Subject: Re: Letter to urge Governor to oppose efforts to repeal ACA

If the gov feels comfortable I think a statement vowing to protect medicaid is useful. U are not going to lose republican votes for that. The gap efforts in congress are not at all popular and allows bruce to look independent. But I also want to know if any of the people signing this letter can be helpful with other things. If we give them what they want, are there folks who can be helpful with positive statements, endorsements, etc?

Expressed reservations about repeal and replace given the importance of Medicaid in Illinois. Not out in front like Kachich or Nevada governor but clearly not in the Texas or Florida camp. Mostly avoids the issue. Our senators and other Ds have been calling him out but he has not responded. Laurel will have access to his previous public statements.

FYI. I know you are trying to get Bruce to say more in protection of Illinois citizens. I think that's politically wise as well. He has been held back by fear of Trump backlash but I think there is more he can and should say now to address moderates concerns.

Subject: Letter to urge Governor to oppose efforts to repeal ACA

Hi Diana,

We received this request yesterday due to the possible upcoming Senate vote to repeal the ACA. This is from the Protect Our Care Steering Committee – we had signed on to Protect Our Care. We signed on to a similar letter in May that I have attached. Ireta, Megan, and I have discussed and we believe the Ounce should sign on, but wanted to run it by you. The deadline is noon today. Below is both the request and the letter.

Are you okay if we sign on?
