Everytime I attend a meeting with our EMA Director, I'm amazed at how many people Mike knows across the state in his field. It is a source of pride to me that this very knowledgeable and talented individual works for Piatt County. We are so fortunate to have him. It is a feather in our cap. I need to sit down with Mike and write down all of his current EMA roles so we can do another OP-ed piece for the paper. In my opinion, we must do everything we can to keep Mike working here. Mike's reputation rivals and may even surpass Mr. Seibring's who is always touted as "the gold standard" for being outstanding in his field.

Thanks, Mike!
