I then asked Morrison about the sale of the street sweeper to Island Lake. He stated there were major issues with that sweeper since day one. He stated it seemed to be an issue with the transmission that no one could figure out. He stated the sweeper was always crashing and they were lucky to get anything for it.

I asked Morrison if there was any reason that any employee would refer to the "winter shift differential" as a holiday bonus. He stated that he believed it was a type of holiday bonus in that it came before the holidays but pointed out he is receiving the same money now. I asked if there was a reason any office staff or part time employee such as a senior bus driver would get winter shift differential pay at the same time and he stated no. He went on to say there was no reason for any non-labor person to get any money and if they received any it was just a holiday bonus. He also mentioned that he was told it was illegal for township employees to receive any holiday bonus so that might be why they call it winter shift differential pay.

The interview concluded at approximately 0935 hours.
