Erica Firnhaber,

Thank you for expressing your concern with payroll. However, the pay increase awarded to Stacy Prosser has no relation to the appointed position as Acting County Engineer discussed/voted on the July 14th County Board Meeting. Once a laborers base pay rate reaches within a certain dollar amount of the foreman's base pay rate, then a pay increase awarded to the laborer results in an equal pay increase to the foreman of the department. We provided a pay increase sheet for the laborer along with the pay increase with the equal value for the foreman (\$.54) on July 10th. See attached documents. To be clear, NO pay increase was or will be awarded to Stacy Prosser for the allotted responsibilities as Acting County Engineer.

Due to the department head vacancy there was no signature provided on the payroll or pay increase sheets. When we receive approval from the State authorizing Stacy Prosser as Acting County Engineer signatures will be provided upon payroll submittal.

See attached for Stacy Prosser's corrected time sheet for your records.

Thank you,

Jessica Stigers
