INDEPENDENT AUDITORS' REPORT

To the County Board
Coles County, Illinois
Charleston, Illinois

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Coles County, Illinois as of and for the year ended November 30, 2016, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Coles County, Illinois as of November 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the general fund and certain major special revenue funds for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Schedule of Funding Progress for post-employment healthcare benefit program, the Schedule of changes in Net Pension Liability and Related Ratios, and Schedule of Employer Contributions on pages 71 through 78 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Coles County, Illinois' basic financial statements. The combining and individual nonmajor fund financial statements, the combining Statement of Changes in Asset and Liabilities – Agency Funds, the nonmajor fund Budget and Actual Statements, the combining and individual general fund financial statements, the component unit Budget and Actual Statements, the Summary of Tax Charge and Assessment, the Summary of Assessed Valuation, the Schedule of Tax Rates, Extensions and Collection- County Funds, the Schedule of Mobile Home Privilege Taxes, Legal Debt Margin, and the schedule of expenditure of federal awards, as required by the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements, the combining Statement of Changes in Asset and Liabilities – Agency Funds, the nonmajor fund Budget and Actual Statements, the combining and individual general fund financial statements, the component unit Budget and Actual Statements, the Summary of Tax Charge and Assessment, the Summary of Assessed Valuation, the Schedule of Tax Rates, Extensions and Collection- County Funds, and the Schedule of Expenditures of Federal Awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, the combining Statement of Changes in Asset and Liabilities – Agency Funds, the combining and individual general fund financial statements, the component unit Budget and Actual Statements, the Summary of Tax Charge and Assessment, the Summary of Assessed Valuation, the Schedule of Tax Rates, Extensions and Collection- County Funds, and the Schedule of Expenditures of Federal Awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The Schedule of Mobile Home Privilege Taxes and Legal Debt Margin have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated July 25, 2017 on our consideration of Coles County, Illinois' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Coles County, Illinois' internal control over financial reporting and compliance.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
*GOVERNMENT AUDITING STANDARDS***

INDEPENDENT AUDITORS' REPORT

To the County Board
Coles County, Illinois
Charleston, Illinois

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Coles County, Illinois as of and for the year ended November 30, 2016, and the related notes to the financial statements, which collectively comprise Coles County, Illinois' basic financial statements, and have issued our report thereon dated July 25, 2017.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Coles County, Illinois' internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Coles County, Illinois' internal control. Accordingly, we do not express an opinion on the effectiveness of Coles County, Illinois' internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Coles County, Illinois' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**REPORT ON COMPLIANCE FOR EACH MAJOR
FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL
OVER COMPLIANCE IN ACCORDANCE WITH THE UNIFORM GUIDANCE**

INDEPENDENT AUDITORS' REPORT

To the County Board
Coles County, Illinois
Charleston, Illinois

Report on Compliance for Each Major Federal Program

We have audited Coles County, Illinois' compliance with the types of compliance requirements described in the U.S. *Office of Management and Budget (OMB) Compliance Supplement* that could have a direct and material effect on each of Coles County, Illinois' major federal programs for the year ended November 30, 2016. Coles County, Illinois' major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of Coles County, Illinois' major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Coles County, Illinois' compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Coles County, Illinois' compliance.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Coles County, Illinois' compliance.

Opinion on Each Major Federal Program

In our opinion, Coles County, Illinois complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on the major federal program for the year ended November 30, 2016.

Report on Internal Control over Compliance

Management of Coles County, Illinois is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Coles County, Illinois' internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program as a basis for designing auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Coles County, Illinois' internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND
CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS TO THE
STATEMENT OF ACTIVITIES
For the Year Ended November 30, 2016

Net Change in Governmental Fund Balance	\$ (367,407)
---	--------------

Amounts reported for the governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period.	(1,470,880)
--	-------------

Contributions of capital assets increase net position but do not require the use of current financial resources and, therefore, are not reported in the governmental funds.	1,071,281
---	-----------

The change in deferred outflows of resources does not require the use of current financial resources and, therefore, is not reported in the governmental funds.	2,499,496
---	-----------

Certain revenues reported in the statement of activities are not available as current financial resources and, therefore, are not reported as revenues in the governmental funds.	193,909
---	---------

Principal paid on long term debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. This is the amount of principal payments.	125,000
---	---------

Accrued interest reported in the statement of activities does not require the use of current financial resources and is, therefore, not reported as an expenditure in the governmental funds.	2,344
---	-------

Some expenses, such as compensated absences, reported in the statement of activities do not require the use of current financial resources and are, therefore, not reported as expenditures in the governmental funds.	(10,072)
--	----------

The increase in OPEB obligation resulting from annual required contributions in excess of actual contributions do not require the use of current financial resources and, therefore, is not reported as expenditures in the funds.	(15,059)
--	----------

The increase in the net pension liability does not require the use of current financial resources and, therefore, is not reported as expenditures in the funds.	(3,228,964)

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Coles County, Illinois conform to accounting principles generally accepted in the United States of America as applicable to governments.

The following is a summary of the more significant policies:

- a) **Financial Reporting Entity** - The accompanying financial statements present the County's primary government and component units over which the County exercises significant influence. Component units are legally separate organizations for which the elected officials of Coles County are financially accountable. Coles County would be considered financially accountable if it appoints a voting majority of the organization's governing body and (1) it is able to impose its will (significantly influence the programs, projects, activities, or level of services performed or provided by the organization) on the organization or (2) there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on Coles County (i.e., entitled to or can access the organization's resources, is legally obligated or has otherwise assumed the obligation to finance deficits of, or provide financial support to the organization, or is obligated in some manner for the debt of the organization). If an organization is fiscally dependent on Coles County, the County is considered financially accountable regardless of whether the organization has (1) a separately elected governing board, (2) a governing board appointed by a higher level of government, or (3) a jointly appointed board.

The County Board Chairman and County Board make appointments of the governing boards of a number of fire protection, drainage, public water and sanitary districts. Even though the County Board may appoint a majority of the members of the respective districts, the members do not serve at the discretion of the County Board, that is, they can be removed only for cause. There are no indications that the County Board can impose its will over these districts and, therefore, has no financial accountability. These units are not considered units of Coles County, Illinois. Several other governmental entities have operations within the County but are separate legal entities. These entities include Coles County Housing Authority, Coles County Airport Authority and Lifelinks (formerly Coles County Mental Health Association, a 501(c)(3) non-profit organization). The County is not financially accountable for these entities and they are, therefore, not included in the County's reporting entities.

Based on the foregoing criteria, the following organizations meet the criteria of a component unit of Coles County.

The following Organizations are discretely presented component units of the County:

Public Health Fund - The County Board members appoint the Public Health Board and approve the budget for the Public Health Fund. In addition, the County Treasurer's office maintains the accounting records of the Public Health Fund. The payroll of the Public Health Fund is included with the County's payroll in reporting to various federal and state agencies. The Public Health Fund has been included in the County's reporting entity as a discretely reported component unit. Separate financial statements are not issued.

Mental Health Fund - The County Board members appoint the Mental Health Board and approve the tax levy for the Mental Health Fund. In addition, the County Treasurer's office maintains the accounting records of the Mental Health Fund. The payroll of the Mental Health Fund is included with the County's payroll in reporting to various federal and state agencies. The Mental Health Fund has been included in the County's reporting entity as a discretely reported component unit. Separate financial statements are not issued.

Emergency Telephone System Fund - The County Board members appoint the Emergency Telephone System Board. In addition, the County Treasurer's office maintains the accounting records of the Emergency Telephone System Fund and collects the telephone surcharge which is used to fund the system. The payroll of the Emergency Telephone System Fund is included with the County's payroll in reporting to various federal and state agencies. The Emergency Telephone System Fund has been included in the County's reporting entity as a discretely reported component unit. Separate financial statements are not issued.

Coles County Public Building Commission - The County Board members appoint the Building Commission Board. Buildings of the Building Commission are leased to the County. In addition, the County's approval is needed for the issuance of bonded debt to finance the Building Commission's projects. The Coles County Public Building Commission has been included in the County's reporting entity as a discretely reported component unit. Separate financial statements may be obtained by writing to Coles County Public Building Commission, P.O. Box 346, Charleston, Illinois 61920.

- b) Basis of Presentation - The accounts of the County are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balances, revenues, and expenditures, or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The County's basic financial statements include both government-wide and fund financial statements. Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. The County's general, special revenue and debt service funds are classified as governmental activities while the County's proprietary funds are classified as business-type activities. The County's fiduciary funds are not incorporated into the government-wide statements since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government.

Government-Wide Financial Statements:

The government-wide financial statements include the statement of net position and the statement of activities. These statements report information on all of the nonfiduciary activities of the primary government. The effect of interfund activity, within the government and business-type activities columns, has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific program or identifiable activity. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given program and (2) operating or capital grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements:

Separate statements are presented for governmental funds, proprietary funds, and fiduciary funds. These statements present each major fund as a separate column on the fund financial statements; all non-major funds are aggregated and presented in a single column. The following fund types are used by the County:

Governmental Funds:

Governmental funds are those funds through which most governmental functions typically are financed. The acquisition, use and balances of the County's expendable financial resources and the related current liabilities (except those accounted for in the proprietary funds) are accounted for through governmental funds. The measurement focus is on determination of "financial flow" (sources, use and balances of financial resources).

General Fund - The general fund is the main operating fund of the County. It is used to account for all financial resources except those required to be accounted for in another fund. All general tax revenues and other receipts that are not restricted by law or contractual agreement to some other fund are accounted for in this fund. The County Farm and Tipping Fee funds are combined with the County General fund for financial statement purposes.

Special Revenue Funds - Special revenue funds are used to account for the proceeds of specific revenue sources (other than special assessments, expendable trusts, or major capital projects) that are restricted or committed to expenditures for specified purposes. The County's major special revenue funds are County Highway, County Highway Matching Tax, County Motor Fuel Tax, Illinois Municipal Retirement, and Public Transportation Grant. The purpose and substantial restricted resources for each major special revenue fund are listed below:

County Highway - To account for revenues and expenditures related to operating the County Highway Department, including maintaining and constructing roadways. The major sources of revenue include the County's dedicated property tax levy and income from the Illinois Department of Transportation for various highway projects.

County Highway Matching Tax - To account for revenues and expenditures related to engineering, right-of-way costs, utility relocations, and the County's proportionate share of construction or highway maintenance costs. The major sources of revenue include the County's dedicated property tax levy and grant income from the Illinois Department of Transportation for various highway projects.

County Motor Fuel Tax - To account for revenues and expenditures related to operating, constructing, and improving public roads and highways. The major source of revenue is the state motor fuel (gasoline) tax which is collected and distributed by the State of Illinois.

Illinois Municipal Retirement - To account for revenues and expenditures related to the County's participation in the IMRF defined benefit pension plan. The major sources of revenue include the County's dedicated property tax levy, personal property replacement tax, reimbursements from other departments, and IMRF withholding from employees' wages.

Public Transportation Grant - To account for revenues and expenditures related to the Department of Transportation Section 5311 Formula grant and Illinois Department of Revenue Downstate Operating Assistance grant. The grant revenue is passed-through to the Coles County Council on Aging, Inc. as a subrecipient to fund their Dial-A-Ride program.

Debt Service Fund - The debt service fund is used to account for the accumulation of resources and the payment of general obligation debt of the County. The County has no major debt service funds.

Proprietary Funds:

Proprietary Funds are those funds through which the accounting objectives are determinations of operating income, change in net position, financial position, and changes in cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the proprietary funds of the County:

Enterprise Funds - Enterprise funds are used to account for operations (1) that are financed and operated in a manner similar to private business enterprises---where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (2) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes. The County has one enterprise fund and two component unit enterprise funds.

Fiduciary Funds:

Fiduciary funds are used to report assets held in a trustee or agency capacity for others and, therefore, are not available to support County programs. The reporting focus is on net position and use accounting principles similar to proprietary funds. The County has twelve agency funds.

- c) Measurement Focus and Basis of Accounting - Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied. Measurement focus is used to describe which transactions are recorded within the various financial statements.

The government-wide financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recognized when the liability is incurred. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. All assets and liabilities, including capital assets and long-term liabilities, are included. The accounting objectives of this measurement focus are the determination of operating income, changes in net position, financial position, and cash flows.

The governmental fund financial statements are presented using the current financial resources measurement focus and the modified accrual basis of accounting. Only current financial assets, deferred outflows of resources, liabilities, and deferred inflows of resources are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period. Under the modified accrual basis of accounting, revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period to be used to pay current liabilities or within sixty days for property taxes and 120 days for all other revenue sources. Expenditures generally are recorded when a liability is incurred. An exception to this general rule is principal and interest on general long-term debt which is recognized when due and payable.

The proprietary fund financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. This is the same measurement focus and basis of accounting used on the government-wide financial statements.

COLES COUNTY, ILLINOIS
NOTES TO FINANCIAL STATEMENTS

- d) **Budgets** - Budgets are adopted substantially on a modified accrual basis, which is consistent with the County's method of accounting, except that any budget balances remaining at the close of a fiscal year shall be available for 30 days after its close for payment of obligations. Formal budgetary integration is employed as a management control device during the year. Both the original and final amended budgets are presented as approved by the County Board.

Statements of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual reflect the legally adopted budget compared to actual amounts for all governmental funds in which the County adopts a budget. The County adopts budgets for the following governmental funds: County General, Tipping Fee, County Farm, County Construction of Bridges, County Highway Matching Tax, Illinois Municipal Retirement, Senior Citizens, Debt Service, Tuberculosis, Law Library, Special Purpose, County Highway, GIS, Probation Services, and SFOOR Grant.

- e) **Cash and Cash Equivalents** - For purposes of the statement of cash flows, the County considers all cash deposits and highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.
- f) **Inventories** - Inventories are priced at cost (first-in, first-out) which approximates market. Inventories included in the Clerk's Revenue Tax Stamp Fund consist of revenue stamps.
- g) **Capital Assets and Depreciation** - Capital assets, which includes property, equipment, and infrastructure assets, are reported in the applicable governmental or business-type activities column in the government-wide financial statements and in the fund financial statements for proprietary funds. The County defines capital assets, other than infrastructure, as assets with an initial individual cost of at least \$5,000 and an estimated useful life in excess of two years. Infrastructure assets must have an initial cost of at least \$50,000. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets are stated at their fair market value on the date donated. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets, as applicable. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. The County reports all major general infrastructure assets constructed or acquired in fiscal years ending after November 30, 1980, or that received major renovations, restorations, or improvements during that period. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

	<u>Years</u>
Buildings	40
Infrastructure	30
Building improvements	20
Vehicles	8
Office equipment	8
Other equipment	8

- h) **Interfund Activity** - Interfund activity is reported as either loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Any residual balances outstanding between the governmental and business-type activities are reported in the government-wide financial statements as "internal balances." Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures or expenses. Reimbursements are when a fund incurs a cost and charges the appropriate benefiting fund. The reimbursement is reported as revenue rather than reducing its related cost. All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

COLES COUNTY, ILLINOIS
NOTES TO FINANCIAL STATEMENTS

Operating transfers between funds during the year ended November 30, 2016 were as follows:

	<u>Operating Transfers In</u>	<u>Operating Transfers Out</u>
Governmental Activities:		
County General	\$ 93,171	\$ 4,688
Illinois Municipal Retirement	-	717
Other governmental funds	<u>4,688</u>	<u>92,454</u>
	<u>\$ 97,859</u>	<u>\$ 97,859</u>

The transfers into the County General Fund were to cover operating expenses and were as follows: interest income of \$1,232, and \$91,939 to cover the state shortfall for probation services. The County General Fund transferred \$4,688 to the Debt Service Fund for future debt service payments.

- i) **Accrued Liabilities and Long-Term Obligations** - All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements and proprietary fund financial statements. Bond premiums and discounts are deferred and amortized over the life of the bonds.

In the fund financial statements, governmental fund payables and accrued liabilities are reported as obligations of the funds once incurred and are expected to be paid in a timely manner and in full from current financial resources. Bonds, capital leases and long-term notes that will be paid from governmental funds are recognized as a liability in the fund financial statements when due. The face amount of debt issued is reported as other financing sources. Bond premiums received on debt issuances are reported as other financing sources while bond discounts on debt issuances are reported as other financing uses.

- j) **Deferred Outflows and Inflows of Resources** – The County reports a decrease in net position/fund balance that applies to a future period as deferred outflows of resources in a separate section of its government-wide and proprietary funds statements of net position and the governmental funds balance sheet. The County had deferred outflows of resources related to pensions in the current year. The County had no deferred outflows of resources that affect the governmental funds balance sheet.

The County reports an increase in net position/fund balance that applies to a future period as deferred inflows of resources in a separate section of its government-wide and proprietary funds statements of net position and the governmental funds balance sheet. The County will not recognize the related revenues until a future event occurs. Under the modified accrual basis of accounting, governmental fund revenues are not recognized until available. Accordingly, unavailable revenues are reported as deferred inflows of resources on the governmental funds balance sheet. The County had no deferred inflows of resources that affect the government-wide and proprietary funds statements of net position.

- k) **Property taxes** - Property taxes are levied by the Coles County Board and are collected by the Coles County Treasurer. Property is assessed on January 1 each year. Taxes for the year 2015 were levied and collected during 2016. The final dates for payment without penalty were July 8, 2016 and September 2, 2016. Significant collections are made during the week preceding the due date.

Taxes become a lien against the property if not paid by the date of the Tax Sale (normally the 3rd Monday in October). The tax sale was held October 20, 2016.

No significant collections of property tax occur within 60 days of the close of the fiscal year.

- l) Operating Revenues and Expenses - Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses result from providing services in connection with the proprietary funds' principal operations. Operating expenses include the cost of services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.
- m) Net Position - Government-wide and proprietary fund net positions are divided into three components:
 - 1. Net investment in capital assets - consists of the historical cost of capital assets less accumulated depreciation and less any debt that remains outstanding that was used to finance those assets.
 - 2. Restricted - consists of net position that is restricted by the County's creditors (for example, through debt covenants), by the state enabling legislation (through restrictions on shared revenues), by both federal and state grantors and by other contributors.
 - 3. Unrestricted - all other net positions are reported in this category.
- n) Fund Balance - The following classifications describe the constraints placed on the purposes for which resources can be used:
 - 1. Nonspendable fund balance – consists of amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact.
 - 2. Restricted fund balance - consists of amounts that are subject to outside restrictions, such as those imposed by creditors, grantors, contributors, or laws and regulations of other governments, or by law through constitutional provisions or enabling legislation.
 - 3. Committed fund balance - consists of amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision making authority (the County Board Members). Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of formal action it employed to previously commit those amounts.
 - 4. Assigned fund balance - consists of amounts that are constrained by the government's intent to be used for a specific purpose, but are neither restricted nor committed. The intent can be expressed by the County Board Members or by an official or body which the Board delegates authority.
 - 5. Unassigned fund balance - consists of amounts available for any purpose and positive amounts are reported only in the General Fund.

COLES COUNTY, ILLINOIS
NOTES TO FINANCIAL STATEMENTS

At November 30, 2016, the County had the following governmental fund balance classifications:

Unless specifically identified, expenditures act to reduce restricted balances first, then committed balances, next assigned balances, and finally act to reduce unassigned balances. Expenditures for a specifically identified purpose will act to reduce the specific classification of fund balance that is identified.

- o) Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

COLES COUNTY, ILLINOIS
NOTES TO FINANCIAL STATEMENTS

Disclosures Relating to Interest Rate Risk:

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. The County minimizes its exposure to interest rate risk by limiting its purchases of long term investments and by structuring investments to mature to meet cash requirements. At November 30, 2016, the County's investments consisted of deposits with local financial institutions. Certificates of deposits mature in a range of 5 to 17 months.

Disclosures Relating to Credit Risk:

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The County's cash deposits held with local financial institutions are not subject to credit risk rating.

Concentration of Credit Risk:

The County's investment policy does not place limitations on the amount that can be invested in any one issuer. Cash deposits held with local financial institutions are exempt from the 5% investment in any one issuer disclosure.

Custodial Credit Risk:

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. Deposits in federally insured banks and savings and loans are insured up to \$250,000 per custodian (County Treasurer, County Clerk, and Circuit Clerk). The County's investment policy requires that all amounts deposited or invested with financial institutions in excess of any insurance limit be collateralized by securities held by the County in the County's name. As of November 30, 2016, the County's bank balances totaled \$18,949,124. Of the County's bank balances, \$2,265,641 was secured by federal depository insurance and \$16,683,483 was collateralized with securities held by the pledging financial institution's trust department in Coles County's name.

Foreign Currency Risk:

Foreign currency risk is the risk that changes in foreign exchange rates will adversely affect the fair values of deposits or investments. None of the County's deposits or investments are directly subject to foreign currency risk.

NOTE F - DEFINED BENEFIT PENSION PLANS

Plan Description - The County's defined benefit pension plans provide retirement and disability benefits, post retirement increases, and death benefits to plan members and beneficiaries. The plans are affiliated with the Illinois Municipal Retirement Fund (IMRF), the administrator of a multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. The report is available for download at www.imrf.org.

Benefits Provided - IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

COLES COUNTY, ILLINOIS
NOTES TO FINANCIAL STATEMENTS

All three IMRF benefit plans have two tiers. Employees hired *before* January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired *on or after* January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Net Pension Liability - The County's net pension liability was measured as of December 31, 2015. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions - The following are the methods and assumptions used to determine total pension liability at December 31, 2015:

- The **Actuarial Cost Method** used was Entry Age Normal.
- The **Asset Valuation Method** used was Market Value of Assets.
- The **Inflation Rate** was assumed to be 3.5%.
- **Salary Increases** were expected to be 3.75% to 14.50%, including inflation.
- The **Investment Rate of Return** was assumed to be 7.50%.
- **Projected Retirement Age** was from the Experience-based Table of Rates, specific to the type of eligibility condition, last updated for the 2014 valuation according to an experience study from years 2011 to 2013.
- The IMRF-specific rates for **Mortality** (for non-disabled retirees) were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience.
- For **Disabled Retirees**, an IMRF-specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF-specific rates were developed from the RP-2014 Disabled Retirees Mortality Table, applying the same adjustments that were applied for non-disabled lives.
- For **Active Members**, an IMRF-specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF-specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.
- The **long-term expected rate of return** on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

COLES COUNTY, ILLINOIS
NOTES TO FINANCIAL STATEMENTS

<u>Asset Class</u>	<u>Portfolio Target Percentage</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic Equity	38%	7.39%
International Equity	17%	7.59%
Fixed Income	27%	3.00%
Real Estate	8%	6.00%
Alternative Investments	9%	2.75-8.15%
Cash Equivalents	<u>1%</u>	2.25%
Total	100%	

Single Discount Rate - A single discount rate of 7.50% was used to measure the total pension liability. The projection of cash flow used to determine this single discount rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The single discount rate reflects:

1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

Additional information for each plan follows:

a) Illinois Municipal Retirement Fund – Regular (All Other Employees)

Employees Covered by Benefit Terms - As of December 31, 2015, the following employees were covered by the benefit terms:

Retirees and beneficiaries currently receiving benefits	110
Inactive plan members entitled to but not yet receiving benefits	139
Active plan members	<u>167</u>
Total	<u><u>416</u></u>

Contributions - As set by statute, the County's Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The County's annual contribution rate for calendar year 2015 was 10.99%. For the fiscal year ended November 30, 2016, the County contributed \$725,461 to the plan. The County also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Single Discount Rate - For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.50%, the municipal bond rate is 3.57%, and the resulting single discount rate is 7.48%.

NOTE G - DEFERRED COMPENSATION PLAN

The County offers its employees three deferred compensation plans created in accordance with Internal Revenue Code Section 457. The plans, available to all County employees, permit them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency.

The three plans are administered by independent plan administrators, Lincoln Financial Group, Nationwide Retirement Solutions, Inc., and Edward Jones. Plan assets are invested in mutual funds and annuities.

Amendments to the laws governing Section 457 deferred compensation plans substantially became effective January 1, 1997. The County approved plan amendments such that plan assets are held in trust, with the County serving as trustee, for the exclusive benefit of the plan participants and their beneficiaries. The assets will not be diverted to any other purpose. The County's beneficial ownership of plan assets will be held for the further exclusive benefit of the plan for the exclusive benefit of participants and beneficiaries.

It is the opinion of the County's legal counsel that the County, as trustee, has no liability for plan losses but does have the duty of due care that would be required of an ordinary prudent investor.

Total plan assets as of September 30, 2016 (latest information available) are:

Lincoln Financial Group	\$ 721,428
Nationwide Retirement Solutions, Inc.	1,567,670
Lord Abbett	<u>21,622</u>
	<u>\$ 2,310,720</u>

NOTE H - OTHER POST-EMPLOYMENT BENEFITS

Plan Description - In addition to providing the pension benefits described, the County provides post-employment health care insurance benefits (OPEB) for retired employees through a single employer defined benefit plan. The benefits, benefit levels, employee contributions, and employer contributions are governed by the County and can be amended by the County through its personnel manual and union contracts. The plan is not accounted for as a trust fund, as an irrevocable trust has not been established to account for the plan. The plan does not issue a separate report.

COLES COUNTY, ILLINOIS
NOTES TO FINANCIAL STATEMENTS

Benefits Provided - The County provides post-employment health care insurance benefits to its retirees. To be eligible for benefits, an employee must qualify for retirement under one of the County's retirement plans. All health care benefits are provided through the County's insured health plan. The benefit levels are the same as those afforded to active employees. Benefits include: general inpatient and outpatient medical services; mental, nervous and substance abuse care; vision care; dental care; and prescriptions. Upon a retiree reaching age 65 years of age, Medicare becomes the primary insurer and the County's plan becomes secondary.

Membership - At November 30, 2015 (latest information available), membership consisted of:

Retirees and dependents	9
Active fully eligible to retire	15
Active not yet fully eligible to retire	<u>122</u>
Total	<u>146</u>
Participating employers	1

Funding Policy - The County negotiates the contribution percentages between the County and employees through the union contracts and personnel policy. All retirees contribute 100% of the blended premium to the plan and the County contributes the remainder to cover the cost of providing the benefits to the retirees via the insured plan (pay as you go). For the fiscal year ended November 30, 2016, benefit payments for retiree medical coverage are expected to be \$45,670. Active employees do not contribute to the plan until retirement.

Annual OPEB Costs and Net OPEB Obligation - The County had an actuarial valuation performed for the plan to determine the employer's annual required contribution (ARC) for the fiscal years ended November 30, 2015 and 2013. The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation for fiscal year 2016 was as follows:

November 30	Annual OPEB Cost	Employer Contributions	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
2016	\$ 60,729	\$ 45,670	75.2%	\$ 112,435

2014	40,013	26,326	65.8%	75,859

The net OPEB obligation (NOPEBO) as of November 30, 2016, was calculated as follows:

Annual required contribution	\$ 60,079
Interest on net OPEB obligation	3,895
Adjustment to annual required contribution	<u>(3,245)</u>
Annual OPEB cost	60,729
Contribution made	<u>(45,670)</u>
Increase (decrease) in net OPEB obligation	15,059
Net OPEB obligation, beginning of year	<u>97,376</u>
Net OPEB Obligation, End of Year	<u>\$ 112,435</u>

COLES COUNTY, ILLINOIS
NOTES TO FINANCIAL STATEMENTS

Funded Status and Funding Progress:

The funded status of the plan as of November 30, 2016 was as follows:

Actuarial accrued liability (AAL)	\$ 723,534
Actuarial value of plan assets	-
Unfunded actuarial accrued liability (UAAL)	723,534
Funded ratio (actuarial value of plan assets/AAL)	0%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions - Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. The entry age normal actuarial cost method was used. The actuarial assumptions included a 4.00% investment rate of return (net of administrative expenses), an initial healthcare cost trend rate of 1.3%, a second year healthcare cost trend rate of 8.00%, and an ultimate healthcare cost trend rate of 5.50%. The actuarial value of assets was not determined as the County has not advance funded its obligation. The plan's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at November 30, 2015, was 30 years.

NOTE I - LONG-TERM DEBT

- a) The long-term debt of the County consists of general obligation bonds payable, mortgages to purchase property for the Mental Health Fund, and bonded debt for the Coles County Public Building Commission. NOTE J - COMPENSATED ABSENCES

County employees are annually granted vacation, sick and personal leave in varying amounts depending on length of employment. Unused vacation time may be accumulated and carried over to a maximum of 20 days. Also, an employee will be paid up to 20 days of vacation time upon termination of employment. Up to 240 days of sick leave will be credited to an employee's IMRF account upon retirement, but is not paid out upon termination. Personal leave may not be carried over from one year to the next. Accumulated unpaid compensated absences are accrued when incurred in both the government-wide statements and the proprietary fund types. The liability for compensated absences for governmental activities is liquidated by the General Fund or by the Special Revenue Fund from which the related employee's salary is normally paid.

NOTE K - REVENUES PLEDGED

The County has pledged a portion of future tax revenues imposed by the State of Illinois pursuant to the Use Tax Act, the Service Use Tax Act, the Service Occupation Tax Act, and the Retailer's Occupation Tax Act to repay \$1,275,000 in General Obligation (Alternative Revenue Source) Bonds issued October 2010 to alter, repair, and equip County buildings including the Courthouse, Correctional Facility Building, and Animal Control Building. Total principal and interest requirements for the bonds are \$1,255,830, payable semiannually through December 2020.

NOTE L - OPTION AGREEMENT

On November 15, 1994, the County entered into an option agreement/marketing-management agreement with Coles Together, the County's not-for-profit economic development organization. The option covers 120 acres owned by the County which Coles Together is to develop into a business park. Coles Together shall pay \$100 per year per tillable acre for all premises not previously conveyed to Coles Together or its assigns as of January 1, commencing with January 1, 1995. The option price is \$3,850 per acre. The option shall continue as long as Coles Together is engaged in activities relating to economic growth. As of November 30, 2016, options had been exercised on 58.85 acres.

NOTE M - OPERATING LEASE INCOME

The Public Building Commission has also entered into an operating lease of its Regional Office of Education facility to the County. The County has subleased the facility to the Regional Office of Education which is funded by nine counties. The Public Building Commission will pay bond principal, interest and administrative costs related to the Regional Office facility. Future minimum lease income is as follows:

2017	\$ 44,280
2018	44,280
2019	44,280
2020	44,280
2021	44,280
2022	<u>44,280</u>
Total	<u>\$ 265,680</u>

During the year ended November 30, 2016, rent payments of \$47,970 were received from the Regional Office of Education. \$44,280 was recognized as operating revenues and \$3,690 was reported as deferred lease income.

NOTE N - OPERATING LEASE EXPENSE

The County is committed under an operating lease for office space for the Public Defender through March 31, 2020. Future minimum operating lease commitments for the General Fund are as follows:

COLES COUNTY, ILLINOIS
NOTES TO FINANCIAL STATEMENTS

During the year ended November 30, 2016, rent payments of \$36,000 were paid by the General Fund.

NOTE O - FEDERAL GRANTS

The County has received various federal grants subject to audit under the requirement of the Single Audit Act. Reporting requirements of the Single Audit Act are included in this report on pages 112-121. The grant programs are subject to audit by agents of the granting authority, the purpose of which is to ensure compliance with conditions precedent to the granting of funds.

NOTE P - RISK MANAGEMENT

The County is exposed to various risks of loss including, but not limited to, general liability, property casualty, workers compensation and public official liability. To limit exposure to these risks, Coles County participates in the Counties of Illinois Risk Management Agency for their insurance coverage. There have been no significant reductions in coverage from the prior year. No settlements have exceeded insurance coverage in each of the past three years.

NOTE Q - LAWSUIT

The County is a defendant in a lawsuit filed in federal court on June 9, 2017. The lawsuit challenges the County's approach for reassessment of commercial and industrial property and seeks monetary damages because of new reassessment values. The outcome of this lawsuit is not presently determinable.

SCHEDULE OF EMPLOYER CONTRIBUTIONS
December 31, 2015

Notes to Schedule:

Summary of Actuarial Methods and Assumptions Used in the Calculation of the 2015 Contribution Rate *

Valuation Date:

Actuarially determined contribution rates are calculated as of December 31 each year, which are 12 months prior to the beginning of the fiscal year in which contributions are reported.

Methods and Assumptions Used to Determine 2015 Contributions Rates:

Actuarial Cost Method:	Aggregate entry age = normal
Amortization Method:	Level percentage of payroll, closed
Remaining Amortization Period:	28-year closed period until remaining period reaches 15 years (then 15-year rolling period)
Asset Valuation Method:	5-year smoothed market; 20% corridor
Wage Growth:	4%
Price Inflation:	3%, approximate; no explicit price inflation assumption is used in this valuation.
Salary Increases:	4.40% to 16%, including inflation
Investment Rate of Return:	7.5%
Retirement Age:	Experience-based table of rates that are specific to the type of eligibility condition; last updated for the 2011 valuation pursuant to an experience study of the period 2008 to 2010.
Mortality:	RP-2000 Combined Healthy Mortality Table, adjusted for mortality improvements to 2020 using projection scale AA. For men, 120% of the table rates were used. For women, 92% of the table rates were used. For disabled lives, the mortality rates are the rates applicable to non-disabled lives set forward 10 years.

Other Information:

There were no benefit changes during the year.

*Based on Valuation Assumptions used in the December 31, 2013, actuarial valuation; note two year lag between valuation and rate setting.

This schedule is presented to illustrate the requirement to show information for 10 years. However, until a full 10-year trend is compiled, information is presented for those years for which information is available.
