COMPLAINT

NOW COME Plaintiffs, KIRK ALLEN and EDGAR COUNTY WATCHDOGS, by the undersigned attorneys, LOEVY & LOEVY, and bring this suit to overturn Defendant ILLINOIS STATE POLICE’s willful violation of the Illinois Freedom of Information Act. Defendant ILLINOIS STATE POLICE failed to comply with Plaintiffs’ Freedom of Information Act request for ISP’s investigation records regarding the Shelby County Sheriff’s Office and Shelby County Sheriff Don Koonce for selling seized weapons in violation of state law. In support of the Complaint, Plaintiffs state as follows:

INTRODUCTION

1. Pursuant to the fundamental philosophy of the American constitutional form of government, it is the public policy of the State of Illinois that all persons are entitled to full and complete information regarding the affairs of government and the official acts and policies of those who represent them as public officials and public employees consistent with the terms of the Illinois Freedom of Information Act (“FOIA”). 5 ILCS 140/1.
2. Restraints on access to information, to the extent permitted by FOIA, are limited exceptions to the principle that the people of this state have a right to full disclosure of

FILED DATE: 4/15/2021 10:50 AM 2021CH01814

information relating to the decisions, policies, procedures, rules, standards, and other aspects of government activity that affect the conduct of government and the lives of the people. 5 ILCS 140/1.

3. Under FOIA Section 1.2, “[a]ll records in the custody or possession of a public body are presumed to be open to inspection or copying. Any public body that asserts that a record is exempt from disclosure has the burden of proving by clear and convincing evidence that it is exempt.” 5 ILCS 140/1.2.

PARTIES

4. Plaintiffs KIRK ALLEN and EDGAR COUNTY WATCHDOGS are members of the media and made the FOIA request in this case.

5. Defendant ILLINOIS STATE POLICE (“ISP”) is a public body located in Cook County, Illinois.

PLAINTIFFS’ FOIA REQUESTS TO ISP

6. On February 16, 2021, Plaintiffs submitted a FOIA request to ISP for “all investigation records resulting from the investigation of seized weapons sales by the Shelby County Sheriff. We understand according to the State’s Attorney in Shelby County that this investigation was concluded last summer.” Exhibit A.

7. On February 23, 2021, ISP assigned reference number 21-00436 to the matter and stated that it is not “able to identify any public records responsive to” the request based on the information Plaintiffs provided. ISP also asked Plaintiffs to be “very specific” on the type of reports or records that they are requesting. Exhibit B.

8. On February 23, 2021, per ISP’s suggestion to be more specific, Plaintiffs submitted a FOIA to ISP for “all investigation records resulting from the investigation of the Shelby County Sheriff’s office and Shelby County Sheriff Don Koonce for selling seized

weapons in violation of state law. This investigation would have taken place in the last 18 months. We understand that multiple sources provided information to the ISP to include the FBI, Shelby County Treasure[r], and possibly the Shelby County State's Attorney. We do not have the birth date of Sheriff Koonce." Exhibit C.

9. On March 9, 2021, ISP assigned reference number 21-0567 to the February 23, 2021 request. Exhibit D.

10. ISP's response letter addressed both requests, 21-0436 and 21-0567. *Id.*

11. On March 9, 2021, ISP granted the requests in part and denied the requests in part. *Id.*

12. ISP redacted or withheld various private information and other information pursuant to Sections 7(1)(a), 7(1)(b), 7(1)(c), and 7.5(v) of FOIA. For its statutory basis to assert Section 7(1)(a) of FOIA, ISP cited a December 5, 2011, Agreed Order Entering a Permanent Injunction, which prohibits ISP from providing the identities of any person who has applied for a FOID card. *Id.*

13. Plaintiffs do not challenge any exemptions or withholdings of records regarding private identities or those who applied for FOID cards.

14. Regarding investigation records, ISP provided some records, but redacted and withheld records, including heavily redacting fifteen pages of records and fully redacting more than twenty pages of records by citing Section 7(1)(d)(i), (iii), (iv), (vi), and (vii) of FOIA. Exhibit E.

15. Plaintiffs challenge the various Section 7(1)(d) redactions ISP made and any records that were withheld under Section 7(1)(d) of FOIA.

16. In violation of Section 9(a) of FOIA, ISP has not provided a “detailed factual basis for application of any exemption claimed.” 5 ILCS 140/9(a).

17. Sections 7(1)(d)(i), (iii), (iv), (vi), and (vii) state:

Records in the possession of any public body created in the course of administrative enforcement proceedings, and any law enforcement or correctional agency for law enforcement purposes, but *only to the extent that disclosure would:*

- (i) interfere with pending or actual and reasonably contemplated law enforcement proceedings conducted by any law enforcement or correctional agency that is the recipient of the request;
- (iii) create a substantial likelihood that a person will be deprived of a fair trial or an impartial hearing;
- (iv) unavoidably disclose the identity of a confidential source, confidential information furnished only by the confidential source, or persons who file complaints with or provide information to administrative, investigative, law enforcement, or penal agencies; except that the identities of witnesses to traffic accidents, traffic accident reports, and rescue reports shall be provided by agencies of local government, except when disclosure would interfere with an active criminal investigation conducted by the agency that is recipient of the request;
- (vi) endanger the life or physical safety of law enforcement personnel or any other person; or
- (vii) obstruct an ongoing criminal investigation by the agency that is the recipient of the request.

5 ILCS 140/7(1)(d)(i), (iii), (iv), (vi), and (vii) (Emphasis added).

18. Instead, ISP only provided a generic claim that it is “still actively investigating this case” and “continues to identify witnesses, analyze evidence and prepare reports.” Exhibit D.

19. At Shelby County Board’s February 11, 2021 public meeting, a member of the public inquired as to the status of the “gun sales” investigation. In response, Shelby County State’s Attorney’s Office claimed, “The investigation was completed last summer. The Attorney General’s Office accepted it, so we should have a decision, I believe they are waiting on a forensic audit, [] they will have the results of that at the same time when the forensic audit is

issued.” *Shelby Co. Board Meeting 2.11.2021*, YouTube (Feb. 11, 2021) (at time stamp 3:50:50) available at <https://www.youtube.com/watch?v=HJl10kZq6v8>.

20. ISP has not demonstrated that the requested records are exempt under FOIA.

21. As of the date of this filing, ISP has not complied with FOIA and has not produced all records responsive to the request.

**COUNT I – PLAINTIFFS’ FOIA REQUESTS TO ISP,
FAILURE TO PRODUCE RECORDS**

22. The above paragraphs are incorporated by reference.

23. ISP is a public body under FOIA.

24. The records sought in the FOIA request are non-exempt public records of ISP.

25. ISP failed to produce all records responsive to the request.

**COUNT II – PLAINTIFFS’ FOIA REQUESTS TO ISP,
FAILURE TO PERFORM AN ADEQUATE SEARCH**

26. The above paragraphs are incorporated by reference.

27. ISP is a public body under FOIA.

28. ISP bears the burden of proving beyond material doubt that it performed an adequate search for responsive records.

29. ISP has failed to come forward with sufficient evidence to carry this burden.

30. ISP has violated FOIA by failing to adequately search for responsive records.

**COUNT III – PLAINTIFFS’ FOIA REQUESTS TO ISP,
WILLFUL AND INTENTIONAL VIOLATION OF FOIA**

31. The above paragraphs are incorporated by reference.

32. ISP is a public body under FOIA.

33. The records sought in the FOIA request are non-exempt public records of ISP.

34. ISP willfully and intentionally, or otherwise in bad faith, failed to comply with FOIA.

WHEREFORE, Plaintiffs ask that the Court:

- i. declare that ISP has violated FOIA;
- ii. order ISP to produce the requested records;
- iii. enjoin ISP from withholding non-exempt public records under FOIA;
- iv. order ISP to pay civil penalties;
- v. award Plaintiffs reasonable attorneys' fees and costs; and
- vi. award such other relief the Court considers appropriate.

From: [Kirk Allen](#)
To: [ISP.FOIA.Officer](#)
Subject: [External] FOIA Request -
Date: Saturday, February 13, 2021 11:34:51 AM

In accordance with the Freedom of Information Act of Illinois, I am requesting the following public records.

1. A copy of all investigation records resulting from the investigation of seized weapons sales by the Shelby County Sheriff. We understand according to the State's Attorney in Shelby County that this investigation was concluded last summer.

I qualify as both media and non-profit under the definitions in Section 2 (c-10) ("Commercial purpose"), Section 2 (f) ("News media"), Section 2 (g) ("Recurrent requester"), and Section 2 (h) ("Voluminous request") of the Freedom of Information Act, for the purposes of being exempt to the provisions of Section 3.1 (Requests or commercial purposes), Section 3.2 (Recurrent requesters), Section 3.6 (Voluminous requests), and Section 6 (Authority to charge fees).

I request expedited processing on the basis of an urgency to inform the citizens and taxpayers of Illinois about their government's activities. If any element of this request is denied in whole or in part, I ask that you justify all withholdings individually by reference to specific exemptions of the Act. Please provide all responsive information to me electronically.

I request a rolling production of records, such that the public body furnishes records to my attention as soon as they are identified, preferably electronically, but as needed then to my attention, at the below address. If you have any questions please do not hesitate to contact me. Rolling production is not to be perceived as an agreement to extend the time frame for compliance under FOIA.

If you are not the FOIA officer responsible for any part of this request you are required by law to forward it to the appropriate FOIA officer.

The purpose of the request is to access and disseminate information regarding the legal rights of the general public and is not for the principal purpose of personal or commercial benefit.

As outlined in FOIA, documents shall be furnished without charge or at a reduced charge, as determined by the public body, if the person requesting the documents states the specific purpose for the request and indicates that a waiver or reduction of the fee is in the public interest. Waiver or reduction of the fee is in the public interest if the principal purpose of the request is to access and disseminate information regarding the health, safety and welfare or the legal rights of the general public and is not for the principal purpose of personal or commercial benefit.

I am requesting the records be provided in electronic format if that is the method in which they are stored. If they are in paper form and the copier can convert them to electronic format I would appreciate receiving them electronically.

Thanks,

Re: FOIR #21-0436 Response

Dear Mr. Allen:

Thank you for writing the Illinois State Police ("ISP") with your request for information pursuant to the Illinois Freedom of Information Act ("FOIA"), 5 ILCS 140/1 et seq. The ISP acknowledges receipt of your FOIA request dated February 13, 2021. (See attached request).

A reasonable search for the requested records was conducted; however, the ISP found no responsive records with the provided search terms. Please be aware the ISP only maintains records that it creates or receives.

The ISP is not able to identify any public records responsive to your request based on the information that you have provided.

In the future, please be very specific on the type of reports or records that you are requesting (*i.e.*, lab reports, investigative report, arrest report, crash report, ticket).

- A. For arrest reports or other investigatory records, please provide: (1) name, (2) date of birth, (3) date of incident (or date range), and ISP report number, if known.
- B. For laboratory reports, please provide: (1) ISP report number, (2) ISP lab case number, (2) suspect's name, and (3) victim's name(s), and (4) date of incident.

Please be aware that the ISP cannot conduct a search by circuit court case number and only maintains records it creates, receives, and retains.

After you obtain the required information, please submit a new FOIA request.

Exhibit B

Sincerely,

DAVID CATLIN

[REDACTED]

Re: FOIR #21-0436 Supplemental Response and 21-0567 Response

Dear Mr. Allen:

Thank you for writing the Illinois State Police ("ISP") with your request for information pursuant to the Illinois Freedom of Information Act ("FOIA"), 5 ILCS 140/1 *et seq.* The ISP acknowledges receipt of your FOIA request dated February 17, 2021 and February 23, 2021. (See attached requests).

The ISP is granting your request in part and denying your request in part. The request was denied in part because some of the information in the records required redaction and/or were exempt from disclosure. The basis for the ISP's decision in this matter is follows:

1. Section 7(1)(a) of FOIA

"Subject to this requirement, the following shall be exempt from inspection and copying: ... (a) Information specifically prohibited from disclosure by federal or State law or rules and regulations implementing federal or State law" (5 ILCS 140/7(1)(a)).

Disclosure of some of the records you have requested is prohibited by federal or State law or rules and regulations implementing such laws.

2. Sections 7(1)(b) and 2(c-5) of FOIA

"Subject to this requirement, the following shall be exempt from inspection and copying: ... (b) Private information, unless disclosure is required by

Exhibit D

another provision of this Act, a State or federal law or a court order.” (5 ILCS 140/7(1)(b)).

“(c-5) Private information” means unique identifiers, including a person's social security number, driver's license number, employee identification number, biometric identifiers, personal financial information, passwords or other access codes, medical records, home or personal telephone numbers, and personal email addresses. Private information also includes home address and personal license plates, except as otherwise provided by law or when compiled without possibility of attribution to any person.” (5 ILCS 140/2(c-5)).

All relevant private information has been redacted.

3. Section 7(1)(c) of FOIA

“(c) Personal information contained within public records, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy, unless the disclosure is consented to in writing by the individual subjects of the information. ‘Unwarranted invasion of personal privacy’ means the disclosure of information that is highly personal or objectionable to a reasonable person and in which the subject's right to privacy outweighs any legitimate public interest in obtaining the information. The disclosure of information that bears on the public duties of public employees and officials shall not be considered an invasion of personal privacy.” (5 ILCS 140/71(c)).

Documents containing personal information which would clearly constitute an unwarranted invasion of personal privacy have been redacted including, but not limited to, dates of birth and medical information.

4. Section 7.5(v) of FOIA

“Statutory exemptions. To the extent provided for by the statutes referenced below, the following shall be exempt from inspection and copying: ... (v) Names and information of people who have applied for or received Firearm Owner's Identification Cards under the Firearm Owners Identification Card Act or applied for or received a concealed carry license under the Firearm Concealed Carry Act, unless otherwise authorized by the Firearm Concealed Carry Act; and databases under the Firearm Concealed Carry Act, records of the Concealed Carry Licensing Review Board under the Firearm Concealed Carry Act, and law enforcement agency objections under the Firearm Concealed Carry Act.” (5 ILCS 140/7/5(v)).

Disclosure of names and information of people who have applied for or received Firearm Owner's Identification Cards or applied for or received a concealed carry license under the Firearm Concealed Carry Act is prohibited.

5. Agreed Order Entering a Permanent Injunction

The ISP is also prohibited from providing the identities of any person who has applied for a FOID card based on an Agreed Order Entering a Permanent Injunction ("Order") entered on December 5, 2011. The Order was entered by the Honorable Chief Judge Michael E. Brandt in the Circuit Court of the Tenth Judicial Circuit of Illinois, Peoria County. *See* attached Order. The Order provides in relevant part:

- “6. The Freedom of Information Act (5 ILCS 14011 *et seq.*), and as amended, exempts certain information from disclosure, inspection, or copying. Pursuant to the Freedom of Information Act, the State Police, its officers, employees, and agents, shall be prohibited from releasing, in response to a request made under the Freedom of Information Act, any personally identifying information- as defined *infra* in ¶ 7 containing any of the following:
 - a. Records identifying, directly or indirectly, any person who has applied for a FOID card, who has been issued or denied a FOID card, or whose FOID card has expired or been revoked” (emphasis added). Order, p. 2.

The Order provides that the ISP cannot release any information that identifies a person (including their name) who has applied for a FOID card. The language of the Order also provides that the ISP is prohibited from releasing information under FOIA that identifies a person “directly or indirectly” who has applied for or was issued a FOID card.

6. Section 7(1)(d)(iv) of FOIA

“Subject to this requirement, the following shall be exempt from inspection and copying: ... (d) Records in the possession of any public body created in the course of administrative enforcement proceedings, and any law enforcement or correctional agency for law enforcement purposes, but only to the extent that disclosure would: ... (iv) unavoidably disclose the identity of a confidential source, confidential information furnished only by the confidential source, or persons who file complaints with or provide information to administrative, investigative, law enforcement, or penal agencies; except that the identities of witnesses to traffic accidents, traffic accident reports, and rescue reports shall be provided by agencies of local government, except when disclosure would interfere with an active criminal

investigation conducted by the agency that is the recipient of the request” (5 ILCS 140/7(1)(d)(iv)).

The identity of a confidential source, confidential information furnished by the confidential source, or persons who provide information to law enforcement including witnesses, is exempt from disclosure.

7. Section 7(1)(d)(vi) of FOIA

“Subject to this requirement, the following shall be exempt from inspection and copying: ... (d) Records in the possession of any public body created in the course of administrative enforcement proceedings, and any law enforcement or correctional agency for law enforcement purposes, but only to the extent that disclosure would: ... (vi) endanger the life or physical safety of law enforcement personnel or any other person.” (5 ILCS 140/7(1)(d)(vi)).

Releasing the identity of a confidential source, confidential information furnished by the confidential source, or persons who provide information to law enforcement including witnesses may endanger the person’s life or physical safety.

The statement was withheld in its entirety because disclosure of its contents would result in the disclosure of the identity of the confidential source or witness. *See generally Copley Press, Inc. v. City of Springfield*, 266 Ill. App. 3d 421, 426 (4th Dist. 1994).” Ill. Att’y Gen. PAC Req. Rev Ltr. 36453, issued January 11, 2017. Furthermore, where a records cannot be meaningfully redacted, the record may be withheld in full. Ill. Att’y Gen. PAC Req. Rev Ltr. 44509, issued January 6, 2017.

“Law enforcement operations have little hope of being effective if conducted in full public view ... Without the grant of confidentiality, the public is less likely to cooperate with an investigation and wrongdoing will go undetected or unsolved.” *The Copley Press, Inc. v. City of Springfield*, 266 Ill. App. 3d 421, 424 (4th Dist. 1994).

8. Section 7(1)(d)(i) of FOIA

“(d) Records in the possession of any public body created in the course of administrative enforcement proceedings, and any law enforcement or correctional agency for law enforcement purposes, but only to the extent that disclosure would: (i) interfere with pending or actually and reasonably contemplated law enforcement proceedings conducted by any law enforcement or correctional agency that is the recipient of the request;” (5 ILCS 140/7(1)(d)(i)).

9. Section 7(1)(d)(iii) of FOIA

“(d) Records in the possession of any public body created in the course of administrative enforcement proceedings, and any law enforcement or correctional agency for law enforcement purposes, but only to the extent that disclosure would: ... (iii) create a substantial likelihood that a person will be deprived of a fair trial or an impartial hearing;” (5 ILCS 140/7(1)(d)(iii)).

10. Section 7(1)(d)(vii) of FOIA

“(d) Records in the possession of any public body created in the course of administrative enforcement proceedings, and any law enforcement or correctional agency for law enforcement purposes, but only to the extent that disclosure would: ... (vii) obstruct an ongoing criminal investigation by the agency that is the recipient of the request.” (5 ILCS 140/7(1)(d)(vii)).

The Illinois State Police is still actively investigating this case. Releasing the information at this time could compromise the investigation. The ISP continues to identify witnesses, analyze evidence and prepare reports. Once the initial investigation has been completed, the case file must be submitted to the State’s Attorney for review. Even after submission to the State’s Attorney, ISP may be asked to conduct follow up interviews and conduct further investigation. Releasing the case file before the review and before formal criminal proceedings are concluded would significantly impact the outcome of the case and would deprive involved parties of their due process and fair trial.

The release of information would allow witnesses and/or the defendant to collude so that their testimony matches (or contradicts) statements and/or evidence already collected by the ISP. It could also inhibit witnesses from coming forward, jeopardizing their willingness to cooperate with the investigation. Also, there may be additional witnesses who have not yet come forward and need to be interviewed. The recollection of the witnesses could be influenced by the requested information if it is released. The testimony of the involved parties may then be influenced by what they see in these preliminary reports, which means it would be prejudiced or biased. Finally, the release of this information at this time would serve to taint a jury pool, by allowing the potential jury pool to form an opinion as to a person's guilt or innocence prior to trial. Thus, the accused would be prevented from receiving a fair trial for all of the above reasons.

We invite you to resubmit your FOIA request at a later date when the ISP is able to release the records you are seeking. You may also want to consider contacting the ISP Public Information Office (“PIO”) regarding this matter. The most efficient way to contact the PIO is by sending an email to ISP.PIO.Personnel@illinois.gov.

Standard Reservation of rights. The ISP reserves all rights to assert additional exemptions set forth in FOIA, 5 ILCS 140/1 et. seq. and other applicable federal or state laws or rules and regulations, to withhold these records. It also reserves the right to provide supplement factual

information in support of the claimed exemption or any further exemptions that may be claimed. Certain records may be withheld in their entirety due to applicable exemptions. Finally, the ISP reserves the right to withhold records based on another law enforcement agency's claimed exemptions.

You have the right to have the decision of the ISP reviewed by the Public Access Counselor ("PAC") at the Office of the Attorney General (5 ILCS 140/9.5(a)). You can file your Request for Review with the PAC by writing to:

Public Access Counselor
Office of the Attorney General
500 South 2nd Street
Springfield, Illinois 62706
(877) 299-3642

If you choose to file a Request for Review with the PAC, you must do so within 60 calendar days of the date of this letter (5 ILCS 140/9.5(a)). Please note that you must include a copy of your original FOIA request and this letter when filing a Request for Review with the PAC.

You also have the right to seek judicial review of the decision of the ISP by filing a lawsuit in the State circuit court (5 ILCS 140/11).

Sincerely,

DAVID CATLIN

NARRATIVE					

SYNOPSIS:

In December of 2019, [REDACTED]
[REDACTED] also mentioned possible illegal firearms transaction of seized
firearms conducted by the Sheriff's Office in 2018. In April, 2020, [REDACTED]
[REDACTED]

The purpose of this report is to document information provided to Illinois State Police Zone 5 Investigations-
Champaign, Illinois by [REDACTED] and the origin of Exhibit #5.

Details:

On 09/01/2020, I, Special Agent Jennifer Smit #6725, transferred the information provided by [REDACTED]
[REDACTED] to a DVD. Attached to this report is an overview of documents contained within the DVD. The
information was gathered between April of 2020 and August of 2020.

On 09/01/2020, the DVD was packaged and labeled as Exhibit #5. At 11:45 a.m., Exhibit #5 was placed into
temporary evidence locker #9, located at 2125 South First Street, Champaign, Illinois.

End of report.

[REDACTED]

[REDACTED]

I asked [REDACTED] take on the Shelby County firearms issue. [REDACTED] confirmed knowledge of the situation, advising it pertained to an individual that faced firearms charges. Shortly after the resolution of the case, the subject involved passed away. [REDACTED] advised [REDACTED] ([REDACTED]) had stated [REDACTED] and him had a conversation in reference to the firearms. [REDACTED] does not remember the specifics of the conversation, but said if [REDACTED] asked [REDACTED] about the disposal/ selling of the firearms [REDACTED] likely said "ok". [REDACTED] does not believe it was ever posed to [REDACTED] for there to be an employee auction for purchasing the firearms.

I asked [REDACTED] for documentation referencing the surrender of the firearms. [REDACTED] advised there was an order for the firearms which stated "forfeit firearm" (singular nor plural). The order did not list serial number(s), make(s) or model(s). [REDACTED] does not know if [REDACTED] made a mistake and put firearm versus firearms, since he had multiple guns. [REDACTED] said [REDACTED] would provide me with a copy of the order.

I asked [REDACTED] if [REDACTED] knew the process for the Sheriff's Office getting rid of the firearms. [REDACTED] said [REDACTED] did not know, but thought it was done through a bidding process. [REDACTED] advised "Locked N Loaded" (Located in Pana, IL) handled the paperwork for transferring the firearms. [REDACTED] said to [REDACTED] knowledge the bidding process was never open to the public.

I asked [REDACTED] if [REDACTED] knew the intention of the proceeds from the firearms sales. [REDACTED] to [REDACTED] knowledge, said the proceeds were to go for "Shop with a Cop". As far as [REDACTED] knew, the money went into that fund. [REDACTED] thought when the sales were rescinded, the money was taken out, given back to the employees, and the firearms were returned to the county.

The interview was concluded at approximately 12:01pm.

On Thursday, June 4, 2020, the audio recorded interview of [REDACTED] was transferred to a CD-R. The CD-R was packaged and labeled as Exhibit #3. Exhibit #3 was placed into temporary evidence locker #7, located at 2125 South First Street, Champaign, Illinois.

End of report.

Narrative Date/Time: 10/12/2017 10:11

On 10-11-2017 at 1058 am, I (Deputy Sean McQueen) was dispatched to [REDACTED] to investigate a report of an individual discharging a firearm and currently walking down the road with it in his hand. Dispatch advised me the name of the suspect was Al L. Davis and he [REDACTED].

Upon arrival at 1119 am, I first went to [REDACTED] as the TC had advised me he might possibly be there. After not finding him at this address, I looked at an additional location in the 200 block of Champlain Ave for the subject. He was not in this location either.

**Offense/Incident Report
31-17-000807**

Print Date/Time:
10/16/2017 09:19

Sgt Wood arrived on scene and we went to the subject residence at [REDACTED]. There we found Al L. Davis DOB [REDACTED]. When Mr. Davis came to the door, I advised him why we were there and asked him if he had shot a gun somewhere in Tower Hill earlier. He at that time admitted to shooting a handgun on Champlain Street, in the 100 block.

I asked him where the handgun was at now, and he stated it was in his house in a case. I then asked him if he would allow us into the house to retrieve the gun, and he allowed entry.

After securing the handgun, that was in a case, I asked him if he had any additional guns in the house [REDACTED]. He advised there were many guns in the house and gave us permission to confiscate said weapons.

Davis was then placed into handcuffs, they were checked for comfort and fit, and his Miranda Rights were read to him. He advised he understood each right.

I asked him why he had discharged the weapon in a residential area. He told me he had been walking down the road with the gun in his pocket, and a dog had ran up to him. He advised me he shot at the dog (6) times, striking the ground all (6) times.

He advised he did not believe he struck the dog. Al advised us when he got back to his house after shooting at the dog, he placed the (6) spent rounds of ammo in a white ammo box. He pointed at the box that was sitting on a table in his residence, and gave me permission to obtain the box.

32 guns, both handgun and long gun were removed from the house [REDACTED]. 31 ammo cases/boxes of assorted ammunition was also removed from this [REDACTED].

All weapons and ammo was logged into evidence and tagged. For exact makes and models of all guns confiscated see Shelby County Sheriffs Office evidence form attached to this report.

After all guns were removed from the house, I talked with the complainant and witness, [REDACTED] DOB [REDACTED] who lives at [REDACTED]. He advised that he had been at his sons house today at [REDACTED] at approx 10 am and witnessed Al L. Davis sitting on the front porch loading a [REDACTED].

He advised that Al then got up and started walking away from the house with the handgun at his side, walking down the street. A few minutes later he called the police.

I then talked with another witness, [REDACTED] DOB [REDACTED] who lives at [REDACTED]. He advised me that he had been inside his house and heard what he believed to be gunshots outside.

Approx 1 minute later he exited his residence and saw Al L. Davis walking down the street. He advised he (Al Davis), then came up on his porch and pulled a silver handgun out of his waste band and started loading it. [REDACTED] asked Al if he had discharged his gun, and Al advised he had, down by Wallace's due to a dog coming towa [REDACTED].

Al advised he did not think he struck the dog with any bullets. [REDACTED] then advised Al got up and started walking down the road with the handgun at his side. I did find a dog in the approx. location that Mr. Davis had discharged the rounds, and took some pictures.

On 10-12-2017 at approx 1130 am, I met with Al L. Davis in the interview room of the SCSO Detention Center. I read him his rights and he acknowledged them by putting his initials next to each right on Miranda form. He then waived his rights by signature on same form, as he advised me he would be willing to answer some additional [REDACTED].

I showed him a picture of the ammo box that he had placed the spent rounds in, and he confirmed that it was the box. I showed him a picture of the dog I had taken pictures of, he confirmed that it was the same dog he shot at. I also showed him a picture of the gun he had used during the commission of this crime, and he confirmed that it was the exact gun.

The following charges have been placed on Al L. Davis DOB [REDACTED]

Setting in Living room heard 4 or 5 shots go off. and thought was a nail gun. 1 minute later. Dad drove up and honked horn. myself at granddaughter [REDACTED] walked out on porch to talk to Dad then looked up street and seen AL Lynn coming down to use phone. Told him that my phone was dead needed to use Dads phone. Dads phone set in porch swing I was talking to Dad watching granddaughter. Looked over at had gun and he was taking empty bullets out of putting fresh bullets in. I said what the heck are you doing with the gun. He said was shooting dogs up the street. Told him did you hurt them. He replied. don't think so. Told him he was going to get in trouble for carrying gun around. And then Dad was leaving to go home. at he wanted dad to take home. Dad said no. Wasn't going home. Sat out on front porch for 10 more minutes, so I told him we were going in. and he started walking road carrying pistol by side. And thats it.

Date of Decision: May 11, 2020
Briefing Date: March 25, 2020
Hearing Date: February 6, 2020 (9:30 a.m.)
Hearing Locale: Shelby County Courthouse. Shelbyville, IL

Approved By
Dumonceaux, Chad #5852

Disclaimer: This document contains neither recommendations nor conclusions of the Illinois State Police. It and its contents are not to be disseminated outside of your agency.

I. STATEMENT OF THE CASE

This is an interest arbitration pursuant to Section 14 of the Illinois Public Labor Relations Act ("Act") to resolve economic issues between the Shelby County/ Sheriff Office ("Sheriff" "County" or "Employer") and the Fraternal Order of Police, Labor Council ("Union"). This arbitration concerns an impasse over the terms of a contract for two certified units of the Sheriff's employees. They are the sworn unit ("Unit A") consisting of the deputy sheriffs and the unsworn unit ("Unit B") constituted of dispatcher, jailer, matron/cook, janitor and secretary/bookkeeper job classifications.

II. RECORD OF HEARING

The Union and County engaged in negotiations over a collective bargaining agreement running from September 1, 2018 – August 31 2021. They reached agreement on all issues except for Wages, and Healthcare. Pursuant to Section 14 of the Act, the Parties waived the three-member arbitration panel appointed by the Illinois Labor Relations Board ("ILRB" or "Board") and selected Gregory P. Szuter from the lists of the Federal Mediation and Conciliation Service to serve as the sole arbitrator. A hearing was held on February 5, 2020, in the Shelbyville, Illinois, the county seat of Shelby County, at which the Parties put on their proof and arguments. The Parties waived the verbatim record of the hearing. The Parties filed post hearing briefs in lieu of closing arguments at the end of the hearing which were received by March 25, 2020. The Parties stipulated to the date of decision under FMCS regulations, 60 days after the filing of briefs (May 25) which was shortened to May 11, 2020.

The Parties submitted their stipulations before hearing marked as a Joint Exhibit (JX). It also appears as UX 1 and CX 1. The Union offered twenty five exhibits (UX) and a CD with copies of internal (AFSCME 3323) and external (Christian, Clay, Douglas, Edgar) contracts and complete County Audited Financial Reports of 2009-2018. The County offered six exhibits (CX) one with eight sub parts and one with six. The testimony with the exhibits and briefs constitute the record of hearing.

III. BARGAINING UNITS AND DOCKET ENTRIES

Unit A consists of 12 members, all deputies and including the Under Sheriff and Bailiff. Excluded are the Sheriff and Chief Deputy Sheriff. Unit B consists of 19 employees: 11 correction officers, four in dispatcher classifications and four in other classifications. Excluded are the confidential, managerial and supervisory employees defined by the Act. UX 4.

The ILRB filings (UX 3) show the following. On May 3, 2018 Unit A filed the Formal Notice of Demand Bargain with the Board. The notice of no agreement was filed on June 4, 2018. A Request for Mediation Panel was filed on August 1, 2018 as to Unit A. On May 16, 2019 Parties filed a Demand for Compulsory Interest Arbitration identifying Unit A and Unit B. It indicated the units were separately certified, Unit A on June 9, 1986 (S - RC - 178) and Unit B on June 27, 2001 (S - RC - 00 - 098). It indicated there was a single collective bargaining agreement expiring, ILRB Contract Number 2018 - 08 - 007. Unit A was assigned case number S-MA 18 - 345 and Unit B was assigned case number S-MA 18346. Another Request for Mediation was filed for Unit A on August

1, 2019. The most recent agreement was effective from September 1, 2015 to August 31, 2018.

The County has a separate collective bargaining agreement with the AFSCME Council 31, Local 3323 for the County's certified job classification consisting of various clerks and highway, health and community services employees.

IV. STIPULATIONS

The Parties entered into twelve pre-hearing stipulations (JX 1) as follows:

- 1) The Arbitrator in this matter shall be Greg Szuter. The Parties stipulate that the procedural prerequisites for convening the arbitration hearing have been met, and that the Arbitrator has jurisdiction and authority to rule on those mandatory subjects of bargaining submitted to him as authorized by the Illinois Public Labor Relations Act, including but not limited to the express authority and jurisdiction to award increases in wages and all other forms of compensation retroactive to September 1, 2018. Each party expressly waives and agrees not to assert any defense, right or claim that the Arbitrator lacks jurisdiction and authority to make such a retroactive award; however, the Parties do not intend by this Agreement to predetermine whether any award of increased wages or other forms of compensation in fact should be retroactive.
- 2) The arbitration hearing in this case will be convened on Shelbyville, Illinois at 10:00 a.m. The requirement set forth in Section 14(d) of the Illinois Public Labor Relations Act, requiring the commencement of the arbitration hearing within fifteen (15) days following the Arbitrator's appointment, has been waived by the Parties. The hearing will be held at the second floor of the Shelby County Courthouse at 301 E Main St #12, Shelbyville, IL 62565.
- 3) The Parties have agreed to waive Section 14(b) of the Illinois Public Labor Relations Act requiring the appointment of panel delegates by the employer and exclusive representative.
- 4) The Parties agree that the following counties shall be considered comparable to Shelby County: Edgar, Christian, Clay, Douglass, and Fayette. The inclusion or exclusion of Moultrie County is to be decided by the Arbitrator.
- 5) The Parties agree that the following issues remain in dispute, over which the Arbitrator has authority and jurisdiction to rule:
 - (a) What increases in wages will be received by bargaining unit employees for the contract years beginning on September 1, 2018 September 1, 2019, and September 1, 2020?
 - (b) What monthly health insurance premium contributions shall be made by the employees?
- 6) The Parties agree that these Pre-Hearing Stipulations and all previously reached tentative agreements shall be introduced as joint exhibits. The Parties further agree that such tentative agreements shall be incorporated into the Arbitrator's award for inclusion in the Parties' successor labor agreement that will result from these proceedings.
- 7) Final offers shall be stated on the record no later than the start of the arbitration hearing. Thereafter, such final offers may not be changed except by mutual agreement of the Parties. As to the economic issue in dispute, the Arbitrator shall adopt either the final offer of the Union or the final offer of the County.
- 8) Each party shall be free to present its evidence in either the narrative or witness format. Advocates presenting evidence in a narrative format shall be sworn as witnesses. The Labor Council shall proceed first with the presentation of its case-in-chief. The Employer shall then proceed with its case-in-chief. Each party shall have the right to present rebuttal evidence.
- 9) If either party chooses to submit a post-hearing brief, it shall be submitted to the Arbitrator, with a copy sent to opposing party's representative by the Arbitrator, no later than forty-five (45) days from the receipt of the full transcript of the hearing by the Parties, or such further extensions as may be mutually agreed to by the Parties or granted by the Arbitrator. The post-marked date of mailing shall be considered to be the date of submission of a brief. There shall be no reply briefs, and once

Approved By
Dumonceaux, Chad #5852

Disclaimer: This document contains neither recommendations nor conclusions of the Illinois State Police. It and its contents are not to be disseminated outside of your agency.

each party's post-hearing brief has been received by the Arbitrator, he shall close the record in the matter.

10) The Arbitrator shall base his findings and decision upon the applicable factors set forth in Section 14(h) of the Illinois State Labor Relations Act. The Arbitrator shall issue his award within sixty (60) days after submission of the post-hearing briefs or any agreed upon date determined jointly by the Parties and the Arbitrator. The Arbitrator shall retain the entire record in this matter for a period of six months or until sooner notified by both Parties that retention is no longer required.

11) Nothing contained herein shall be construed to prevent negotiations and settlement of the terms of the contract at any time, including prior, during, or subsequent to the arbitration hearing.

12) The Parties represent and warrant to each other that the undersigned representatives are authorized to execute on behalf of and bind the respective Parties they represent.

V. PROVISIONS OF THE COLLECTIVE BARGAINING AGREEMENT¹

The Parties to the agreement for the two units effective September 1, 2015 through August 31, 2018 (UX 2) provides at Article 10, resolution of impasse:

All bargaining impasses shall be resolved according to the provisions of Section 1614 of the Illinois Public Labor Relations Act, as amended, except that all arbitration hearings shall be conducted in Shelbyville, Illinois.

VI. THE STATUTORY FACTORS

The IPLRA sets forth those factors upon which the Arbitrator is to base his "findings, opinions and order..." in Section 14(h):

Where there is no agreement between the Parties, or where there is an agreement, but the Parties have begun negotiations for a new agreement or amendment of the existing agreement, and wage rates other conditions of employment under the proposed new or amended agreement are in dispute, the arbitration panel shall base its findings, opinion and order upon the following factors, as applicable:

- (1) The lawful authority of the Employer;
- (2) Stipulations of the Parties;
- (3) The interest and welfare of the public and the financial ability of the unit of government to meet those costs;
- (4) Comparison of the wages, hours and conditions of employment of the employees involved in the arbitration with the wages, hours and conditions of employment of other employees performing similar services and with other employees generally:
 - (a) in public employment in comparable communities;
 - (b) in private employment in comparable communities.
- (5) The average consumer prices for goods and services, commonly known as the cost of living;
- (6) The overall compensation presently received by the employees, including direct wage compensation, vacations, holidays, and other excused time, insurance and pensions, medical and hospitalization benefits, the continuity and stability of employment and all other benefits received;
- (7) Changes in the foregoing circumstances during the pendency of the arbitration proceedings;

¹ *Italics* are inserted in the quoted matter in this section and the next are not for emphasis but for ease of location for the reader. The *italics* used elsewhere are for emphasis added except when noted as being in the original. Any underscoring or **bold face** as shown appears in the original.

Approved By

Disclaimer: This document contains neither recommendations nor conclusions of the Illinois State Police. It and its contents are not to be disseminated outside of your agency.

(8) Such other factors, not confined to the foregoing, which are normally or traditionally taken into consideration in the determination of wages, hours and conditions of employment through voluntary collective bargaining, mediation, fact-finding, arbitration or otherwise between the Parties, in the public service or private employment.

VII. FINAL OFFERS

The Parties have submitted the following offers with **boldface/cancellations** indicating their respective variances from the expiring agreement as to dates and amounts:

Union'S FINAL OFFER - WAGES

Article XXI Wages/Compensation

... in the classification of Jail Matron/Cook, Janitor and Secretary/Bookkeeper... The base salary shall be increased by \$1000 on September 1st of each year of this Agreement (**2018 through 2020**).

Effective September 1, **2018**, each step of the Deputy matrix shall be increased by ~~-\$1500~~ **\$1350** and each step of the Dispatcher/Jailer matrix shall be increased by ~~\$1000~~ **\$1050**.

Effective September 1, **2019**, each step of the Deputy matrix shall be increased by ~~-\$1500~~ **\$1350** and each step of the Dispatcher/Jailer matrix shall be increased by ~~\$1000~~ **\$1050**.

Effective September 1, **2020**, each step of the Deputy matrix shall be increased by ~~-\$1500~~ **\$1350** and each step of the Dispatcher/Jailer matrix shall be increased by ~~\$1000~~ **\$1050**.

EMPLOYER'S FINAL OFFER - WAGES

In addition to changing the dates and amounts the Employer Offer splits the Dispatcher Matrix from the Jailer Matrix in text but not as to amounts.

Article XXI Wages/Compensation

... in the classification of Jail Matron/Cook, Janitor and Secretary/Bookkeeper... The base salary shall be increased by ~~\$1000~~ **\$400** on September 1st of each year of this Agreement (**2018 through 2020**).

Effective September 1, **2018**, each step of the Deputy matrix shall be increased by ~~-\$1500~~ **\$1000** and each step of the Dispatcher matrix by ~~\$500~~ **\$650**. The Jailer matrix shall be increased by ~~\$1000~~ **\$650**.

Effective September 1, **2019**, each step of the Deputy matrix shall be increased by ~~-\$1500~~ **\$800** and each step of the Dispatcher matrix by ~~\$500~~ **\$650**. The Jailer matrix shall be increased by ~~\$1000~~ **\$650**.

Effective September 1, **2020**, each step of the Deputy matrix shall be increased by ~~-\$1500~~ **\$800** and each step of the Dispatcher matrix by ~~\$500~~ **\$650**. The Jailer matrix shall be increased by ~~\$1000~~ **\$650**.

The Parties' final offers for the issue of employee health insurance premium contributions are:

Approved By
Dumonceaux, Chad #5852

Disclaimer: This document contains neither recommendations nor conclusions of the Illinois State Police. It and its contents are not to be disseminated outside of your agency.

Union'S FINAL OFFER - INSURANCE

Section 22.1 Insurance

The County agrees to pay full cost of the employee individual basic health insurance premium, except that each employee will contribute through payroll deduction an amount equal to ~~\$40.00~~ \$53.00 per pay period for the term of this agreement, as of November 1, 2020. The Employer will bear the expense of any increase in costs during the term of the Agreement.

EMPLOYER'S FINAL OFFER - INSURANCE

Section 22.1 Insurance

Beginning November 1, 2018, employees will pay twelve and one half percent (12.5%) of the cost of the individual premium per pay check for the health insurance plan. The County agrees to pay the remaining cost of the employee individual basic health insurance premium...

The previous contract provides that the Employees pay \$40.00 per paycheck for insurance. The Union proposal is to pay \$53.00 per pay period beginning November 1, 2020. The Employer's proposal is that the members of this Bargaining Unit pay 12.5% of the cost of the individual premium effective November 1, 2018. The Employees covered by the AFSCME contract previously paid \$40.00 per paycheck. In their recent contract, they agreed to pay 12% of the annual cost effective November 1, 2018.

The Parties have agreed that all previously agreed-to tentative agreements are to be included in the new agreement, and that wages shall be retroactive to September 1, 2018 including for any Officers who have left employment since that time.

VIII. STATEMENT OF THE ISSUES FOR DECISION

The Parties stipulated two issues on the record and in their respective briefs. The Parties agree that those issues in dispute are economic. JX 1¶ 5(a)(b). The Parties also submitted a non-economic issue of which counties would be included as comparables. JX 1¶ 4. Because it impacts the analysis of the economic issues, the question of the comparables will be addressed first.

IX. COMPOSITION OF COMPARABLE COMMUNITIES

The Parties stipulated that the following are comparable to Shelby County under the Act: Edgar, Christian, Clay, Douglas, and Fayette. The inclusion or exclusion of Moultrie County is up for decision.

Factor #4 of the Act is the comparison of the bargaining issues to the same issues of other employees, public or private, in "comparable communities." Although of paramount import in interest arbitrations, the Illinois Act does not define "comparable community." Somewhat uniquely Illinois interest arbitration precedent insists that a stable set of comparisons be used by bargaining Parties, and hence by interest arbitrators, rather than *ad hoc* comparisons made at each contract term.

"[A]ltering an established comparable pool could disrupt the Parties' reasonable reliance and good faith expectation on a stable negotiating environment as future discussions proceed." *St. Clair County (Sheriff)*, S-MA-13-067 (Nielsen 2013). In that case variance from the traditional pool of comparable communities was sufficient reason to exclude a community. Attempts to change accepted comparables were also rejected in *City of Rockford*, Case No. S-MA-12-108 (Goldstein, 2013). "It is well-established that the party seeking to change historical comparables has the *burden of clearly proving* that a change is warranted." *Id.* "In order to maintain that stability, prior interest arbitration awards *must be accepted at face value in subsequent proceedings unless they are glaring wrong* which is not the case here." *Village of Algonquin and Metropolitan Alliance of Police, Chapter #78* FMCS Case No. 180306-02190; ILRB Case No. S-MA-17-262 (Greco 2019) p12. Hence the party seeking the change must prove by clear and convincing evidence that the accepted comparisons are "glaringly wrong."

Village of Libertyville and FOP, S-MA-93-148 (Benn, 1995) set out a five step approach to define comparable communities which is grounded in Factor #2, the stipulations of the Parties. He stated in his summation:

"It is important to stress that this process of selection of comparables is not a mechanical one. *This process is only a method for organizing the data and arguments offered by the Parties in order to be able to rationally make certain judgments. This process is not one of merely counting factors or rigidly applying cutoffs.* This process places great emphasis on the agreements of the Parties and merely organizes the material to make comparisons based upon those agreements—a process that appears consistent with the mandate of Section 14(h)(2) of the IPLRA that I consider the "stipulations of the Parties."

An arbitrator will look most closely at the communities that are stipulated to be comparable but he will also consider as being somewhat comparable all of additional the communities proposed by the Parties. *Village of Shiloh and Illinois Fraternal Order of Police Labor Council*, ILRB Case No: S-MA-18-226. 2019 (Dickemper) p. __

To determine whether the communities upon which the Parties could not agree are also comparable the five steps from *Libertyville* are applied. They are in precis:²

1. The stipulated/agreed upon comparable communities which form a range of agreed criteria to be used for comparison purposes.
2. Identification of the Parties' criteria for making the comparisons and a determination of whether those criteria are appropriate measuring tools for comparison purposes.
3. Compilation of relevant data for each criteria and community.
4. Ranking of the communities with the appropriate criteria (eg tables and charts).
5. Comparisons of the contested communities to determine how they compare with the agreed comparables.

² Where Arbitrator Benn used the word "factor" in this list I have used "criteria" so not to confuse the diction with the statutory factors. Also the singular of criteria is "criterion" but that is not a convention used herein.

Approved By
Dumonceaux, Chad #5852

Disclaimer: This document contains neither recommendations nor conclusions of the Illinois State Police. It and its contents are not to be disseminated outside of your agency.

A sample of criteria that Arbitrator Benn had found appropriate for comparability included population, department size, number of Patrol Officers, total number of employees, median income, sales tax revenue, sales tax revenue per person, Estimated Average Valuation, EAV per person, and total General Fund Revenue. *Village of Algonquin, Illinois and Metropolitan Alliance of Police*, Case No. S-MA-95-85(Benn, May 1, 1996).

In addition proximity is a key criteria. In *Libertyville*, Arbitrator Benn rejected the argument to exclude all comparables not in Lake County:

All of the communities involved in this matter are part of the Chicago Metropolitan complex. For all purposes, all of the communities are suburbs of Chicago greatly dependent upon the Chicago Metropolitan economy.
... I am not being asked to compare communities with independent economies (e.g., such as Springfield, Decatur, Champaign, Peoria, Carbondale, etc.) with suburbs of Chicago. ...

In *Algonquin* he found that the two contested communities cannot be viewed as "separately functioning economies" such as downstate cities but are "a short commute to the immediate Chicago area." Therefore, the geographic distances do not automatically exclude communities from being considered as comparable "I shall, however, include the geographic distance from Algonquin as one of the several factors for consideration." *Village of Algonquin, Illinois and Metropolitan Alliance of Police*, Case No. S-MA-95-85(Benn, May 1, 1996), See also *Village of Oak Brook*, Case No. S-MA-96-242 (Kossoff, 1998) where Arbitrator Kossoff stated: "proximity is one of the most frequently used criteria in deciding comparability issues."p.7. In agreement with Arbitrators Benn and Kossoff, I find that proximity is an important and often used criteria to consider.

In this case the Parties selected the comparable communities by the following process. Using the 2013 - 2017 Five-Year Estimates from the American Community Survey of the US Census the Parties selected counties within 50% of the population of Shelby County. They eliminated 25 counties that were not within approximately an hour's drive of Shelby County. One of those was obviously the adjoining Moultrie County. The remaining 13 were compared on the basis of total population, median home value, median household income, median family income and per capita income. They eliminated the counties by those metrics that did not fall within 25% of the population of Shelby County and 10% of the other measures. The Parties then agreed to include the counties in which four or five of the five measures were within 10% of Shelby County. They are Edgar County (five out of five) Christian, Clay, Douglas, and Fayette County (four or five). Counties with zero, one, or two matches or "hits" were eliminated (0/5 DeWitt, Piatt; 1/5 Effingham; 2/5 Logan). The Parties could not agree on the remaining counties that had three out of five matches. (Bond, Clark, Moultrie). They agreed to eliminate Clark with the Union championing Bond County and the Employer championing Moultrie County. The Parties agreed to present the impasse to the Arbitrator.

The Employer argues for including Moultrie County on several grounds other than the three data matches (median income, median family income, per capita income). By contrast the population is two thirds of Shelby County and the home values are approximately 9% higher. Among the additional reasons for inclusion as a comparable is that is obviously adjacent. Although the Employer claims the Union ignored geography, geography in the sense of commuting distance was considered.

Approved By
Dumonceaux, Chad #5852

Disclaimer: This document contains neither recommendations nor conclusions of the Illinois State Police. It and its contents are not to be disseminated outside of your agency.

The Employer points out that Lake Shelbyville, the largest inland lake in the state of Illinois, is located within the confines of Shelby and Moultrie Counties. It is managed by the U.S. Army Corps of Engineers. It is the locus of brisk regional tourism attracting 4 million visitors annually. That overwhelms to the 37,000 year-round residents combining both Shelby and Moultrie Counties. The Lake is a situs of numerous recreational opportunities including 1500 campsites, eight hiking trails, four horse back riding facilities, four public beaches, three marinas and numerous other picnic and rest areas. It provides opportunity for fishing including recreational and professional fishing. Hunting in season is also pursued for deer, rabbit, waterfowl, and turkey. It hosts several annual events like the Corps of Engineers annual deer/turkey hunt for persons with disabilities. The Lake is also a draw for nearby recreational facilities like golf courses and state parks.

Both Moultrie County and Shelby County Sheriffs' offices have a contract with the Corps of Engineers to provide law enforcement services for the Lake. With 4 million annual visitors engaging in recreational activities from boating, hunting and swimming among others, public safety issues confronted by both County Sheriff Offices are similar. There are boating accidents, drownings, enforcement of fishing and hunting laws, alcohol and drug use, injuries and a multitude of other events that arise from recreational uses. Once a year a major boating accident or drowning occurs.

These sort of events do not arise in any of the other comparable counties. Only one other county, Fayette County, has a small part of Lake Carlisle, a much smaller recreational opportunity. Fayette County is on the interstate, I 70, and located an hour from St. Louis. Both of these criteria present unique law-enforcement burdens that are not shared by Shelby County or the other counties in the comparisons. The Employer argued for its exclusion but consented to Fayette County based on it having four statistical hits.

The Union argues against including Moultrie County. It sees the Employer's argument as being only one of proximity. Moultrie County is both significantly smaller and significantly more affluent than Shelby County based on the statistical hits. Its proximity to Shelby County, the Union argues, ought not to be determinative. Its Sheriff Office also pays significantly less. The Employer is making an argument of convenience merely to make its final offer more appealing by comparison to the wages of Moultrie County. The Employer's argument has "no basis in the factors traditionally considered when determining whether one County is comparable to another, other than proximity."Un. Brf. p4.

The Union proffers that it had urged Bond County is a comparator but receded. It now proposes that if Moultrie County were included with its three matches that Bond County with its three matches should be included as well. It offers this in consideration of arbitration jurisprudence that longer list of comparables are more helpful than shorter ones.

Implementing the Benn *Libertyville* analysis the first step is to identify the range of criteria the Parties found acceptable in their stipulated list. They began with population and then applied one hour distance. That list was refined by tighter consideration of population, then home value and finally three measures of income. When this list is compared to the Benn *Algonquin* criteria there are similarities and differences. Both used population. Both used geography but somewhat differently. Median home valuation is a rough substitute for EAV and EAV personal. The Parties

Approved By
Dumonceaux, Chad #5852

Disclaimer: This document contains neither recommendations nor conclusions of the Illinois State Police. It and its contents are not to be disseminated outside of your agency.

then look three different measures of personal income whereas Arbitrator Benn considered only median income without indicating the divisor. Unlike the Parties, Arbitrator Benn also considered three measures of the employer's income (general revenue, sales tax and sales tax per person) and measures of comparison of the employer's services (workforce, the department sizes).

The next step is the determination of whether the Parties criteria are appropriate tools. If only by contrast to Arbitrator Benn's lists they are not. While redundant forms of statistics are not necessarily appreciated there should at least be some consideration of the Employer's operation in comparison with other communities which can be in the form of the size of the department/workforce and revenue. Nothing in the evidence shows comparison of Shelby County on these measures although the revenue and department size of Shelby County itself are on the record. A near substitute offered is the Employer's description of the department's activities relative to Lake Shelbyville as being similar to Moultrie County. To some extent that is more valuable than simply the size of the department. I disagree in part with Arbitrator Benn that the size of the department is a criteria that should be considered on the front end of the comparison. It is rather an elimination criteria for communities where it provides some sort of an explanation for outsized or diminished capabilities. In other words the tolerance on size can easily be within 100%+/-unless there is reason why not.

While Lake Shelbyville nexus should not be the limit of comparable law enforcement activities, it is the only one here. As for revenue only circumstantial evidence about the other counties is available on this record through the proffered income measures and geography.

Given this record what should be considered criteria for comparison are the following. Population, per capita income, median home valuation, distance and geography, and law enforcement services. The Parties began the analysis with the question what counties of similar population size have sufficient other statistical similarities to be compared to Shelby County. In the process they used three measures of personal income when one is sufficient. The difference among them is the divisor. That is, the income is divided by household, by family or per capita. Of these three, the last is the most sensitive to poverty and the first two are most sensitive to affluence. Since median home valuation is already listed, household and family income are unnecessary as redundant measures of affluence. Per capita income it is sensitive to individuals who have incomes but do not have property and so is an indication of the less affluent residents.

The Parties' emphasis on population and personal income is biased towards affordability. It interprets Factor #4 as what services can a community support given their comparable sizes and income. That is not the issue under Factor #4. Indeed affordability is completely separate, Factor #3. The primary comparison under Factor #4 are the terms and conditions of employment and secondarily comparison of communities. The comparability process should begin with the concept that the issues being compared, wages, hours and working conditions, are defined competitively by the labor market which is the immediately adjacent area to the employer where it has a likelihood of recruiting staff. Consequently geography is the first step not the middle or the last in the analysis.

The default comparison community should consist of all adjacent counties supplemented by second tier counties (adjacent to the adjacent counties). That creates a geographic region from which the

Approved By
Dumonceaux, Chad #5852

Disclaimer: This document contains neither recommendations nor conclusions of the Illinois State Police. It and its contents are not to be disseminated outside of your agency.

labor pool is obviously drawn. The one hour commute is a decent substitute. However, the Parties bent that rule to allow inclusion of Edgar County which except for distance has all the similar metrics to Shelby County. Edgar County is 1.19 hrs. commuting distance. Since it was included Clark County, which is 1.22 hrs. commuting distance, was also preliminarily included. However, Crawford County, 1.37 hrs., was excluded. Ultimately Clark County was excluded based on other data. Edgar County was over one hour away and outside the second tier limit. There are other reasons to exclude Edgar County. It is on the Illinois-Indiana line and it is ex-urban to the city of Terre Haute, Indiana. Economically it has closer ties in that direction than it does to Shelbyville. It should have been excluded but is included provisionally here in recognition of the Parties' stipulation.

Counties then to be included for potential comparison are first those adjacent with Shelby County. They are : Macon, Moultrie Coles, Cumberland, Effingham, Fayette, Montgomery and Christian. Applying geography alone Macon County can be immediately excluded,. It has a large central city, Decatur, which can be considered a separately functioning economy distinct from Shelby County.

Coles and Cumberland counties, although adjacent to Shelby County, did not make the Parties cut on the first step, population within 25% of Shelby County. They are apparently quite rural economies by comparison.

Fayette is arguably excludable due to its location on the interstate and hour away from St. Louis. The City of Vandalia might also fall into the separately functioning economy distinction. The Employer would exclude it because of the unique law enforcement problems presented by the interstate. Rather that is a reason to include it. It is not a seasonal recreation facility but it similarly requires enhanced law enforcement attention that is out of the ordinary when compared to the more rural counties in the labor market. In addition the Parties also stipulated to it and that will be undisturbed.

Effingham County is also on the I-70 corridor and potentially excludable on the same bases as Fayette County. The Parties in fact did eventually exclude it from the final list.

The list can be supplemented with second tier counties. Logan, De Witt and Piatt are more than twice the size of Shelby County and in proximity to the Decatur economy. They need not be included. Sangamon County, home of the state capital, Springfield, is also easily described as a separately functioning economy. The other second tier counties that did not make the Parties first cut were Marion and Macoupin Counties presumably based on commuting distance. That will stand.

The Parties stipulated the inclusion of Douglas County based on being within population and the three income measures. It is located between Moultrie and Edgar Counties. It may have more ties to Edgar and Terre Haute but that is not known from the record. It is included.

Bond County urged by the Union is excludable for being quite apparently small and rural. It is also more affluent which is telling of its closer proximity to St. Louis than to Shelbyville.

Geographically speaking Clay County has marginal purchase on inclusion beyond the Parties' stipulation. It is south of Fayette and Effingham and is beyond I-70. Its map (EX 3b) is also

Approved By
Dumonceaux, Chad #5852

Disclaimer: This document contains neither recommendations nor conclusions of the Illinois State Police. It and its contents are not to be disseminated outside of your agency.

featureless beyond the crossing of two US highways. It is the most rural of the comparators used by the Parties. It is provisionally included for now.

The geographic region representing the labor pool of potential employees of Shelby County on which the other comparable statistics is: Christian, Clay, Douglas, Effingham, Edgar, Fayette, Montgomery and provisionally Moultrie. Next is the compilation of relevant data for the counties. That is combined with the last step, the consideration of the contested county, Moultrie, with the others.

The criteria remaining after geography and used here as explained above are: Population, median home valuation, per capita income and law enforcement services. There is no statistical data on the last item which on this record rests upon the Employer's evidence of comparisons with law enforcement with respect to Lake Shelbyville shared by Moultrie County and the distinctions from law enforcement on the I-70 corridor.

Also mentioned by Arbitrator Benn were the sales tax receipts and general revenue which are measures of the employer's income and department and workforce size which are statistics substituting for evidence of similarity of services. Comparison on those bases are useful but ought not be so emphasized because they include so many data points. If multiple data points are used then the whole class ought to be considered together without permitting a single data outlier to cause elimination or inclusion. That is the method used here for the multiple forms of income. Those categories are shown below with no evidence from the record as placeholders for future reference.

	Population	median home valuation	per capita income	Measures of Employer income	Similarity of Service
Clay	13,582	77,200	25,700		
Moultrie	14,927	107,500	26,166		
Edgar	17,992	80,000	26,344		
Douglas	19,826	102,700	26,284		
Shelby	22,115	86,800	24,808		
Fayette	22,136	84,010	21,844		
Montgomery	29,340	81000	23,172		
Christian	34,200	87,500	25,614		
Effingham	34,332	137,300	29,300		

If this list were pared further by the omission of Effingham County and Montgomery County it would be the list of counties used by the Parties before considering Moultrie. Effingham has as a population 12,000 greater than Shelby. That is effectively better than half the size of Shelby itself. In addition it's median home valuation is \$57,000 higher, 60% more. It is excludable.

Montgomery County is 7000 greater in population which sets up a range with Moultrie County which is about 7000 less or about +/- 30%. Using those two counties to set a population range is logical but the record has no data concerning Montgomery County. Christian County is more than 7000 above the population of Shelby. Its home valuation and income are similar to Shelby. Therefore rather than eliminate Christian County as being more than 7000 difference in population it will substitute for Montgomery County based only on the data available on the record.

Disclaimer: This document contains neither recommendations nor conclusions of the Illinois State Police. It and its contents are not to be disseminated outside of your agency.

Edgar and Clay ought be removed from the list. One is beyond the Shelbyville economy and the other is too rural. They remain today only because of the stipulation. Any data they have to offer on the issues comparisons may be discounted.

Although +/- 30% population (here 7000) is the tolerance used by Arbitrator Benn in *Algonquin*, there is nothing insightful about it. From the communities selected by geography when ranked by population shows that the labor market being researched has populations symmetrically arranged by those parameters. Other areas may be more or less tightly arrayed around the median.

Other measures if they were on the record and considered might have an effect on this constellation. As it is this is the best set of comparables that can be made based on the evidence in this case: Christian, Clay, Douglas, Edgar, Fayette, and provisionally Moultrie.

With respect to the fifth step, Moultrie County fits into the comparison when properly considered. It is within the 7000+/- population of Shelby, it has a similar income profile, it is adjacent, and it shares an obligation for similar law enforcement services that none of the others do. The information about its sales tax revenue and the general revenues as used by Arbitrator Benn is unknown but ought not to the eliminating criteria without being extravagantly different from Shelby County.

The Arbitrator is clearly convinced that the process and selection used by the Parties is glaringly wrong. The process did not begin with a search for the comparable labor market but with an affordability bias by over emphasizing population and personal income. Although terse, the legislature did specify that the primary comparison is of the labor issues based on the secondary comparison of like communities. However, deferring to the Parties' stipulation as the ultimate, not first, resort for the selection, a list of comparable communities comprising the local labor market has been arrived at. Out of concern for the likely precedential value that the Illinois interest arbitration jurisprudence places on comparables discussed in decisions, the holding needs be clarified.

The criteria in determining the comparability the Parties used in three cuts:

1: Population +/-50% ; 2: distance (1 hour); 3: population +/-25%, median home valuation; personal income (household, family, per capita); and (employer only) similarity of services.

The Arbitrator would have used:

1: adjacent counties; 2: eliminations by geographic considerations; 3: supplement with second-tier counties applying the same geographic considerations; #4 ranked by +/-30% population; #5 ranked by median home evaluation, per capita income, County income (sales tax/general revenue), service considerations of the employer (type and number of services, size of department, size of workforce).

Based on the constraints of the record the Arbitrator did use the following:

1: adjacent counties; 2: eliminations by geographic considerations; 3: supplement with second-tier counties applying the same geographic considerations; #4 ranked by +/-30% population; #5 ranked by median home evaluation, per capita income, service considerations of the employer.

The Parties selected:

Christian, Clay, Douglas, Edgar, Fayette, and provisionally Moultrie

The Arbitrator would have selected:

Douglas, Fayette, Montgomery, Moultrie

Because of the constraints of the record the Arbitrator had to use:

Christian, Clay, Douglas, Edgar, Fayette, and Moultrie

X. DISCUSSION OF STATUTORY FACTORS

Because the two issues in dispute are "economic" under Section 14(g) of the Act, the Arbitrator must "adopt the last offer of settlement" which in the opinion of the Arbitrator "more nearly complies with the applicable factors prescribed in Section 14(h)."

The Union has represented for collective bargaining purposes 12 sworn officers (Unit A) since 1986 and 19 non-sworn employees (Unit B) since 2001. The Units jointly filed Demand for Compulsory Interest Arbitration; the ILRB assigned Unit A and Unit B separate case numbers for the purposes of interest arbitration. Although there was a single collective bargaining agreement on file, ILRB Contract Number 2018 - 08 - 007, effective September 1, 2015 to August 31, 2018, the Units in part negotiated separate terms. In the CBA expiring Unit A (deputies) received a \$1500.00 increase of the base salary as of September 1 of each contract year. In the CBA expiring Unit B (non-sworn classifications) received a \$1000.00 increase of the base salary as of September 1 of each contract year. Both Units A and B have been paying \$40.00 per pay period towards health care premiums and the Employer pays the balance. Thus, the Arbitrator must "adopt the last offer of settlement" for each Unit considering the factors is the the Act.

Factor #1. The lawful authority of the employer (Section 14(h)(I) of the Act)

Neither party has contended that the Employer does not have the lawful authority to enter into any of the final offers made by either of the Parties. The Arbitrator finds the Employer has the lawful authority to implement any of the final offers outlined above selected by the Arbitrator.

Factor #2. Stipulations of the Parties (Section 14(h)(2) of the Act)

The Arbitrator has recited the stipulations made by the Parties and takes them into account in reaching a decision in this case.

Factor #3. The interests and welfare of the public and the financial ability of the unit of government to meet those costs (Section 14(h)(3) of the Act)

The Employer has admitted that it has the financial ability to meet the costs of the Union's final offer. The Employer contends that its financial ability to meet the Union's demands, is not alone sufficient reason that it be ordered to pay them. The Union does not contest this and the Arbitrator agrees.

Approved By

Dumonceaux, Chad #5852

Disclaimer: This document contains neither recommendations nor conclusions of the Illinois State Police. It and its contents are not to be disseminated outside of your agency.

Factor #4. Comparison of the wages, hours and conditions of employment of the employees involved in the arbitration proceeding with the wages, hours and conditions of employment of other employees performing similar services and with other employees generally:
(A) In public employment in comparable communities.
(B) In private employment in comparable communities.
(Section 14(h)(4) of the Act)

The Arbitrator discussed the data concerning "comparable communities" in more detail elsewhere in this Opinion and Award.

The Arbitrator has found that the decisions by other interest arbitrators look at internal comparability (within the same employer) and external comparability (among other governmental and non-governmental employers). Neither party has provided any evidence of any private sector comparables, so there is no basis for the Arbitrator to consider any that may exist. With respect to similar health care provisions, the Employer has cited internal comparables including to those do not perform similar services. That is taken as evidence of the desire for uniformity for administration. The Parties' stipulated communities with the Arbitrator's addition are accepted as comparable here, namely: Christian, Clay, Douglas, Edgar, Fayette, and Moultrie.

The evidence produced under this Factor #4 is discussed in the analysis and conclusions regarding the impasse issues.

Factor #5. The average consumer prices for goods and services, commonly known as the cost of living. (Section 14 (h)(5) of the Act)

Both Parties agree that the final offers of each party exceeds the cost of living for 2018 and approximates that of 2019. Data for 2020 was available at hearing. The latest Consumer Price Index for All Urban Consumers (CPI-U) published by the Bureau of Labor Statistics on February 3, 2020 increased 1.9 % for the 12 months ending in December 2018 and 2.3% in the 12 months ending December 2019. There was no data for 2020 available for the hearing. The Arbitrator finds the cost of living to be neutral in this decision. Whichever offer he adopts will approximate the cost of living.

Factor #6. The overall compensation presently received by the employees, including direct wage compensation, vacations, holidays and other excused time, insurance and pensions, medical and hospitalization benefits, the continuity and stability of employment and all other benefits received. (Section 14(h)(6) of the Act)

In addition to the wage and healthcare premium issues at impasse, the most recently expired CBA for both Units (UX 2) provides a package of economic benefits that includes: holiday pay (Article 16); vacation (Article 17); sick leave (Article 18); other paid leaves (Section 19); overtime, call back, court time and other supplemental pay (Article 20); wages and allowances for uniforms and longevity (Article 12); health insurance (Article 22.1), and pension (Article 22.2). These

economic provisions, except for the base wage increase and certain health care costs, are among the tentatively agreed upon items to be included in the successor CBA. The existing and tentatively agreed economic items will be contained in the successor CBA.

While there are threats to revenue on the horizon for both employees and the Employer, there is no evidence that the continuity and stability of employment will be impacted during the term of the successor CBA which expires August 31, 2021. Most of the economic change in the issues is retroactive to September 1, 2018.

Factor #7. Changes in any of the foregoing circumstances during the pendency of the arbitration procedures. (Section 14(7) of the Act)

There was no evidence presented of any change in any of the foregoing circumstances during the pendency of the arbitration proceedings. It would be remiss of the Arbitrator not to take "arbitral notice" of the novel coronavirus pandemic (COVID 19) which between the hearing date and the filing of briefs has resulted in protracted shutdown of the economy in every state. In Illinois closure of non-essential business was ordered on March 12 to expire March 30.³ Before the expiration the State issued a stay at home order on March 21 to expire April 30 but extended to May 30.⁴ Over half a million unemployment claims were made in the five-week period from March 1 to April 4.⁵

Because it filed an early brief, the Employer did not address the circumstance. The Union mentioned COVID 19. It noted the outbreak of coronavirus has reduced the income of many families and the likely increase in healthcare costs resulting from the outbreak. The increase of healthcare costs impact the Employer no less since it pays more than 80% of the costs. Notwithstanding the admission of the Employer's current ability to pay, the failure of some anticipated revenue sources to arrive is very likely but the amount is not currently measurable and the timing is not identifiable. This would be as a result of lower sales and hence lower sales tax as a result of a shutdown economy for what ever period, and may slow or delay property tax receipts resulting from protracted unemployment. All these factors from family income to Employer revenue to insurance costs are far from quantifiable now. The only certainty is the uncertainty with bleak prospects.

Factor #8. Such other factors not confined to the foregoing, which are normally or traditionally taken into consideration in the determination of wages, hours and conditions of employment through voluntary collective bargaining, mediation, fact-finding, arbitration or otherwise between the Parties, in the public service or in private employment. (Section 14(8) of the Act)

The general standards of interest arbitration are part of what this factor refers to. See ELKOURI & ELKOURI, *How Arbitration Works* (6th Ed., Ruben, BNA, 2003) at pp. 1358-1364:

"...[interest arbitration] calls for a determination, upon considerations of policy, fairness, and expediency, of what the contract rights ought to be. In submitting this case to arbitration, the parties have merely extended their negotiations—they have left it to this board to determine what they should, by negotiation, have agreed upon. We take it that the fundamental inquiry, as to each issue, is: what should the parties themselves, as reasonable men, have voluntarily agreed to?" *Twin Sheriff Rapid Transit Co.* 7 LA 845 at 848 (McCoy et al. 1947)

"What reasonable parties should voluntarily agree to" has its limits in statutory impasse procedures. In Illinois interest arbitration a concept that appears to harken back at least to Arbitrator Nathan in 1988 that "interest arbitration is essentially a conservative process." *Will County*, S-MA-88-009 (Nathan, 1988) (citations omitted) pages 44-45. As Arbitrator Goldstein explained:

The traditional way of conceptualizing interest arbitration is that parties should not be able to obtain in interest arbitration any result which they could not get in a traditional collective bargaining situation. Otherwise, the entire point of the process of collective bargaining would be destroyed and parties would rely solely on interest arbitration rather than pursue it as a course of last resort. *City of Burbank and FOP*, S-MA-97-56 (Goldstein, 1998) at pages 9, 11.

The conservative nature of interest arbitration in Illinois is intended to prevent parties from taking pre-arbitral stances that are as unreasonable as possible in hopes that the interest arbitrator who obligated to select among the two proposals will choose theirs. This is applicable to reasonable proposals as well. Arbitrator Edwin Benn, stated in *Cook County Sheriff & County of Cook and AFSCME Council 31*, L-MA-09-003, 004, 005 and 006 (2010) at 7-8:

... [I]nterest arbitration is a very conservative process which does not impose terms and conditions on parties which may amount to "good ideas" from a party's (or even an arbitrator's) perspective. For a party in this case to achieve a changed or new provision in the Agreements — particularly for non-economic items — the burden is a heavy one. See my recent award in *City of Chicago and [Fraternal Order of Police, Lodge No. 7, (2010)]* ... at 6-7 [citation omitted, emphasis in original]: ... "The burden for changing an existing benefit rests with the party seeking the change ... [and] ... in order for me to impose a change, the burden is on the party seeking the change to demonstrate that the existing system is broken."

There are a plethora of reasonable "good ideas" that circulate in collective bargaining. Where they are resisted at the bargaining table they ought not be imposed by a neutral merely because they might seem like a good idea at least to one party if not the neutral. Interest arbitration does not serve as a substitute for negotiating. It ought not be a wager on the open issues but a continuation of the good faith bargaining process, invoked as a last resort.

Dumonceaux, Chad #5852

Disclaimer: This document contains neither recommendations nor conclusions of the Illinois State Police. It and its contents are not to be disseminated outside of your agency.

Being "broken" seems a high bar to prove. In *Will County*, Arbitrator Harvey Nathan set the test for meeting the burden. The proponent of a breakthrough issue in interest arbitration must at least prove:

1. That the old system or procedure has not worked as anticipated when originally agreed to;
 2. That the existing system or procedure has created operational hardships for the employer (or equitable or due process problems for the union); and
 3. That the party seeking to maintain the status quo has resisted attempts at the bargaining table to address these problems.
- [I]t is the party seeking the change that must persuade the neutral that there is a need for its proposal which transcends the inherent need to protect the bargaining process. *Will County*, S-MA-88-9 (Nathan, 1988) pp. 52-53.

Here the issue of "breakthrough" has arisen in two of the proposals. The Nathan test will be applied.

A consideration that commonly arises under Factor #8 is retroactivity. It is not uncommon for a CBA to expire before Parties agree to a successor CBA. In those situations, any wage increases are often made retroactive to the day after the predecessor agreement expired. In the pre-hearing stipulation the Parties agreed the Arbitrator could award increases in wages and all other forms of compensation retroactive to September 1, 2018. JX 1 ¶ 1. The health care impasse issue contests the retroactive amount as either none or full retroactivity but the stipulation that the decision may be retroactive as to either is implicit in the stipulations.

Conclusion on Discussion of Statutory Factors

Other than the stipulations, the non-neutral factors that are to be applied to the evidence are the comparisons of the issues to comparable communities, the change of circumstances, and the possibility of "breakthrough" proposals (ie. Nos. 2, 4, 7, 8) The Parties have not cited any other factors, and the Arbitrator finds none, that would impact his decision in this case.

XII. ANALYSIS AND CONCLUSIONS-ANNUAL BASE PAY INCREASES: UNIT A

The Parties presented their proposals for increases in the base rate of pay which is the pay after the first year for an employee. It is not the starting pay. Indeed when compared to starting pays of other counties it is obvious that the first year in law enforcement is appreciated in different styles among the various counties. Some have no difference between the starting pay and year one. Some have an increase such as \$4000 or \$6000 that is out of sync with the annual general increases. This is a payment of a premium in recognition of the employee's completion of field training.

The base wage increase in the CBA Art. 23 is stated in annual dollars or salary but is also shown on the attached wage scale in hourly increments. They are not stated in percentages. This is significant because to analyze the proposals in percentages becomes difficult based on the Parties' relatively non-synchronous presentation of the data on the record. The Union presents the base wage increases in the context of the wage increases of other counties for the given year. While the contract year increase in Shelby is September 1, the contract years for the other counties vary among the months. An increase that falls in 2018, it is counted as a 2018 increase notwithstanding the effective month.

Approved By
Dumonceaux, Chad #5852

Disclaimer: This document contains neither recommendations nor conclusions of the Illinois State Police. It and its contents are not to be disseminated outside of your agency.

Although the Union's is by far the most typical approach to analyzing collective-bargaining agreement comparisons, the Employer took a different tact. The Employer ground down into the particulars to compare the actual dollar salary of the given officers of the given counties as of September 1. Hence a county that did not have an increase before September 1 was not counted in the year for the comparison. For example two counties in 2018 had increases in 2017 but none in 2018 and three counties had increases after September 1. The Employer's demonstration takes into account only the two counties having 2017 increases and none that had a December 2018 increase. The same methodology persists in adjusting the data for the actual September 1 payday status of the other years. This is consistent with the Employer's argument that on a dollar basis annually or hourly Shelby County deputy force is more highly paid than the others throughout the steps. However, the percentages based on the Employer data cannot easily be compared to the Union's percentages.

The Union has not spared the Arbitrator complications in its arguments either. Although the final issue in dispute is the base rate, the Union argues about the effect the increase would have on officers higher on the step ladder. Obviously and a dollar increase on the base level when compared to the much higher rates produce a lower percentage increase. That is not an artifact of the base rate increase. It is an artifact of the step system formula. The step system is not up for review. The disambiguation of the base pay effects from the step system structure is not only beyond the Arbitrator's jurisdiction but also beyond the data presented in the evidence.

It would have been preferable to make comparisons of the communities by a percentage analysis if the Parties' data were identical. Consequently the percentages mentioned are based primarily on the Union's data. However, not even the Union's data is consistent because in the third year comparison it had to rely on the only three counties available at the time and not five; thus also skewing the results of a percentage analysis. The inclusion of the data from Moultrie, which has been ordered above, introduces data only from the Employer's approach. Consequently a percentage analysis including it is modestly attempted but not rigorously pursued.

The percentage analysis conclusion yields limited information. First, it is sufficient only to show that both Parties are approximating the CPIU on a percentage basis which makes that factor neutral.

Unit A Year 1			
Expired CBA	FY16	FY17	FY 18
Wage increase	1500	1500	1500
Percent increase	3.45	3.33	3.22

CPIU : December 2017-2018 :1.9 (1.7 each September 2018, 2019)

Successor CBA	FY 19	FY 20	FY 21	
Employer Proposal	1000	1000	1000	
	2.10%	2.04%	2.00%	
Union Proposal	1350	1350	1350	
	2.81%	2.74%	2.66	
Five Counties	2.47	2.62	2.78*	*three counties per Union data
Six Counties	2.43	2.57	2.65*	*four counties

Approved By
Dumonceaux, Chad #5852

Disclaimer: This document contains neither recommendations nor conclusions of the Illinois State Police. It and its contents are not to be disseminated outside of your agency.

The starting point is the expired contract. For reasons not stated on the record it shows a history of increases in excess of the CPIU prevailing at the time. As shown below that agreement placed Shelby County well ahead of its peers in the comparative group. Both Parties pulled back from the \$1500 annual increases of the last contract. Both proposals still persist above the CPIU. In percentage terms, annually both are very close differing by 0.6% to 0.8% with the Union being a bit more.

The second conclusion from a percentage analysis is that they are very close. They vary by 0.6% to 0.7% per year.

The Union exaggerates the difference by comparing the total of the three-year dollar increases to each other claiming a differences of 25%. This is not a new information because the percentage difference is the same for each discrete year. (\$4000 versus \$3000; \$1350 versus \$1000). The percentage difference in the offers whether annually or in a three-year basis is of moment only to the Employer which must support the additional increase. Since that is not a factor, this data point is not relevant. Factor #4 requires the comparison of the issues, here wages, with the comparable communities. Comparing the offers to each other does not serve that requirement.

The third conclusion from a percentage analysis is that the proposals are very close to the comparative community averages, whether five or six counties. They vary either way with the Employer below and the Union slightly above the averages.

As noted above, using percentages makes it difficult to compare the Employer to the Union proposals and to the comparable communities. The Union's data shows the percentage increases on a five-county basis being approximately midway between the Union offer and the Employer offer.

Adjusting the percentages for six counties by using the Union's percentage scale with the inclusion of Moultrie County produces the same conclusion. In the Moultrie County Deputy agreement the wages are stated in hourly rates rather than annual salary. In addition, the total annual salary for Moultrie County in the Employer's evidence appears to be approximately 2050 hours compensation. That is another reason the hourly rate need be used.

The changes in the hourly rates published in the Moultrie CBA show a \$.49 increase of 2018 over 2017 and \$.51 increase of 2019 over 2018. The amount of the 2017 increase is not apparent in the evidence. Consequently certain interpolations are necessary. On the assumption that bargainers often back-end load the wage increases and in order to follow the trend of the two apparent increases in the CBA, the 2017 hourly rate increase should be \$.48 over 2016. Thus the three increases of \$.48 \$.49 and \$.50 that produce the rates of \$21.88 \$22.37 and \$22.88 when converted to percentage increases become 2.24% (2017), 2.23% (2018), 2.27% (2019). When these are inserted in the Union's evidence (UX 11) the above six County averages are achieved. The result with the addition of the sixth county shows the offers of the Employer and the Union are virtually equidistant from the average. The annual percentage increase analysis is unavailing for purposes of determining which is the more reasonable offer.

Approved By
Dumonceaux, Chad #5852

Disclaimer: This document contains neither recommendations nor conclusions of the Illinois State Police. It and its contents are not to be disseminated outside of your agency.

Comparing the communities on the percentage increases that each county granted their respective workforces is not as telling of the labor market as the ranking the counties . Using the six county comparison the base salary for the Shelby County deputies falls into the following scheme as shown:

2017
Douglas Moultrie Edgar Christian, Fayette *Shelby* Clay
2018
Douglas Edgar, Christian Fayette *Employer Union* Clay
2019
Douglas Moultrie Christian Edgar Fayette *Employer Union* Clay
2020
Douglas Moultrie Edgar Christian Fayette Clay *Employer Union*

The data shows that Shelby County is the second highest paid County among the six in 2017. The Parties' proposals show that each of them maintains this position for 2018 and 2019 with the Union being higher than the Employer. Only in 2020 would Shelby County exceed highest-paid position among the six. That is accomplished both by the Employer and Union proposals.

Unfortunately this exercise does not bring us any closer to the solution of which of the final offers is the most appropriate. Both of them maintain a better than the CPIU rate increase, both of them surround the average increases of the other counties on a percentage basis, and both of them produce salaries placing the Shelby County deputies at the highest end of the comparative communities.

Rather than rank, looking towards the measures of centrality by using dollars rather than percentages somewhat the same conclusion is reached.

	AVERAGES		MEDIAN*		FINAL PROPOSALS
	6 COUNTY	5 COUNTY	6 COUNTIES	5 COUNTIES	
2018	43,427	46,872	46,000	46,000	Both over 49,000
2019	43,307	48,271	46,500	46,900	Both over 50,000
2020	44,378	49,662	47,000	48,600	Er.51,000 Un.52,000
*(rounding to hundreds to break ties for Employer's list of six)					

The final proposals for the first two years on a dollar scale show both are \$6000 to \$7000 above the six county average and \$3000 to \$4000 over the six county medians. In the third year the Union's proposal pulls away from the Employer's proposal. Employer's proposal is \$7000 above the six county average and \$4000 above the six county median, with the Union being \$1000 more in each category (ie \$8000 and \$5000 respectively).

Comparing the issues among the comparative communities under Factor #4 makes the case that Shelby County should have an increase that maintains its position as the highest-paid amongst counties in the local labor market. The difficulty for a highly paid community within a labor market is not the maintenance of its position but the prudence to improve the wages of its workforce notwithstanding its top rank. That presents the necessity to use the labor market as the Arbitrator defined it and not as presented in the stipulations. Moultrie County was obviously within the local labor market but so was Effingham although the Parties stipulated it out of consideration. On the

Approved By
Dumonceaux, Chad #5852

Disclaimer: This document contains neither recommendations nor conclusions of the Illinois State Police. It and its contents are not to be disseminated outside of your agency.

other hand Clay County demographically had a marginal purchase to its position in the local labor market and could of been excluded on demographic terms but was kept in.

The data comparison which concludes with the finding that the Deputy Unit is well-paid and at the high-end of the local labor market is more accurately reflected with the inclusion of Moultrie County. Notably the exclusion of Clay County unexpectedly exaggerated the result. Although its demographic data suggests less affluence, its compensation structure exceeds Shelby County in two out of three prospective years. As the Union explains, this is in part the result of "market adjustments" granted by the county commissioners there. Effingham with its demographics reflecting more affluence should have been included. If it were, Shelby County's position in the ranking would come into clearer relief. It may have maintained its top position or it may have conceded that to Effingham. Strangely, and satisfactorily here today, the inclusion of Clay County appears to have been a useful substitute for Effingham County.

The guidance that the comparative communities give to the choice between the two final offers for the Deputy Unit is marginal. Because both maintain Shelby County's position at the top rank and since Clay County included a market increase, the Employer's offer seems to be the more prudent.

Whether the Employer's offer is the one that reasonable Parties would agree upon requires consideration of the other non-neutral statutory factors. There are no "breakthrough" issues inherent in the Deputy Unit wage increase so the final factor to consider is changed circumstances.

The COVID19 outbreak is the most significant changed circumstance. It impacts the employees on a day-to-day basis being first responders. The duration is unknown but the end is imminent with the prospect of the reopening of the economy of many states. Since retroactivity has been tacitly agreed, the employees will receive whatever the award on this issue as backpay for two thirds of the contract term. Also the third year of the Union proposal outpaces the Employer's in relation to centrality measures of six county labor market. These facts militate against consideration of the Union's offer.

The impact the COVID19 outbreak has on the Employer is as potentially significant but also has affects both on the Employer and the employees. With so much of its revenue dependent on tourism, it is likely the County's revenue produced by that source will severely decline in 2020. On the generous assumption that a recession will NOT ensue, that nonetheless strains the revenue carryover to the following years. Revenue reduction is in part a result of government restrictions and/or guidelines on social distancing and restricted capacity for facilities continuing into the summer. Even with reopening the Illinois economy which in other states seems imminent for the summer, some seasonal traffic has already been impaired. The hope is that after a period of stay at home orders there would be a surge of economic activity. The more likely reality is that public response to travel and open gatherings is expected to be extremely conservative in the environment where there are still no therapies or vaccines for the disease. The consequence of both the potential reduction in revenue and tourism not only impairs the county finances but could have an impact on the stability of the workforce. There are no assurances either way on the effects of the changed circumstances. However the factor of changed circumstances counsels a conservative instinct which is the final support for adopting the Employer's final offer for the Deputy Unit base wage increase.

XIII. ANALYSIS AND CONCLUSIONS-ANNUAL BASE PAY INCREASES: UNIT B

The second economic issue for determination is the base wage increase for the unsworn unit, Unit B. As stated before fiscal year (FY) refers to September 1 which is the contract year. Base Wage refers to the wage rate as of the first day after one year of service. The Union presents its comparative data on the basis of increases within the contract year while Employer converts the comparative contracts to the total dollars paid as of September 1 of the given year. The Union addressed the entire unit with one proposal while the Employer made separate proposals for each, Corrections Officers and Dispatchers, and the "Other" Unit B jobs. The Union challenges that as a "breakthrough." The Employer's separate offers makes the comparisons a bit anomalous but the comparisons will persist with the mental notation of the variance from the Union's data.

The base wage increase in the CBA is stated in annual dollars but is also shown on the wage scale in hourly increments. They are not stated in percentages. The percentages cannot be relied upon to compare the Employer and Union data. Consequently a percentage analysis is not rigorously pursued and yields limited information. It is sufficient only to show as found above that both parties are approximating the CPIU on a percentage basis which makes that factor neutral.

The proposals compared to the expiring contract show the following:

Unit B Year 1			
Expired CBA	FY16	FY17	FY 18
Wage increase	1000	1000	1000
Percent increase	2.63	2.56	2.50

CPIU : December 2018 :1.9 (1.7 September 2018)

Successor CBA	FY 19	FY 20	FY 21	
Employer Proposal	650	650	650	<<Excludes "Other" jobs
	1.71%	1.68%	1.65%	
Union Proposal	1050	1050	1050	
	2.76%	2.69%	2.62%	
Five Counties	2.62	2.77	3.04*	*three counties per Union data
Six Counties	2.76	2.84	3.09*	*four counties

The starting point is the expired contract. As shown below that agreement placed Shelby County well in the midst of its peers in the comparative group. The last CBA increases trended just less than 1% above the CPIU. For the successor CBA the Employer's proposal of \$650 pulled back from the \$1000 annual increases of the last contract while the Union added \$50.00 to the prior increase amount to be \$1050. Both proposals still approximate the CPIU.

Matching the CPIU is not a factor here. That is typically considered a minimum increase absent extenuating circumstances. The bargaining project and the compensation theory are not intended on having the unit/employees tread water by keeping up with the cost of living which is reflective of

the "iron wage" of old.⁶ Modern compensation theory attempts to capture some of the productivity value created by the employees. It is the "get ahead" feature of compensation. Neither party delved into productivity data which can be esoteric at best and impossible to measure on small scales. However, the "get ahead" impulse is prevalent notwithstanding the calculus.

To evaluate the prospects of improvement, ranking the offers and observations of the measures of comparative centrality should assist. In the following ranking of the offers is based on Union data which includes all Unit B positions. Even with its near 1% improvement on the CPIU, Shelby's Unit B managed to earn a solid middle out of six comparative communities. The Employer's offer maintains that standing while the Union's proposal moves the Unit B up a notch.

2017
Moultrie Edgar Douglas Shelby, Fayette Christian, Clay
2018
Moultrie Edgar, Douglas Employer Fayette Union Christian Clay
2019
Moultrie Edgar Douglas Employer Fayette Union Christian Clay
2020
Moultrie Edgar Douglas Employer Fayette Union Christian Clay

The centrality statistics are illuminating. From the Union's data based on the full Unit B data, the Employer's offer hovers within hundreds of dollars above the six county median and averages for the first two years and falls behind by nearly \$1000 in most of the third year statistics. The Union's full Unit B offer is about \$1000 +/- above the averages and the medians.

UNION DATA : AVERAGES			MEDIAN		Final Proposals
	6 County*	5 County	6 Counties	5 Counties	
2018	38,197	38,778	38,723	37,960	Un. 39,050 Er. 38,650
2019	39,260	39,823	39,406	38,813	Un. 40,100 Er. 39,300
2020	40,331	40,944	40,385	39,770	Un. 41,150 Er. 39,950

*(Moultrie CBA data inserted in Union matrix)

Looking to the Employer materials the centrality statistics are as follows comparing the Unit B offer with data separately from the comparative communities corrections and dispatch while ignoring the "Other" jobs.

EMPLOYER DATA: AVERAGES			Dispatchers		Final Proposals
	Corrections 6 County*	5 County	6 Counties	5 Counties	
2018	38,799**4	35,083*3	38,799**4	35,083*3	Un. 39,050 Er. 38,650
2019	35,684	35,439	35,825	35,608	Un. 40,100 Er. 39,300
2020	35,477	36,193*5	35,187	36,008	Un. 41,150 Er. 39,950

*(2018 uses 4 and 3 and 5 counties respectively)

⁶ Iron Law of Wages. "the doctrine or theory that wages tend toward a level sufficient only to maintain a subsistence standard of living." © 2020 Dictionary.com, LLC, Accessed on the internet at: <<<https://www.dictionary.com/browse/iron-law-of-wages>>>

Approved By
Dumonceaux, Chad #5852

Disclaimer: This document contains neither recommendations nor conclusions of the Illinois State Police. It and its contents are not to be disseminated outside of your agency.

The averages show the Employer Unit B offer and the Union's offer around the 2018 average but the Union's offer exceeds the averages in both corrections and dispatch categories of the other counties for the other years. For those years both are \$4500+/- above the corrections averages.

On a median basis the offers are well above the dispatcher in the first year. In the last two years they are about \$4000 to \$5000 above the median for the second year. The same is true of the third year median in the corrections comparison but for dispatchers the offers are about \$6000 above the medians.

EMPLOYER WAGE DATA: MEDIANS (rounded to 000's)

	Corrections 6 County*	5 County	Dispatchers 6 Counties	5 Counties	Final Proposals
2018	33,700*4	33,900*3	34,700	35,600	Un.39,050 Er. 38,650
2019	35,900	35,600	35,000	35,600	Un.40,100 Er. 39,300
2020	36,000	35,400*5	35,550	35,500	Un.41,150 Er. 39,950

*(2018 uses less than 4 and 3 and 5 counties respectively)

The Employer's demonstration suggests that Shelby County's Unit B jobs are well paid in comparison to the other counties, moreso in the Dispatcher category. The rankings of the counties in the Employer data would be:

2018
CO: Moultrie Fayette Clay Edgar **Employer Union**
Disp: Moultrie Clay Fayette Edgar, **Employer Union**
2019
CO: Douglas Fayette Clay Christian Moultrie Edgar **Employer Union**
Disp: Christian Fayette Clay Moultrie Douglas Edgar, **Employer Union**
2020
CO: Moultrie Douglas Fayette Clay Christian Edgar **Employer Union**
Disp: Moultrie Christian Fayette Clay Edgar, **Employer Union**

Comparison of the two Parties' statistics demonstrated the variation between their methodology. Certainly the addition of Moultrie County depresses the Union's comparison but not the Employer's. The Union's ranking shows the offers as "middling" while the Employer's show the county's ranking as vanguard. The Union having only three settlements in 2020 interpolates the other two counties of its five by carrying forward the last increase of the expiring contracts for the first increase of the next contracts. In the years where the Employer is missing counties it omits them and averages the remaining. Of course the Employer divides the Unit By job category. More to the point, the Employer's use of the actual dollars paid exaggerates the differences between its offer and the comparison communities and its offer and the Union offer. It shows its offer as being in excess of the averages and medians. What its methodology is demonstrating is that its offer produces more dollars on a given date (September 1) than the others on the same precise date.

Factor #4 is a comparison of issues, here wage *increases*. The proper comparison is not the dollars paid but the *rate of increase* whether in percentage or dollars. Because one of the Illinois factors is the CPIU, the bias of the legislature is clearly in favor of the language of increase being percentages.

Comparison of wage increases is to be demonstrated in a labor market, ie comparable communities. A market has the characteristics of "bid and ask," not "going price" which is the retail approach. The Employer's data is not so much one of a comparison of the issue (Factor #4) of wage increase as it is one of the sorts of other evidence that bargaining parties may consider in Factor #8.

The conclusion reached on Factor #4 evidence tempered with Factor #8 information is that even with average or median the market increases Shelby County Unit B jobs pay more than other counties. The Employer's offer barely improves on the cost of living. That and the unfortunate retail approach of the Employer bodes against adopting its offer when considering the comparison of wage increases in the local labor market.

There are still two other factors to consider. The changed circumstances, Factor #7, outlined in the Deputy issue pertains as well here. Corrections Officers are no less one of the at risk services possibly more so than road deputies. While the high rank of the Deputies among the counties and the retroactivity mooted any hazard pay consideration, that is not the case here. The Employer offer of merely the cost of living takes no account of the changed circumstance. Compensation should follow on that risk.

The final consideration is Factor #8, those facts that reasonable bargaining parties should consider. One, changed circumstances, has already been considered. There is more to the Factor #8 evidence. It is clearly demonstrated that under the step system the employees of Unit B at higher seniority fall more and more behind. While the base rate for Unit B is about average in year one of the CBA, employees at higher steps fall behind the averages of the other counties. This is shown in both the Union and Employer charts but is actually calculated by the Union. In the out years (after 5) Unit B employees fall behind with both offers.

In year one the lag ranges from -1.5% to -4.9% depending on the offer and the year. In year two it ranges from -2% to -6% depending on the offer and the year. In year three it ranges from -2.2% to -7.2% depending on the offer and the year. Still every case all are negative with the sole exceptions of the first year (base pay) and the top rate. The latter shows significant improvements over the contract. That may have an exclusive motivation owing to the unique role that top rates have in eventual pension calculations. The effects on the top rates can be ignored. The effect on the others cannot. While the step system cannot be disambiguated for the purpose of evaluating a wage increase, it is still relevant that the work force is falling behind its peers in the mid years of the steps. That is yet another reason to favor the Union offer.

There is one other Factor #8 issue. That is the Employer's proposal to "red circle"⁷ the Other Unit B jobs of clerk and janitor. There are five clerks and four janitors. The Employer argues they are paid

⁷ When an employee is overpaid, their base pay as a "red circle rate," or a rate of pay that is above the maximum salary for a position. A red circle policy is a common approach to addressing this situation and allowing the market to catch up with the employee's pay. Stacey Carroll, "HR Cost Cutting with a Red Circle Policy," (April 4, 2009) *PayScale.com*, 2020 PayScale, Inc. Accessed on the internet at <<<https://www.payscale.com/compensation-today/2009/04/red-circle-policy>>>.

more under the FOP agreement than comparable positions in the County's AFSCME agreement. It argues that the janitor compared to the AFSCME laborer is required to perform tasks of lower physical demand and of less skill. The Sheriff's clerks perform the identical tasks to the court clerks. That is a valid internal comparison under Factor #4 and potentially reasonable.

The chief Union argument is that this is a "breakthrough" issue that must sustain a high burden in order to change it via interest arbitration. The law on that is discussed above. Interest arbitration is not forum for the adoption of the "good ideas" of either party. Essentially per Arbitrator Benn the proponent must prove the current system is "broken." Key to adopting such measures in interest arbitration is the hardship suffered by the proffering party accompanied by other unsuccessful attempts to resolve the matter.

There is no attempt to show a hardship by the County. The only fact is that the clerks and janitors are paid more than others in the County. That is one statutory factor among many. Not only had the Employer not attempted, let alone sustained, the burden to adopt a breakthrough issue, the matter must fail on another ground. The Arbitrator's jurisdiction is to choose one of the final two economic offers. The award cannot be tailored to modify one classification's increase differently than others. As has been concluded for the balance of the Unit B jobs, corrections and dispatch, the Union's offer is the more reasonable. The red circle proposal cannot be separately adapted in this forum even if it were the more reasonable.

XIV. ANALYSIS AND CONCLUSIONS - HEALTHCARE

Economically the final offers on health care are near identical. The differences arise in some of the features. The issue is the premium share paid by the employees. During the pendency of the negotiations the employees paid the \$40.00 per pay period as required in the final year of the expired agreement. The Union proposes to increase that to \$53.00 effective November 1, 2020, this year. The Union's proposal is prospective only. The Employer proposes that the payment be converted to a percentage of the individual premium, 12.5%, and that it apply to all pay periods beginning the first insurance plan year of the successor agreement, ie. November 2018. The two amounts, \$53 and 12.5%, are identical in economic impact for the current year.

The internal comparisons show that the County employees all pay a percentage of the premium. Under the prior agreement and through hearing and award in 2020 the FOP employees paid \$1040 annually. The Union proposal would make that \$1378 annually. By contrast the AFSCME unit and non bargaining employees paid \$1275 (\$49/pay) in 2018 and \$1350 (\$53/pay) in 2019. Adopting the Union's position would place the FOP employees to an advantage of \$235 or \$310 annually compared to the County's other employees.

Other Factor #4 of external comparisons provide the following information:

Approved By
Dumonceaux, Chad #5852

Disclaimer: This document contains neither recommendations nor conclusions of the Illinois State Police. It and its contents are not to be disseminated outside of your agency.

Insurance Premium Share paid by Employees

Douglas	0% (no cost)
Moultrie	0%
Christian	6%
Fayette	5%
Shelby	8.88% current
Clay	13.65%
Edgar	15%
Average:	6.6%w/o Shelby
Median	5% w/o Shelby
Union	11.77%
Employer	12.5%

The adoption of either offer would maintain Shelby County's rank among the six comparable communities. Nothing about the comparisons clearly support either proposal based on economics. The analysis turns to the other non-neutral factors, Factor #7 COVID 19 presenting changes circumstances has been addressed earlier and applies here as well. It can be considered in connection with Factor #8.

A Factor #8 consideration is that the Employer's offer includes a retroactivity feature. That would require a small offset to the retroactive wages once awarded. Compared to other counties, the premium payment would erode the respective wage awards for Unit A and B. That would be a consideration of net pay, ie net the premium. Such consideration would improve the standing of Moultrie and Douglas in the wage comparison but would not change the relative standing of Shelby as tops for Deputies and above average for others.

Relative to Factors #7 and #8 are the consideration of the unknown future premium charges of the carrier. As of the hearing nothing unusual was expected from the carrier. Since the COVID19 outbreak, that is up for serious question. The costs of the disease itself, although it has undershot the projections, is a continuing fact of life until there is a successful therapy or vaccine. The deflection of health care resources away from the routine disease and injury states is another potential cause of premium increases. Of course, employees face the possibility of the disease itself and resultant cost of care. Taken in context of the reduction in wages in the Employer's offer with retroactivity, the factor of changed circumstances supports the Union offer. The lack of retroactive reduction in the wages in the Union offer can rationalize it as a concession towards a token hazard pay for these first responder classifications in light of the changed circumstances.

The breakthrough analysis of the Employer's offer would have supported the Union notwithstanding any other Factors discussed. This Factor #8 issue, to bear repeating, whether mere "good ideas" from either party are up for adoption in interest arbitration absent the showing that the system is broken. Again no serious attempt was made to even show the system was broken by the Employer. It did claim a desire for uniformity among the County employees all of whom pay a percentage of the premium aside from these units. To do so would change the FOP units' dollar denominated payment to a percentage which is inherently more open ended and more susceptible of the effects of changed circumstances. No serious hardship shown beyond the few hundred dollars difference paid by each FOP employee was shown to support an open ended premium charge. No evidence was adduced on

Disclaimer: This document contains neither recommendations nor conclusions of the Illinois State Police. It and its contents are not to be disseminated outside of your agency.

attempts to rectify whatever problem the dollar denominated payment caused. In fact the record was clear that the offers were so close as not to produce significant differences. Finally, these parties are now at interest arbitration after two thirds of the contract term passed. Whatever "hardship" there may have been was not sufficient to cause the parties to agree or to move more quickly to impasse procedures. Factor #8 breakthrough considered alone is enough to recommend the Union's offer.

XV. AWARD

- 2018 - \$1,000 2019 - \$800 2020 \$800*
1. The Employer's final proposal to increase the base pay of the Deputy Unit A retroactive to September 1, 2018 for the successor CBA is accepted and awarded. This shall be retroactive to September 1, 2018 including for any Officers who have left employment since that time.
 2. The Union's final proposal to increase the base pay of Unit B classifications retroactive to September 1, 2018 for the successor CBA is accepted and awarded. This shall be retroactive to September 1, 2018 including for any Officers who have left employment since that time. *\$1,050 each yr*
 3. The Union's final proposal to increase the employee premium payment to \$53 per pay period effective November 1, 2020 for the successor CBA is accepted and awarded.
 4. Pursuant to the Parties' request, all previously agreed-to tentative agreements are to be included in the new agreement and are so awarded.

NARRATIVE

This investigative report reflects the interview of Shelby County Sheriff's Office (SCSO), [REDACTED] (DOB [REDACTED]). The interview was conducted on May 14, 2020, at approximately 12:14 p.m., by Special Agent Jennifer Smit #6725, and myself, Trooper Benjamin Schlouch #6818, of the Illinois State Police, Zone 5 Investigations, and took place in Sheriff Koonce's office. The interview was conducted regarding [REDACTED]

[REDACTED], illegal firearms transactions, [REDACTED].

The following is a synopsis of the interview and is not intended to be a verbatim account.

[REDACTED]

[REDACTED]

[REDACTED] was then asked about the allegations improper disposal/sale of seized firearms. The SCSO arrested Al L. Davis (DOB [REDACTED]) (Note: At the time of the interview [REDACTED] could not remember the individuals name) [REDACTED], and seized 32 firearms from Davis' residence. [REDACTED] stated he spoke to [REDACTED], in reference to what the SCSO can do with the 32 forfeited firearms. [REDACTED] advised [REDACTED] told him Davis took a plea agreement and forfeited the guns to the SCSO. [REDACTED] asked [REDACTED] what that meant and [REDACTED] advised the guns belong to the SCSO and they can do pretty much whatever they want with them. The SCSO took the seized firearms to Locked and Loaded (L&L) in Pana, IL to be sold and have the proceeds benefit the SCSO Shop with a Cop Program. After selling the firearms, it was discovered it was the wrong thing to do and all money was refunded to those who purchased the firearms. Sheriff Koonce told [REDACTED] he looked up the Judici request, and saw it only refereed to a "weapon", not "weapons" being forfeited. After seeing this they knew they had to return the firearms. All originally seized firearms are back in SCSO evidence and all money has been appropriately refunded from the Shop with a Cop account.

[REDACTED]

[REDACTED] provided a current SCSO roster; which is attached to this report. [REDACTED] had no other information to provide, and the interview concluded at approximately 1:10 p.m. On May 26, 2020, the audio recording of this interview was copied to a CD and given to S/A Smit. S/A Smit packaged the CD and labeled it Exhibit #2. S/A Smit sealed Exhibit #2, initialed the seal, and placed it in Champaign Evidence Locker #9 on June 4, 2020 at approximately 3:00 p.m.

[REDACTED]

[REDACTED] was then asked about the allegations improper disposal and sales of seized firearms. The SCSO arrested Al L. Davis (DOB [REDACTED]) (Note: At the time of the interview [REDACTED] could not remember the individuals name) [REDACTED] and seized 32 firearms from Davis' residence. Davis passed away a short time after the incident, while the firearms remained in evidence. [REDACTED] stated [REDACTED] spoke to [REDACTED], in regards to what the SCSO can do with the 32 forfeited firearms. [REDACTED] told [REDACTED] to do whatever [REDACTED] advised. The SCSO took the seized firearms to Locked and Loaded (L&L) in Pana, IL to be sold. L&L processed all gun purchase paperwork for a \$25 per gun fee. Most, if not all, of the firearms were purchased by SCSO employees. The money raised from the gun sales was deposited into the SCSO Shop with a Cop Fund. After the firearms were sold, [REDACTED] stated it was determined the firearms were technically not allowed to be distributed and sold. [REDACTED] stated he knew it was wrong when he couldn't find the "paperwork" (judge order) which allowed him to sell the firearms. [REDACTED] later said he looked up the Judici request, and saw it only referred to a "weapon", not "weapons" being forfeited. [REDACTED] knew he had to get the firearms back and do things right. All firearms were then returned into evidence and the money was refunded to the firearm purchasers. Originally [REDACTED] included the \$25 L&L paperwork fee from the Shop with a Cop Fund reimbursement, but then [REDACTED] gave his own funds to the purchasers to reimburse the Shop with a Cop Fund. [REDACTED] stated the Shelby County Board's law enforcement committee chairman verified all the guns are accounted for. At a later time, [REDACTED] stated he contacted a potential relative who paid for Davis' funeral in an effort to properly dispose of the firearms, however, he has not heard back from the relative. [REDACTED] plans on revisiting the issue when the new Shelby [REDACTED].

[REDACTED] advised the main deposits into the Shop with a Cop Fund are from calendar ad sales (120 ads at \$75 per ad). [REDACTED] provided a copy of the Shop with a Cop's balance sheet; the provided copy is attached to this report. [REDACTED] is looking at getting the FOP to take over the Shop with a Cop program. The Stellar Inmate Account is separate from the Shop with a Cop account. [REDACTED] oversees the Inmate Account.

[REDACTED] stated there was a pay and insurance issue that just went to arbitration and there is a final ruling. [REDACTED] advised he would provide us more information on the ruling in the near future. [REDACTED] provided a list of all county board members; the list is attached to this report.

[REDACTED] had no other information to provide, and the interview concluded at approximately 12:04 p.m. On May 26, 2020, the audio recording of this interview was copied to a CD and given to S/A Smit. S/A Smit packaged the CD and labeled it Exhibit #1. S/A Smit sealed Exhibit #1, initialed the seal, and placed it in Champaign Evidence Locker #9 on June 4, 2020 at approximately 3:00 p.m.
