Bruce,

This was sent to David Lesniak on 4/17/14 which you were copied on. (SEE ATTACHED)

I was not aware of any other changes to this version. Please let us know if we are mistaken.

Regards,

Jay

Jay:

I understand that there were comments and an RPP needs to be created and sent out. Please let us know when that will occur.

Thanks Bruce

David and Bruce,

Please find attached the field sketch for the Executive Locker Room for your review.

As a reminder, the proposed bench encroaches upon the sink quite a bit. **Since the room no longer meets ADA, we can maybe push this bench to the north a bit**

Let me know your thoughts.

Regards,

Jay

David,

Thanks for providing to us the desired battery operated lockset to be used for the new Executive Locker Room. We always understood where this was to be installed. Did you find something rnis

Please find attached a revised RFP #209 and Field Sketch #235 that reflects our understanding of the changes to Family Locker Room #139 in order to convert it to an Executive Locker Room.

We have the following comments:

1. As discussed, with the modifications to the room(s), they no longer meet the Illinois Accessibility Code. Since this is now a "Private Toilet Room", this is allowed

2. We show a 30" wide bench. Given it's location, we are concerned with how close it is to the door (hitting someone in the eyes) or how close it is to the sink.

3. We state to verify location of the bench and the hooks on the sketch because this bench may be better suited to be installed on the wall across from the lockers. In addition, if it does stay in the general location shown, it can be shifted in the north/south direction to best fit the needs of the users.

Please let me know if you need anything additional.

Regards,

Jay

Jay

As I indicated several times I want the same Alarm Lock Trilogy Mortise #PDI-3500 on the corridor door leading to the pool. You can leave the Mag lock as is. I understand the 24" bench inside the toilet room will affect Dr. Breuder if he is a wheel chair. Please make the changes and issue the drawings.

David
