

February 8, 2013

Dear Neighbor:

Tuesday February 26, 2013's Consolidated Primary Election offers us a real opportunity to have a true voice in local representation. I believe that Township Government remains one of our best values in government. It is still the most accessible level of government where our tax dollars are spent locally for services and programs that directly assist us.

Algonquin Township has enjoyed a long history of fiscal responsibility, **100 % transparency** and accountability, intergovernmental cooperation for consolidation of resources.. We have seen how the in-fighting, mismanagement and discord have resulted in excessive legal fees and debt for other townships. We need leaders that care about our residents, not just a salary. Leaders that are prepared for the fulltime commitment necessary to manage the challenges of governance in this economically challenged climate.

Enclosed you will find a SAMPLE ballot indicating my suggestions for the various offices. I have had the opportunity to meet with these individuals and discuss many of the issues facing our families today. They have provided me with their resumes and pertinent personal background information. They are all longtime Algonquin Township residents, property owners and maybe more importantly property taxpayers. They share our concern with rising taxes and falling property values and are committed to preserving our quality of life as this is where they live and are raising their families.

They are enthused about the opportunity to serve and have a wealth of ideas about relevant programs the Township could undertake at no additional cost.

Marc Munaretto has a solid history of strong financial management which he has pledged to use to the advantage of Algonquin Township. He questions the large cash reserve the current supervisor has acquired all the while increasing the levy. His understanding of the complicated tax levy process and his promise of tax levy stabilization or reduction is impressive and will result in tangible savings for our property owners.

My trustee suggestions are committed to preserving the many township programs we have come to rely on and unlike their challengers are not interested in cutting our programs.

I appreciate the time you have given me to share my thoughts regarding this important election. Please remember to **VOTE, Tuesday February 26, 2013!**

Respectfully,

Anna May Miller

Precinct Committeeman Algonquin 23
