Re: FOIA Request

Dear Kirk:

Please find attached the remainder of the FOIA materials from your requests from July 14, 2017. As it relates to your request from Friday July 14, 2017, which asks for a copy of all seized weapons (guns) currently held by the Sheriff, that response is the same as the response containing the court order you requested. The guns listed in the court order consist of all the guns currently held by the Sheriff. There are not any sales receipts for any seized guns sold in the last 15 years, because none have been sold. There is not a bid announcement for the hiring of an audit firm, as we have not yet made the announcement. There is not a bid proposal published or sent out for the request for bids to purchase guns from the Sheriff's Department. Through verbal request a couple of individuals have shown interest in purchasing the guns, and even though the Jasper County Sheriff's committee has made a recommendation, we are working with the U.S. Department of Alcohol, Tobacco, and Firearms out of Fairview Heights, Illinois, to ensure we publish the appropriate requests and follow the appropriate procedures before any transfer or sale would occur.

Sincerely,

Chad M. Miller
Jasper County State's Attorney
(FOIA Officer)
