office has engaged in the sale and or trading of over 45 seized weapons in the last 5 years?**
- 2. Can you explain why your office violated state law in the selling and/or trading those weapons as well as violating court orders directing many of those weapons to be disposed of, which they were not?**
- 3. Can you explain why two court orders we received reflect weapons were to be disposed of and those weapons did not show up on the records you provided us?**
- 4. How is it that you sold and/or traded 15 weapons of which there was no court order pertaining to those weapons?**
