CCMHB President's Report

The President's Report is an opportunity for me to reflect on the efforts undertaken over the last year to address the needs of people living throughout Champaign County. The Annual Report itself presents financial data for the Board as a whole followed by detail of contracts awarded to various entities to deliver services throughout Champaign County and statistics on the number served by contracted program. Also included in the Annual Report is the current Three Year Plan with Objectives for the 2016 fiscal year, adopted by the Board in November 2015.

During my tenure as a member of the Board, I have found as a collective body we have faced many challenges over the years. The past year has proven to be one of the most challenging for the Board and the community we serve. The State of Illinois has not passed a budget, has issued contracts for which there is no authority to make payments for services provided in good faith, and in some cases not issued contracts, period. In the latter case, the lack of the psychiatric leadership contract was most troublesome. It was only through the close working relationship between Community Elements and Promise Healthcare, a relationship fostered in part by the Board, has enabled psychiatric services for our most vulnerable members of society to continue. For other select services the courts have had to intervene to ensure the state honors its obligations in order for providers to have the funding to deliver services. One can argue about how we got to this point or who in state government is responsible – but in the end the state must meet its constitutional obligations to service those most in need. And it is well past time for the state to do so as it is beyond the capacity of this Board to fill the void the actions of the state has created for our community no matter how strong our desire to do so or how hard we try.

On a more positive note, the Board continues to work in close collaboration with collaboration with the Champaign County Board for Care and Treatment of Persons with a Developmental Disability (CCDDB). Two homes of the four homes under the jointly funded Community Integrated Living Arrangements (CILA) initiative have been purchased and one is fully occupied. Other collaborative efforts by the two Boards continue such as the Disability Resource Expo and Alliance for the Promotion of Acceptance, Inclusion, and Respect support for Ebertfest.

In an effort to improve program evaluation and outcome measurement by funded agencies the Board has engaged researchers from the University of Illinois - Department of Psychology. An initial report on the study's findings is expected later this year. The evaluation study and allocation criteria for the coming year were topics of a Board retreat. The retreat was a new and positive experience for the Board. The ACCESS Initiative funded under the SAMHSA cooperative agreement has come to a close but the Board and community stakeholders have committed to building on the successes of the Initiative through the work of the Champaign County Community Coalition. As part of the commitment the Board has hired Ms. Shandra Summerville as the Cultural and Linguistic Competence Coordinator. Progress continues to be made to address the issue of mental health services for adults involved with the criminal justice system. Mr. Leon Evans, a nationally recognized expert on the issue was brought in for a three day consultation that resulted in a collaboration between many community partners including public dialogue with the community, whose work is on-going and now manifested in the Crisis Response Planning Committee. The Committee was formed

under a planning grant awarded to the Champaign County by the Department of Justice and supported in part with funds from the Board.

For many years Dr. Deloris Henry and Ms. Aillinn Dannave have advocated for those less fortunate while providing leadership and dedication to the mission of the Board. I thank them for their long standing commitment and service as their terms come to an end. In their place, I welcome Ms. Elaine Palencia and Ms. Margaret White and look forward our working together to further the work of the Board.

Respectfully,

CHAMPAIGN COUNTY MENTAL HEALTH BOARD

WHEREAS, the Champaign County Mental Health Board has been established under Illinois Revised Statutes (405 ILCS – 20/Section 0.1 et. seq.) in order to "construct, repair, operate, maintain and regulate community mental health facilities to provide mental health services as defined by the local community mental health board, including services for the developmentally disabled and for the substance abuser, for residents (of Champaign County) and/or to contract therefore..."

WHEREAS, the Champaign County Mental Health Board is required by the Community Mental Health Act to prepare a one- and three-year plan for a program of community mental health services and facilities;

THEREFORE, the Champaign County Mental Health Board does hereby adopt the following Mission Statement and Statement of Purposes to guide the development of the mental health plan for Champaign County:

MISSION STATEMENT

<p>The mission of the CCMHB is the promotion of a local system of services for the prevention and treatment of mental or emotional, intellectual or developmental, and substance abuse disorders, in accordance with the assessed priorities of the citizens of Champaign County.</p>

STATEMENT OF PURPOSES

1. To plan, coordinate, evaluate and allocate funds for the comprehensive local system of mental health, intellectual disabilities and developmental disabilities, and substance abuse services for Champaign County.
2. To promote family-friendly community support networks for the at-risk, underserved and general populations of Champaign County.
3. To increase support for the local system of services from public and private sources.
4. To further develop the systematic exchange of information about local services and needs between the public/private service systems and the CCMHB.

In order to accomplish these purposes, the Champaign County Mental Health Board must collaborate with the public and private sectors in providing the resources necessary for the effective functioning of the community mental health system.

SYSTEMS OF CARE

Goal #1: Support a continuum of services to meet the needs of individuals with mental and/or emotional disorders, addictions, and/or intellectual or developmental disabilities and their families that reside in Champaign County.

Objective #1: Under established policies and procedures, solicit proposals from community based providers in response to Board defined priorities and associated criteria using a competitive application process and during the allocation decision-making process consider multi-year term for select contract awards.

Objective #2: Expand use of evidenced informed and evidenced based/best practice models appropriate to the presenting need in an effort to improve outcomes for families with infants, children, and adolescents, as well as for adults and the elderly.

Objective #4: Pursue, as feasible, development or expansion of residential and/or employment supports for persons with behavioral health diagnosis not supported through expansion of Medicaid or the Affordable Care Act.
