WHERE IS MY MAY 22nd FOIA REQUEST?

On June 1 you said you needed an extension.

Today is June 23.

If I had any idea how many "non-electronic" records there were I could give you an intelligent answer.

Additionally, the copying machine that you use, that is in the office, is capable of scanning to pdf instead of copying to paper. The law says "if feasible", so are you trying to say it is not feasible to scan to pdf?

Prior to incurring any costs for paper copies, if you insist on killing more trees and contributing to global climate change, I would appreciate a cost breakdown of the actual costs to copy or print one piece of paper - in the machine that you are using that is in the office. Also, an estimated number of pages and the estimated cost for those pages.

You already have the software to redact a pdf - just like you have done in the past.

thanks,

John Kraft

John,

I am requesting an extension to fill this FOIA. Additionally, can this request be narrowed? This is a large request. Please be advised that items that are not kept in electronic form will not be provided in that manner. As was explained previously, I am not required to create a document or to purchase software to edit a pdf. The information you have requested will contain items that need to be redacted.

Thank you,
Charity
