June 27, 2019

To: Deputy Chief Bleichner  
From: Officer Kaase  
Incident Date: June 26, 2019  
Subject: Michael S. Maines, Bloomington Fire Department

On Wednesday, 06/26/19, at approximately 2223 hours, I observed a blue Chevrolet hatchback begin to drive onto the ISU Quad through the parking lot on the south side of Hovey Hall. The vehicle drove approximately 50 feet onto the sidewalk and then reversed back into the parking lot. I made contact with the driver, Michael S. MAINES. I noticed his eyes were bloodshot and he had a large quantity of cash on the front passenger seat. MAINES stated he was lost and looking to get to Veterans Parkway. I asked where he had come from and he stated a female's residence he met on "Bumble." I inquired if he was from the area and he stated he was not. I asked where he worked and he stated Bloomington Fire Department (BFD) as a firefighter. I inquired how long he had been employed and he responded for seven months. I asked why he was unfamiliar with the area if he worked for BFD for seven months, he stated he was not familiar with the town of Normal. He stated he thought he saw a stop sign on the Quad but was unable to direct me to observe any specific object that appeared to be a stop sign. I inquired where the large sum of cash was from and MAINES informed me he was gambling at the Pub II. When I asked about the number of alcoholic beverages he consumed, he stated he had one bottle of beer approximately an hour earlier.

I requested MAINES perform Standard Field Sobriety Tests, which he complied. Officer Shepard arrived on scene to assist. I inquired if MAINES had any eye problems or abnormalities. MAINES stated one of his eyes was "weak." I asked for clarification, and he explained his vision was not as strong as 20/20. I read the instructions for the Horizontal Gaze Nystagmus (HGN) test and MAINES stated he understood the instructions. I observed 4 out of 6 clues on HGN: lack of smooth pursuit in both eyes, and distinct and sustained nystagmus in both eyes. When I initially began to test for lack of smooth pursuit, during the first pass MAINES took his eyes off my finger being used as a stimulus. I had to instruct a second time, to follow my finger with his eyes only.

I requested MAINES perform the Walk and Turn test (WAT). While reading the instructions, MAINES asked multiple times for me to repeat part of the instructions. MAINES stated he understood the instructions and performed the test. MAINES had to be instructed during the test to look at his feet. I observed 2 out of 8 clues on the WAT: incorrect number of steps (both passes) and improper turn.

I requested MAINES perform the One Leg Stand test (OLS). I read the instructions and MAINES stated he understood. Initially, when MAINES began the test he failed to raise his foot six inches and keep it parallel to the ground. He had to be instructed several times on how to perform the OLS. I observed 0 out 4 clues on OLS.

Based on my training and experience, I determined MAINES was close to but not above the legal limit for driving under the influence (DUI). I informed MAINES, I was not placing him

under arrest for DUI, but was not comfortable with him driving. During this time, MAINES became argumentative with Officer Shepard and I, as well as, repetitive with his statements. In my training and experience, this indicative of the effects of intoxication.

MAINES agreed to allow me to park his vehicle in the business permit spot. Before doing so, I requested MAINES remove his large sum of cash from the vehicle, which he agreed. After relocating MAINES' vehicle, I asked him to request an Uber or taxi. He stated he would. I informed him I wanted to see the vehicle pick him up, so I know he was being honest. MAINES complied with the request. MAINES asked when he could come back for the vehicle since he had work at 0700 hours. Officer Shepard stated at 0600 hours. MAINES briefly debated with Officer Shepard but stated he would comply.

Officer Shepard request MAINES submit to a Portable Breath Test (PBT), which he consented provided the results not be documented. As you instructed me to provide, the PBT read 0.090% Blood Alcohol Concentration. Officer Shepard inquired a second time about the number of alcoholic beverages MAINES consumed. MAINES told a summary of events of his day and stated a second time he had one bottle beer. I informed MAINES due to his employment, I would notify my supervisor of the incident. MAINES asked if his employer would be notified and I stated that would be determined by the supervisor.
