Hi- Hope you are well.

I am reaching out because it has come to my attention that McHenry County Sheriff's Office has possibly referred another matter from Algonquin Township to you for investigation. This may have been done as much as one year ago. It was an allegation of eavesdropping by the Highway Commissioner from the Clerk (Karen Lukasick). Jim Popovits told the attorney it was referred to you for investigation. Unfortunately, I do not have the police report number but I can get it if you need it.

I was wondering if you were investigating this matter, if you did an investigation and it is closed, or if you guys are declining.

Can you please let me know what the status is. If you are declining, can you please send me a declination statement as you did with the Miller situation?

Thanks so much!

Laura L.V. King
