**Subject:** No Bid Architect Contract

**Date:** Monday, December 22, 2014 1:19:40 PM

We are researching no bid contracts between COD and Foundation Board members. A contract with your company, Herricane Graphics, was awarded without any bidding. COD claims they do not have to bid Professional Services.

The contract reflects that you are an Architect however the state licensing does not list you as such.

Do you have an architect's license issued from another state?

Any input you would like to provide on this matter is appreciated.

Thanks
