Subject: Fw: Update - Rebuild Illinois and IDOT MYP

Good News

As a result of this additional funding Shelbyville can expect to receive an additional:

- +\$81,660 a year in MFT due to 10 cent gas tax
- + \$309,942 in MFT spread out over 3 years due to sell of \$1.5 billion bond

if you have any questions let me know

alan

Subject: Update - Rebuild Illinois and IDOT MYP

Good morning,

We are very happy to provide you with an update on the status of Rebuild Illinois and the just released IDOT Multi-Year Program.

You'll recall the state FY2020 budget as passed did not include any funds for the State Matching Assistance local program and it cut funding for the Consolidated Counties, Needy Township, & High Growth Cities local programs by 75%. Your IACE leadership, Craig Fink and I have been working with IDOT, legislators and staff, and the Governor's administration, urging them to not only restore these programs but increase them so all local agencies would receive the same estimated 68% increase in their base annual revenue intended by Rebuild Illinois.

You can see in the attached portion of the just released IDOT MYP that those programs are all included. Craig's analysis shows they are included at the 68% increased level we had requested. The attached spreadsheet shows Craig's estimated impact of this MYP combined with the impacts of Rebuild Illinois with all local agencies base annual revenue projected to be at the same 68% increased level. Acting Transportation Secretary Omer Osman has confirmed these programs are at that level. In addition, he along with the Governor's administration have given us their commitment to push the necessary legislation in the veto session to ensure the MYP can be delivered accordingly.

In addition, Acting Transportation Secretary Omer Osman and the Governor's administration have confirmed that the \$1.5 Billion in bond proceeds for locals will be delivered in two \$250 Million disbursements per year over the first 3 years of Rebuild Illinois. The attached spreadsheet shows the estimated impact of the full \$1.5 Billion for all local agencies. This is another item your IACE leadership, Craig and I have been working towards with IDOT, legislators and staff, and the Governor's administration.

This is a huge positive development in our ongoing efforts and we know, as we have proven time and again, that these funds are sorely needed.

Please call if you have questions. Thanks.

Craig Fink and Molly Rockford

State of Illinois
Illinois Department of Transportation

FY 2020-2025

Proposed Highway Improvement Program

Local Program

The MYP provides \$4.14 billion for improvements to an estimated 755 miles and more than 744 thousand square feet of deck area. Of these, 8 miles and 116 thousand square feet of deck area are on the NHS. Funding for local projects comes from federal, state and local funds for highway improvements selected by local units of government. The funding described in this document is in addition to the funds allocated directly to the local agencies through the state motor fuel tax allotments. Additional funding totaling \$1.5 billion in Series A bonds for grants to local agencies was included in the Rebuild Illinois capital program. In addition, another \$400 million annually will be distributed through the Motor Fuel Tax distribution formula from a portion of the \$.19 gas tax increase. The department also provides local governments funding for the following special programs, which total \$620.7 million.

- \$219.7 million for the county consolidated program
- \$40.3 million for high-growth cities
- \$100.9 million for needy townships
- \$90 million for the township bridge program
- \$42 million for upgrading local truck routes
- \$39.8 million for state matching assistance
- \$90 million to foster economic development

Performance Metrics and System Condition

The below chart shows the acceptable condition levels for all road system types. The acceptable condition levels for all non-interstate, state-maintained roads will be measured against the same standard. The department has determined that the standard for non-interstates will be a Condition Rating Survey (CRS) of 5.0 or higher on a scale of 1.0 to 9.0. Interstates will be held to a higher standard of a 5.5 or higher CRS. Pavements in this condition are considered to be in fair condition, which means that they can be preserved using low-cost preservation treatments.

System	Acceptable Condition (CRS)	Desired System Percentage In Acceptable Condition
Interstate	5.5 or greater	90%
Other NHS	5.0 or greater	90%
Non-NHS Marked Routes	5.0 or greater	75%
Non-NHS Unmarked Routes	5.0 or greater	50%
