Subject: Darrel Cox Over Budget Flyer

Anyone who wishes to dispute the facts contained in our reporting of the over budget issue with Darrel Cox and its relation to the recent flyer, which does in fact confirm what we wrote, we welcome any factual information to disprove our reporting.

To date a lot of Darrel Cox supporters are insisting he gave money back each year however that is only the case after money had to be added to the budget because of over spending. Those facts can't be disputed.

When looking at **ORIGINAL BUDGET** and **Actual expenses**, Darrel Cox was over budget 4 of the last 7 years.

Adding funding to a budget so that grant money could be spent on something doesn't change the fact that the ORIGINAL budget vs. expenses is what the real numbers represent.

Feel free to get the WHOLE story, not just the spoon feeding that certain political supporters want you to hear.

The entire purpose of our first exposing this was because of claims being made on the campaign trail and in flyers that do not match the county audit documents.
