*Educating Voters, Challenging Leaders*

## Overview

The Three Headed Eagle Alliance, Inc. is a federally registered non-partisan corporation whose charter is to educate voters, promote constitutional values and challenge elected officials.

Amidst reports of election irregularities and anomalies, from citizens and our members, during and after the 2020 General Election, the sub-committee for our “Government Watchdog” team (also known as Raising Kane) has been reviewing election data that was provided by the Kane County Clerk’s Office on January 4, 2021. Furthermore, through the course of our review and analysis, we received investigation reports and other materials, regarding voter registration and election data. We have concerns about our findings and believe these concerns need to be addressed immediately, before another election cycle comes to pass in Kane County. Here are just some examples of the anomalies and concerns we found that we cannot answer:

- A FOIA was submitted for the voter roster from the 2020 General Election to the County Clerk’s office. They provided us TWO different spreadsheets, a few weeks apart. The second spreadsheet was missing 1,800 names that the first spreadsheet contained. WHY?
- In comparing the official data provided by the Clerk’s office to the official reports posted on the Kane County website for the 2020 General Election. In multiple instances the final numbers have different totals. WHY? (Please see [Appendix A & B](#))
- Election judges have reported procedural changes were made on Election Day (November 3, 2020) that differed from what they were taught in training or was in the manual. WHY? (See [Appendix E](#))
- We have received reports that Kane County issued NO provisional ballots for the 2020 General Election. A provisional ballot is used to record a vote when there are questions about a given voter’s eligibility. (See both [Appendix D & E](#)) WHY?
- On the spreadsheet(s) provided us, there are hundreds of voters over 100 years old, with some being as old as 121 years old who voted in the 2020 General Election. WHY?
- According to the voter roster (the spreadsheets) provided to us, it shows dates that state individuals were registered to vote as young as 2 years old. WHY?
- After reviewing the data provided us, it appears that multiple people had ballots counted in the 2020 General Election who no longer live in Kane County or who are deceased. WHY? (See [Appendix C](#) as just one example)
- On multiple dates throughout 2020, voter registrations show hundreds of individuals registering to vote on single days—during the height of the COVID restrictions (March, April, and May of 2020). Although online registrations made voter registration much more accessible, it seems unlikely that that many individuals could be processed in a single day while still ensuring any voter identity verification.
- In Kane County, there were (a minimum of) 39,647 mail-in ballots which were NOT initialed by any election judge, neither Democrat nor Republican. According to the Illinois State Legislature, all mail-in ballots (VBM) are required to be initialed to verify that the voter’s information and signature are correct. WHY? (See [Appendix D](#))

Considering the seriousness of our concerns, we are requesting a forensic audit of the 2020 General Election for all of Kane County.

As concerned citizens we understand that the fabric of our Constitutional Republic is based on the integrity of our election systems. Therefore, given the number of inconsistencies and irregularities we have uncovered, confidence in our voting system must be restored. We, as citizens of Kane County have both the right and responsibility to actively participate in our governing process, which includes holding leaders and officials accountable when significant anomalies are found. That is what makes America work.

In closing, election integrity is an American issue, not a partisan issue, which affects us all. It is our hope that you, members of the Kane County Board, who act as our representatives, share the same goals as we have, which is simply to ensure that Kane County residents have an honest and transparent voting system. That is the sole purpose of this inquiry and request, and we believe that is what you want too. Thank you and we look forward to your timely response to our request.

## Appendix A

### As of 10/26/20:

Total Votes Received: **127,847**

$$\begin{array}{r}
 67,472 \text{ Vote By Mail Ballots} \\
 60,375 \text{ Early Votes Cast} \\
 = \\
 \mathbf{127,847} \text{ Total Votes Received}
 \end{array}$$

### As of 10/29/20:

Total Votes Received: **154,691**

$$\begin{array}{r}
 73,829 \text{ Vote By Mail Ballots} \\
 80,820 \text{ Early Votes Cast} \\
 = \\
 \mathbf{154,649} \text{ Total Votes Received}
 \end{array}$$

A DIFFERENCE OF **42** VOTES. WHY?

### As of 11/2/20:

Total Votes Received: **173,846**

$$\begin{array}{r}
 77,539 \text{ Vote By Mail Ballots} \\
 95,686 \text{ Early Votes Cast} \\
 = \\
 \mathbf{173,225} \text{ Total Votes Received}
 \end{array}$$

A DIFFERENCE OF **621** VOTES. WHY?

## Appendix A

According to the Kane County Website, the following data is presented:

- For the 2020 General Election, the Election Data Analysis Report (XLSX) states that there were **234,723** total ballots cast. However, the Cumulative Report states that the total ballots cast in the 2020 General Election was **234,751**. A **difference of 28 votes**.
- According to the Cumulative Report, the highest number of mail-in ballots (VBM) received for any one category (in this case for U.S. Senator) is **83,732**. Yet according to a response to a FOIA request the County said the number of mail-in ballots (VBM) received was **85,034**. A **difference of 1,302 votes**.
- According to a FOIA, there were **91,409** total mail-in ballots sent out. Yet only **85,034** ballots were returned. A **difference of 6,375 ballots**. Is there a cross-reference for those “missing” ballots to confirm who requested a mail in ballot, but did not return it?

## Freedom of Information Act Request to the Office of the Kane County Clerk

**\*\*Note to Requester: This form is designed to provide you with helpful guidance on how to submit a FOIA request to the Kane County Clerk's office. You do not need to use this form. You may submit a FOIA request in any written format that you choose. You should retain a copy of your FOIA request for your files.\*\***

Request Submitted to: The Kane County Clerk  
719 S. Batavia Avenue—Bldg. B  
Geneva, Illinois 60134

Date Requested: 6-25-21

Request Submitted by: ☒ Email ☐ U.S. Mail ☐ Fax ☐ In Person

Name of Requester: \_\_\_\_\_

Street Address: \_\_\_\_\_

City/State/Zip: Geneva, IL 60134

Telephone (Optional): 630-261-1100 Email (Optional): clerk@kane-county.org

Fax (Optional): \_\_\_\_\_

Records requested: **Provide as much specific detail as possible to help identify the information that you are seeking. Additional pages may be attached if necessary.**

I have an existing request (attached). I would like to add (except for the list of Tech Judges), for all the same line items for the following precincts: CA10-81 and CA10-82, SC0008, SC0012, SC0018, SC0026--all precincts from the same polling place: New Covenant Bible Church.

Thank you  
\_\_\_\_\_  
\_\_\_\_\_

Do you want to receive copies of the documents? ☒ Yes ☐ No

Or do you want to review the documents in the Kane County Clerk's Office? ☐ Yes ☒ No

If you would like to receive copies of the documents:

Do you want paper copies or electronic copies? ☒ Paper ☐ Electronic

If you want electronic copies, please indicate the format in which you would like to receive them: \_\_\_\_\_

The Kane County Clerk's Office will provide documents in the electronic format requested, if feasible.

Is this request for a commercial purpose? ☐ Yes ☒ No

**It is a violation of the Freedom of Information Act for a person to knowingly obtain a public record for a commercial purpose without disclosing that it is for a commercial purpose, if it is requested to do so by the public body. 5 ILCS 140.3.1 (c)**

Are you requesting a fee waiver? ☒ Yes ☐ No

**If you are requesting a waiver of any fees for copying the documents, you must attach a statement of the purpose of the request and whether the principal purpose of the request is to access or disseminate information regarding the health, safety and welfare or legal rights of the general public. 5 ILCS 140/6 (c)**

**FOIA REQUEST REGARDING KANE COUNTY NOVEMBER 3, 2020 ELECTION**

I am requesting the following **in order of importance**. I do not know if there is a cost involved so that is why I am requesting these in this way. All requests only involve **Kane County Precincts**. I would like copies of the paper for Tally Tapes, Affidavits and Anomaly Reports.

- 1.) Tally Tape Reports for all precincts in Kane County on November 3, 2020 election day
- 2.) All Affidavits (pink documents) for voters who failed to surrender their mail in ballots for all precincts in Kane County on November 3, 2020
- 3.) Anomaly Reports for each precinct in Kane County on November 3, 2020
- 4.) Names, emails and phone numbers of all tech judges who worked the 2020 election in Kane County—all precincts.
- 5.) (Kane county sent letters offering to people to receive a mail in ballot) Please send Copies of envelopes returned unopened or return to sender envelopes in Kane County regarding the November 3, 2020 election

**Waiver of Fees Request:**

As a citizen, I am requesting these documents to ensure our citizens in Kane County had a free and fair election following all the election laws of our county and state. I am an experienced election judge and understand the election day processes involved to create the documents I am requesting so I can examine them intelligently: Waiver of fees to be waived. Please feel free to call me with any questions.

Retweeted

While I now live in Kenosha, WI, I never felt secure enough with the system, nor with my ability to maintain a life here, to attempt to change my voter registration from IL-14 prior to the election.

It was also very important to me that I vote for @LaurenUnderwood again.

Although we have not been able to independently verify, sources have indicated that this person was a resident of Kane County. (The reason why this is highlighted is because it was featured in Jim Oberweis' Notice of Contest on page 8 in Appendix D.)

It was also very important to me that I vote for @LaurenUnderwood again.

Replying to @LaurenUnderwood

So, I got up early on Tuesday and traversed the 45 miles between my new home and my old one in order to have that privilege.

And it WAS.

The race has not been called yet, and while Lauren is currently trailing her opponent the margins are razor thin.

---

Contestant Oberweis substantially narrowing the gap between Contestee Underwood's and his vote totals.<sup>2</sup>

**25. Ballots Not Initialed by Election Judges in Contravention of Illinois Law.**

Illinois law requires that all ballots be initialed by an election judge in order to be counted<sup>3</sup>. While prior to 2020, the Illinois Supreme Court had carved out fact-specific exceptions<sup>4</sup> to this requirement for "absentee" ballots in certain limited circumstances, a new statutory scheme, enacted by the Illinois legislature in June 2020 in response to the COVID-19 situation, opened a Pandora's Box of potential equal protection violations, making the initialing of vote-by-mail ballots ("VBM ballots") critical to protecting the integrity of the election. Nevertheless:

A. Kane County's Clerk did not require the initialing of any VBM ballots.

Additionally, they were co-mingled with ballots placed by persons in "lock-boxes" throughout Kane County—the "lock-box" allowed because of the COVID-19 situation. See Affidavit of Daniel Zahm, hereinafter "Zahm Aff.", attached hereto as Exhibit 2.

B. Other County Clerks required the initialing of the VBM ballots, and all other

ballots; however, the discovery recount in McHenry and Lake Counties revealed a number of early

<sup>2</sup> Contestee Underwood allegedly took approximately 60% of the VBM total, and her total vote tally should thus be reduced by 2,941.8. Likewise, Contestant Oberweis' total vote tally should be reduced by roughly 40%, or 1,961.2, resulting in Contestant Oberweis narrowing the gap in vote totals on this subset of votes alone by 980.6 votes.

<sup>3</sup> 10 ILCS 5/24a-10: "If any ballot card or ballot card envelope is not initialed, it shall be marked on the back "Defective," initialed as to such label by all judges immediately under such word "Defective," and not counted, but placed in the envelope provided for that purpose labeled "Defective Ballots Envelope."

<sup>4</sup> See, e.g., Bazydlo v. Volant, 164 Ill. 2d 207, 647 N.E. 2d 273 (1995) wherein the Court would require a contestee to present "clear and convincing evidence" that not initialing 54 "absentee" ballots would not disqualify them because: "(1) the absentee ballots can be identified and distinguished from in-precinct ballots; and (2) the initialing requirement does not contribute to the integrity of the election process." This case is inapplicable to the facts at bar here: the "absentee" ballots were, in many cases, mixed in with "lock-box" ballots, i.e., ballots placed in lock-boxes throughout the 7 Counties in ILCD-14. In addition, some Counties were found to have carved out their own procedures for handling the judge's initialing of VBM ballots, and the disparate treatment given VBM ballots throughout ILCD-14 in this regard, served to unequally disenfranchise certain voters and unconstitutionally dilute and debase the vote.

vote and VBM ballots without judges' initials. Had the voter lived in Kane County, these un-initialed VBM ballots would have counted, but voters in McHenry<sup>5</sup> and Lake Counties had their votes thrown out simply because their County Clerks attempted to follow Illinois law! *Zahm Aff., Ex. 2*. This is exactly the type of unconstitutional disparate treatment derided in *Bush v. Gore, supra*.

C. In Kane County, there were 39,647 VBM ballots cast in ILCD-14. Contestee Underwood allegedly "won" 68.60% of them, or 27,197. Contestant Oberweis allegedly won only 31.40%, or 12,449 of them. Yet, because they are all invalid under Illinois law, they cannot be counted toward either Contestee Underwood's or Contestant Oberweis' vote totals. *After deducting the illegal VBM ballots from Contestee Underwood's District-wide total (203,209 – 27,197 = 176,012) and deducting the illegal VBM ballots from Contestant Oberweis' District-wide total (197,835 – 12,449 = 185,386), Contestant Oberweis is revealed as the true winner in ILCD-14 by a margin of 9,374 votes (185,386 – 176,012 = 9,374). See Official Canvas, County of Kane at <https://www.kanecountyclerk.org/Elections/Election%20Documents/2020-11-03/2020%20ge%20official%20canvass.pdf>, and "Cumulative Report-Official" for the 14<sup>th</sup> Congressional District, attached hereto as Exhibit 3.* Because it is believed that Contestee Underwood's VBM vote was approximately, conservatively speaking, 60% of the VBM vote total throughout ILCD-14, upon further analysis of the involved Counties, it is believed the proportional reduction of her illegal vote will result in an even wider margin of victory for Contestant Oberweis.

<sup>5</sup> In fact, in a complete 180-degree difference from Kane County, the McHenry County Clerk has programmed his ballot processing machine to immediately reject ballots that were un-initialed. *Zahm Aff., Ex. 2*. Nevertheless, at least 197 of these un-initialed ballots did appear in the boxes during the McHenry County discovery recount, and, therefore, may very well have been improperly counted. *Id.* Furthermore, at least 42 of these un-initialed ballots did appear in the boxes during the Lake County discovery recount and were improperly counted. *Id.*

County, Illinois which illustrate that Contestant Oberweis should prevail in this Notice for Contest. It is my understanding from my years of practice and my profession that *Section 22-9.1* of the Illinois *Election Code (10 ILCS 5/22-9.1)* permits a candidate who received votes equal in number to at least 95% of the number of votes cast for the alleged successful candidate for the same office to file a petition for a discovery recount within 5 days after the last day for proclamation of the results of any canvass declaring persons elected for any office. The petition for the “discovery recount” shall ask that ballots, voting machines, or ballot cards--as the case may be--shall be examined, that any automatic tabulating equipment shall be tested, and that ballots, recorded votes, or ballot cards--as the case may be--shall be counted in specified precincts, not exceeding 25% of the total number of precincts within the jurisdiction of the election authority. *See 10 ILCS 5/22-9.1.*

9. During the discovery recount in Kane County, it came to light that the Kane County Clerk, in contravention of Illinois law, as I understand it, failed to require election judges to place their initials on ballots cast via Illinois’ hastily enacted, new “vote-by-mail” procedure. Based on information and belief and my discussions with paid staff and volunteers overseeing the Kane County discovery recount, there are also no judges’ initials on ballots dropped into lock-boxes placed at various places in Kane County which lock-boxes were allegedly necessitated by the COVID-19 situation in Illinois and mandated by the Executive Order of Illinois Governor J. B. Pritzker. It is my understanding that ballots without judges’ initials should not be counted under Illinois law. Thus, the VBM ballots cast in Kane County must be proportionately reduced;

10. In Kane County, according to the Official Cumulative Report filed by the Kane County Clerk, there were 39,647 VBM ballots cast in ILCD-14. Contestee Underwood allegedly won 68.60% of them, or 27,197. Contestant Oberweis allegedly won only 31.40%, or 12,449 of

them. Yet, because they are all invalid, they cannot be counted toward either Contestee Underwood's or Contestant Oberweis' vote totals. After deducting the illegal VBM ballots from Contestee Underwood's District-wide total ( $203,209 - 27,197 = 176,012$ ) and deducting the illegal VBM ballots from Contestant Oberweis' District-wide total ( $197,835 - 12,449 = 185,386$ ), *Contestant Oberweis is revealed as the true winner by a margin of 9,374 votes ( $185,386 - 176,012 = 9,374$ )*. See Exhibit B attached hereto, the Official "Cumulative Report" of the Kane County Clerk for the November 3, 2020 Election and the results in ILCD-14;

11. It is my understanding that Public Act 101-642, passed by the Illinois Legislature and effective June 16, 2020 set, as an immediate effective date, the first legal date election authorities could accept applications from a voter for a vote-by-mail ballot. It is my understanding that the earliest the election authority could mail the ballot to the requesting voter was September 24, 2020.

12. Prior to June 16, 2020, however, election authorities in ILCD-14 illegally accepted 63 voter requests to receive a vote-by-mail ballot in the November 2020 General Election. Will County accepted 2 applications and McHenry County accepted 61. Accordingly, these votes were illegally cast and the VBM vote totals in each county must be proportionately reduced. *Exhibit C attached to this Affidavit is part of an Excel Spreadsheet demonstrating this situation. I excised certain columns from this data that are not relevant to this dispute, contain proprietary voter information, and containing other voter information that unnecessarily exposes the voter's private information;*

13. In is my understanding that, pursuant to PA 101-642, the last day an Election Authority could accept an application to vote by mail was October 29, 2020. However, 28 voters on the ILCD-14 Voter List are listed as having applied to vote by mail after October 29, 2020 and

17 of those voters returned their ballots on election day or within 14 days thereafter, by County, as follows: DuPage – 1 voter, Kane – 3 voters, McHenry – 15 voters, Will – 4 voters. Accordingly, these votes were illegally cast and the VBM vote totals in each county must be proportionately reduced. *Exhibit D attached to this Affidavit is part of an Excel Spreadsheet demonstrating this situation. I excised certain columns from this data that are not relevant to this dispute, contain proprietary voter information, and containing other voter information that unnecessarily exposes the voter's private information;*

14. To recap these irregularities: 63 ballots were illegally obtained because the applications were accepted too early; 17 voters illegally received and returned VBM ballots after illegally requesting and receiving them after October 29, 2020, 2 votes were received and counted more than two weeks after Election Day. As a result, Contestant Oberweis' and Contestee Underwood's vote totals must be proportionately reduced based on their total VBM vote;

15. In addition, I am aware that, during the discovery recount, boxes of VBM votes were brought to the inspection tables where Oberweis staff and volunteers sat, ready to inspect the VBM ballots. The boxes in McHenry, Lake and Kane Counties were unsealed, in contravention of Illinois law. Given the fact that the VBM ballots and lock-box ballots had no judges' initials (as a rule in Kane County, but sporadically in other counties) and were not securely sealed after the election, there is no way of gauging the integrity of the VBM vote in Kane County and no way of knowing if ballots were removed or supplemented in the unsealed boxes in the other counties prior to the discovery recount;

16. I am also aware that voters in Kane County were not allowed to vote provisionally;

2020, to ensure they did not want any additional information on the form and to secure an email address where the form could be submitted. Lake County Clerk officials provided me the address;

22. A few weeks later, I reached out to the Lake County Clerk's office to confirm that voters did not need to take any further action to be on the Clerk's mailing list to receive a VBM ballot and was told, on July 6, 2020, that the information would be sent to the State Board of Elections and the VBM ballots would be mailed beginning September 24, 2020. Due to the delay in getting access to the VBM list from Lake County, I was unable to cross check the names of the applicants and the names on the VBM list. However, on July 21, 2020, I communicated with the Lake County Clerk's office again and we discovered we had been given the wrong email address by the Lake County Clerk's office, so we promptly addressed the issue, retested the form, and confirmed with the Lake County Clerk that applications entered on the LCRCC website were in fact being received by the Lake County Clerk;

23. On or about August 7, 2020, the Clerk's office informed us that our form and procedure were impermissible. We were never notified by any other election jurisdiction that our form was impermissible. The Clerk's stated reason for abruptly changing her mind was that voters requesting a VBM via the LCRCC portal "did not have to sign anything." However, a voter never has to sign anything when he or she accesses the Clerk's website directly for a VBM application. Thus, the over 500 Republican or Republican-leaning voters who had signed up for a VBM with the Clerk's earlier permission via the LCRCC website were forced to re-request the VBM directly from the Clerk; and

24. During my research, I uncovered a voter who then allegedly resided in Wisconsin, but bragged on social media about driving from his home in Kenosha, Wisconsin, to vote for (Appendix C

Contestee Underwood at his old polling place in Illinois. *Exhibit E attached to this Affidavit is part of an Excel Spreadsheet demonstrating this situation, together with the social media post.*

**THE REMAINDER OF THIS PAGE IS LEFT INTENTIONALLY BLANK.**

I'm not the only IL R election judge that experienced what I am about to tell you. By the way, the word out is that Kane County (all of IL??) is STILL COUNTING BALLOTS until November 17th.

We were a small voting center: only one precinct in St. Charles, IL

1.) Our poll books kept freezing—this happened probably 5 times. This affected their numbers immediately placing us a couple votes off. I've been an election judge for several years and have NEVER experienced this. Our JBC's and poll books eventually reconciled at the end of the day. I requested that our tech-judge report this anomaly.

2.) When people came in having requested mail in ballots but did not have them, our training and the poll book directive was to call the call center and issue a provisional ballot. When my first voter arrived without his ballot to surrender, I put in his name and the poll book had a pop up telling me that he had requested a mail in ballot. Did he have the ballot to surrender? Answer NO tells you to give the voter a provisional ballot. I called the call center and was "schooled" by very testy woman who told me to ignore all that and do what she told me in this first instance and subsequently in all others. Here is what she told me: Type YES he had turned in the ballot and allow him to vote. Have him sign a pink affidavit saying he had no ballot to turn in. Our little voting precinct only had 150 or so people.

Please contact me if you would like more information. The above information is my recollection to the best of my ability and the truth. I will sign an affidavit if necessary.

[REDACTED]

November 7, 2020

To whom it may concern:

My name is [REDACTED] and this year I was an election judge for Kane County. It was my first year, so how things were done in the past years, I do not have a reference point for. I only write to you to share with you, my experience. I want to begin by being upfront and saying that everybody I worked with, as my fellow workers were fantastic, and showed no impropriety whatsoever.

However, there are a couple of incidences that have caused me to consider the possibility that I should notify others, to make sure we have a safe and protected election process. Those are as follows:

The entire day I was responsible for working the JBC #1. (I did not work JBC #2, that was designated for Grace Period Voting.) Right before we opened the polls, our tech judge explained to me specifically about spindling by precinct, to separate out the voters by their precinct. Being new to the process, I simply complied and did not ask questions as to why. By around 7:30 am, a gentleman came in who happen to be in the wrong precinct to vote. He made it through the pole book fine, and when I got ready to spindle his paperwork, I realized that I could not because we were not hosting his precinct number. It was then I understood why the spindling was set up the way it was, as an extra check and balance. If I did not have to separate of him by precinct, I would have missed that he should not be voting at our polling place. (Furthermore, although I am aware that the JBC is supposed to catch that when you scan it, but I also became aware that sometimes that doesn't work the way it supposed to either.)

However, around 8 AM to 9 AM, our tech judge received a phone call from the County. We were then instructed to no longer spindle the precinct separately, and to only spindle all of them together. At the time, I heard our tech judge questioning why this would be done this way, as he had worked in elections for the past 12 years, and stated to them they had never done it that way before.

It was explained to him, that if you looked in the manual for this year's training, it said so, and they had change the procedure. However, after returning home and reviewing our manual, I could not find that this procedure had been changed.

When he came over to reiterate this to me, and told me to spindle them all together, I also questioned him as to why we needed to change the procedure. He explained to me what I just shared above, and my response to him was that that just took away an extra check and balance. I questioned why (in one of the biggest elections that our country has ever seen) would you change your procedure, that would throw out an extra check and balance. He said he did not know and that he agreed with me. But, if that procedure was changed throughout Illinois, and the day was busy, it just seems that it would be easier for a potential "glitch to happen," as potentially a voter could vote at a wrong polling place, and not have the correct people on their ballot to vote for.

Considering all that we see going on through the nation, and if truly every valid/legitimate vote is meant to count, there are other areas of concern, that should be considered when looking at the totality of how/ and the means votes, were collected.

At the end of the evening, once the polls closed, upon closing the JBC out, I was told to print two copies of each report. One of the rally tallies was to be placed in the tote to go back to the county. The second rally tally was to be posted on the polling place itself for people to view.

I have since learned that we were required to prepare three, not two. Furthermore, I have learned that whoever was hosting voting as a polling place, are simply told to throw away the rally tallies once they get there. (I know my opinion does not count for much, but this strikes me as odd. It seems that the more paper proof you can have to verify, the easier it is to legitimize things. But that is just my personal opinion.)

Secondly, are they issue a provisional ballots/walk-ins on the day of, in place of using their mail-in ballots.

During training, we were instructed that if someone received a mail-in ballot but changed their mind and wanted to vote at a polling place instead, they were allowed to do so.

However, they were required to bring in their mail-in ballot, otherwise they would not be allowed to vote. However, on election day, we were told something different. It was explained to us that they had to fill out a pink affidavit, and if they said they had requested a mail-in ballot, but decided they wanted to vote in person instead, they were to sign the form and that was "good enough."

Again, I think it's vitally important that all legitimate votes are counted, but is there truly a cross reference point between the mail-in ballots, and reconciling those with the actual polling place voting?

Thirdly, during the day, I inquired to the tech judge if we knew how many people have voted so far.

He was very kind and brought us over to the paperwork that he had received. It had the totals for Kane County that were given to him. Glancing at it quickly, and after asking him some questions about the numbers, it was explained to me that approximately 90,000 citizens of Kane County had requested mail-in ballots, however only approximately 76,000 of those had been returned, therefore leaving approximately 14,000 ballots unaccounted for.

Although I understand that some of those people could have walked into the polling place the day of, and surrendered their ballot to vote in person instead, personally, that seems like an awfully high number to not know where those ballots are, especially considering that in the 14th District alone, the votes that are separating the US house representative candidates, is extremely narrow.

Lastly, I would like to share these two things regarding the polling place where I normally would've voted, had I not been working as an election judge.

On Wednesday, November 3rd, realizing that the rally tallies were meant to be posted, I brought my phone to go take pictures at my normal voting place. I am acquainted with people who work at the church, and one of them graciously let me take the pictures and stay as long as I wanted to.

Of course, I am a novice, (this may be nothing, but I want to do my part to say everything I know) but when I was reading the rally tallies, it said that six precinct total which voted there. (The voting place in New Covenant Bible Church in St. Charles on Randall Road.)

However, on the rally tallies totals, I could only find five precincts listed. (Yet the total on that same tape it printed that there were six precincts located there. CA0010-81, CA0010-82, SC0008, SC0012, SC0018, SC0026) I took pictures of it, and maybe there were six precincts voting there, and maybe I missed it, but I took very thorough pictures and tried to be as meticulous as I could be. In fact, I cannot find the totals anywhere for SC0018, even though it is listed as a precinct voting there. I guess I am confused as to why the rally tallies totals would not print out all the totals for each precinct voting there.

Also, at that time, and of course this is complete hearsay, a church worker shared with me, that they were friendly with the tech judge. This person said that the tech judge mentioned to them that people were able to vote, that had showed they had already voted. I expressed this to Kane County, and I was told that this is not a possibility. However, computers/software are often known to glitch out, and in this vital election, at this point I think it is something to consider looking into, especially as irregularities in software is now coming to light.

To the best of my knowledge, this is all I have to share with you at this time, however, please feel free to contact me if you have questions or need further explanation. I can be reached via cell phone at (309)357-0202.

Thank you for your time and consideration. It is my testimony and statement that the above has been shared in complete transparency and honesty, and a hereto confirm that I am telling the truth and that my statements are accurate. If you have questions or concerns, please do not hesitate to contact me, because I am very committed to helping our nation in any way that I can. I will happily volunteer for Kane County, or if I am needed in some other capacity, I am more than willing to help.

Most Respectfully,
