All persons elected or selected to fill positions provided for in this Section shall be exempt from the operation and provisions of any civil service act or laws of this State and the secretary of the commission shall be appointed by the superintendent. However, if "The Illinois Public Aid Code", as amended, becomes applicable in any county, the Department of Human Services may exercise the powers therein designated in relation to employees engaged in the administration of assistance under this Act. (Source: P.A. 89-507, eff. 7-1-97.)

(Source: P.A. 87-796.)

## **Sub-Section 202      Mandatory Functions**

The mandatory function of the VACMC is to provide financial assistance to needy veterans, the needy surviving spouse of a veteran, and the minor children of a veteran not in the veteran's custody. Eligibility for financial assistance is done in accordance with written standards approved by the Veterans Assistance Commission and the McHenry County Board. Financial assistance may only be approved for basic living expenses such as food, shelter, utilities, personal needs, transportation, and independent living expenses.

Veterans' Assistance and Emergency Veterans Assistance are never given in cash. All housing and utility costs are paid directly to the person or agency(s) to which payment is due. Vouchers for food or fuel are given. Vouchers are only provided to local merchants for whom a payment agreement has been prearranged between the vendor and the VACMC. Assistance is only granted for services provided within the boundary of McHenry County.

The Veterans Assistance Program consists of interim financial assistance and should not be considered an on-going financial supportive program over any considerable period of time. The Military Veterans Assistance Act states that **"the VACMC shall provide needed services to eligible veterans"**. (Chapter 330, Illinois Compiled Statutes, Act 45, Paragraph 9 {330 ILCS 45/9}). Other 'needed services' are considered discretionary and must be approved by the Commission and the County Board to become part of the VACMC Office budget.

Veterans Assistance is assistance paid exclusively to Honorably Discharged Veterans of the United States Armed Forces, their surviving spouses and/or their dependents. Financial assistance is made available simply because of their eligible military service and their financial need for this assistance.

## **Sub-Section 203      Discretionary Functions**

Discretionary functions are approved by the Commission and administered by the VACMC Office. Funding for discretionary functions may or may not be funded through the McHenry County Board. Even though some discretionary functions are funded by grants, the McHenry County Board still must approve receipt of the grants. Therefore, new proposals for discretionary functions should be reported to the McHenry County Board via the VACMC's liaison Committee prior to applying for grant funding. Some of the approved discretionary functions approved by the Commission and the McHenry County Board include:

*VA Claims Representation:* Assist veterans and their family members in the filing of claims for various programs authorized by the United States Government and maintained by the US Department of Veterans Affairs. VACMC Veterans Service Officers are recognized by the VA General Counsel to present and prosecute claims submitted on behalf of veterans and eligible family members. These programs include Disability Compensation, Pension, Dependents Indemnity Compensation, Headstones, and College programs. Success of this function results in reducing the clients need for financial assistance under the VACMC's mandatory function, and reduces the need for other County funded and non-funded social services.

*Transportation:* Operation of motor vehicles for transporting eligible veterans to the Captain James A. Lovell Federal Health Care Center. Volunteers and cab service are used to transport vets to the outpatient clinic, and to VACMC Bus Stops for service to New vehicles are purchased either by fundraising by the VACMC Inc or by financial grants. New vehicles may also be leased through the RTA.

*Indigent Veterans Burial:* The Superintendent administers the Indigent Veterans Burial program for the County Government. This program does not utilize any VACMC funds.

*Draft Registration:* Assist young men in registering with the Selective Service Administration.

*Medical Assistance:* Medical assistance for programs such as Veterans Restorative Dental, and Veterans Eye Care are funded by grants. Eligibility requirements are subject to guidelines established by the granting authority.

*Advocacy Services:* Advocacy services include representing, and/or working closely with, and/or applying to the proper local, state or federal agencies or local intervention with vendors such as landlords or utility companies, to procure benefits and insure the rights and benefits that each veteran is entitled to have been granted to the veteran, surviving spouse, and/or dependent.

*Referral Services:* The VACMC Office works with many local government and social service agencies in order to provide VACMC clients with valuable services helpful to their specific need.

## Section 300

## VETERANS ASSISTANCE APPLICATION PROCESS

The Veterans Assistance Commission shall provide application information to any person who requests Veterans Financial Assistance or Emergency Veterans Assistance. Application Information is defined as what documents and/or information is required to apply for Veterans Assistance and, offering to schedule an appointment to determine eligibility for Veterans Assistance. An application is different from an inquiry in that an inquiry is only a request for information about eligibility requirements for assistance or other program information.

The minimum information required to start an application is the applicants full legal name, the applicants mailing address and physical address (in the case of a McHenry County resident who is homeless, the address can be the VACMC Office), and other contact information such as telephone number and e-mail address if available.

The completed application contains a minimum of an eligible and certifiable discharge (DD-214 or Statement of Service), name, address, date, a signed copy of Rights and Responsibilities, proof of registration with Employment Security (If under age 62) or verifiable note from a doctor stating applicant can't work or disability award letter from the Social Security Administration, and proof of residence; the remainder of the application is to be completed to the best of the applicant's knowledge and ability. Additional information such as a current bank statement (if an account exists), current mortgage statement or lease, utility bills, etc..., is required to determine eligibility and assistance level. Veterans Assistance cannot be denied because the applicant is homeless.

Veterans Assistance can only be granted or denied an applicant/recipient one time in a 30 day period. The 30 day period begins with the applicants request to be considered for Veterans Assistance and ends 30 calendar days later. The applicant is responsible to provide all required information, and have an eligibility interview with a Veterans Service Officer within the 30 day period. Necessary information not received within 30 days of the applicants request for financial assistance will result in denial of the financial assistance request. Presentation of required information by the applicant/recipient greater than 30 days after the initial request for Veterans Assistance will be considered a new request. Each new request requires updated information such as current utility bills and a current bank statement, and a new eligibility interview. Resubmission of monthly bills from a previous eligibility period will not be accepted.

### ELIGIBILITY REQUIREMENTS

*Veterans Assistance is a Needs Based Financial Assistance program, that is, accurate information on both household income and basic household expenses are required to determine eligibility. All applicants for financial assistance from the VACMC must meet the eligibility requirements set forth in the following sub-sections. Veterans Assistance Commission of McHenry County Delegates, Alternates, employees, and their spouses are not eligible for financial assistance from the VACMC.*

**Needs Based Financial Assistance** – compares income to a set “Standard of Need” and then to basic household expenses. Veterans Assistance plus the applicant's/recipients countable income will not exceed the established Standard of Need. The Standard of Need is determined annually by the Veterans Assistance Commission and is based on the US Department of Health and Human Services Poverty Level Guidelines. Additionally, Veterans Assistance plus the applicant's/recipients countable income will not exceed the total of basic household expenses.

The maximum level of financial assistance available based on the applicants eligible family size is reviewed annually by the Veterans Assistance Commission and may be revised based on economic conditions such as inflation.

**Basic Household Expenses include** – monthly rent or mortgage (principle and interest only) for the applicant's/recipients primary residence, and monthly utilities...heat, electric, water, sewer, telephone (basic charges only, call packages and individual calls not included), and garbage. Child support can also be considered an expense as long as the applicant provides a copy of the court order and proof that the support is being paid. Veterans Assistance is not available to make direct payments for Child Support.

### Sub-Section 301

### ELIGIBLE MILITARY SERVICE

**Eligible Veteran for VACMC Assistance** – *A veteran whose last period of active military service was Honorable and met the time in service requirement for the era in which the veteran serviced unless the veteran was discharged*

*for a disability incurred in the line of duty (not as a result of the members own misconduct) that was found to be service connected by the US Department of Veterans Affairs*

**The Last Period of Service** refers to veterans who had more than one period of active military service and more than one discharge (reference 330 ILCS 45/2).

**Honorable Discharge** is a discharge in which the character of discharge is described as honorable. A General Under Honorable Conditions does not meet these criteria unless the service members discharge was the result of a service connected disability as recognized by the US Department of Veterans Affairs (VA), and not the members own misconduct. (guidance provided by the IL 2<sup>nd</sup> Circuit April 2010, 2-01-0787)

**Active Military Service** is full time service in a branch of the United States Military as opposed to Reserve duty where a member is still in the military but not actively engaged. Active Duty also includes Active duty for training or inactive duty where the member became chronically ill or injured creating a service connected condition per the VA. Active duty for training, service as a Cadet or Midshipman at the United States Military Academy, the United States Naval Academy, United States Coast Guard Academy, United States Air Force Academy, or in any component of the Reserve Officers Training Corps is not considered as qualifying service. (38 USC § 3.6)

**Veterans Who Began Active Service After September 7, 1980** must complete a minimum of 24 consecutive months of active duty (38 CFR 3.12(a)).

**Veterans Who Began Active Service Before September 8, 1980** must complete a minimum of 181 consecutive active duty days or one day of combat during a period of hostilities as recognized by the President and Congress of the United States of America.

**Reservists or National Guard Members** who were voluntarily or involuntarily activated or federalized by the President of the United States or the Secretary of Defense during a period of hostility, was mobilized to the theater and completed the term for which the member was activated. Members voluntarily or involuntarily activated or federalized by the President of the United States or the Secretary of Defense in support of direct operations against a hostile enemy must serve a minimum of 12 consecutive active duty months (an example would be a medic sent to Germany in support of OIF/OEF).

**Any Honorably Discharged Reservist or National Guard Member** who was federally activated and served honorably for a minimum of 24 consecutive active duty months for service other than active duty for training.

**Misconduct** – involves deliberate or intentional wrongdoing with knowledge of or wanton and reckless disregard of its probable consequences. Such a discharge would bar a veteran from Veterans Assistance.

**Service Connected Disability** – A chronic illness or injury found to be related to the veterans military service to a degree of 0% or greater by the US Department of Veterans Affairs.

## **Sub-Section 302**

## **RESIDENCY**

The funds provided this office for its assistance program is obtained solely from appropriated tax moneys levied on property owners in McHenry County. Therefore, all veterans, and their families, seeking assistance from the VACMC shall be residents of the State of Illinois and residents of the County of McHenry. Individuals participating in a Homeless Veteran Reintegration Program, Veterans Transition Program, or the like, where the agency provides their veteran clients with housing and the program is funded by any Federal or State government agency specifically providing funds for the Veterans Program are waived from the six month residency requirement.

Prior to being considered for financial assistance applicants/recipients who have resided in McHenry County for less than six months must provide a current Illinois State ID and; proof of application for public aid from the Illinois Department of Human Services in McHenry County, proof of having applied for Section 8 housing or Veterans Affairs Supportive Housing (VASH), and proof of actively seeking employment (unless exempt) via the Illinois Department of Employment Security. Acceptable proof of residency includes; a statement from an Administrator of General Assistance or other State or Federal Agency that identifies the date the applicant/recipient became a resident of McHenry County, motel receipts covering the required time for residency, or a current state ID that shows a current McHenry County address.

Applicants who are homeless must declare residency in McHenry County and provide a contact address. The address may be the office of any Administrator of General Assistance within McHenry County, PADS, or the VACMC Office. Applicants/recipients who have lived in McHenry County for less than six months and meet the eligibility requirements for Veterans Assistance from the VACMC will only receive financial assistance at the levels published by the Illinois Department of Human Services.

### **Sub-Section 303**

### **EMPLOYMENT & AVAILABILITY TO WORK**

*All applicants/recipients must be available to work, be registered with the Illinois Department of Employment Security, and be seeking full time employment unless otherwise exempt from doing so due to medical, age, or care giving. An applicant or recipient who is attending school is not considered to be fully engaged in employment search related activities and will not eligible for financial assistance from the VACMC. Guidance from 305 ILCS 5*

**Available to work** – means that the applicant/recipient is available, and willing to accept full time employment he or she is qualified and capable of performing during any shift.

**Applicants/recipients** – refers to all adult members of the household. That is, both the veteran and the non-veteran spouse shall be registered unless otherwise exempt from seeking employment.

#### **MEDICAL EXEMPTION FROM REGISTRATION AT IDES**

All applicants/recipients are to be told of the requirement of registration with IDES and of the availability of medical exemption from such registration.

A person will be entitled to a medical exemption if he/she is suffering from an illness or condition, either physical or mental, which renders him/her unable to work. The recipient requesting a medical exemption will not be eligible for financial assistance until an exemption form is completed and confirmed with a note from the applicant's doctor. Applicants/recipients who are at least 70% disabled as determined by the US Department of Veterans Affairs, in receipt of a VA Pension, Supplemental Security Income (SSI), or in receipt of Social Security Disability will be considered medically exempt.

An acceptable doctor's verification of inability to work must include a timeframe specifying how long the applicant/recipient will not be able to work. All ambiguous time frames such as "until further notice" or "until next appointment" will be defined as 30 days from the date of the doctor's note or for the current eligibility period whichever is earlier. Individuals whose doctor claims that the patients will never be able to return to work will be given a referral to Social Security to apply for disability or SSI. Those who appear eligible for a non service connected pension will make an appointment to file for same.

#### **Sub-Section 608**

#### **MEDICAL RESOURCE REQUIREMENTS**

Applicants for and recipients of Veterans Assistance are required to apply for all medical benefits and services for which he/she and members of the eligible household may qualify as a condition of eligibility for financial assistance.

Willful failure or willful refusal of applicants and or recipients to apply for and to avail themselves to all possible medical benefits and services for which they may qualify and to which they have been referred on written referral will render them ineligible for assistance from the VACMC.

#### **Sub-Section 609**

#### **ELIGIBILITY FOR VETERANS ASSISTANCE AS RELATED TO SOCIAL SECURITY BENEFITS**

Individuals who are temporarily disabled, but will not be able to work within one year and are, therefore, not eligible for Social Security or Supplemental Security Income (SSI) disability benefits may be eligible for Veterans Assistance until they are able to return to work.

If the VACMC believes, in good faith, that an applicant for Veterans Assistance may be potentially eligible for these benefits, a referral will be made to the Social Security Administration using the Referral form. While an application for such benefits is pending, the applicant may be eligible for Veterans Assistance until a decision is reached on the application for Social Security benefits as long as a doctor can confirm an applicant's claim that he/she cannot work, and verifiable follow-ups are provided showing the application/appeal is progressing.

Applicants applying for SSD or SSI will be required to file a 1099 form to be sent to the Illinois Department of Human Services. If the Social Security Administration grants SSI a portion of the applicants/recipients back payments may be withheld by the State of Illinois for the reimbursement of assistance from the VACMC. SSD or SSI applicants will be required to provide an application status to the VACMC at least quarterly.

Applicants who are receiving SSI will not be eligible for Veterans Assistance. Members of the household who are receiving SSI can't be considered as eligible members of the household.

Applicants otherwise ineligible to work must have on file a completed Medical Exemption, (IAW Sub-Section 607), with a doctors opinion stating that he/she is unable to work.

## **Sub-Section 610**

Applicants/recipients are also required to apply for all other financial benefits and to avail themselves of all potential resources for which they may qualify and to avail themselves of such benefits at the earliest possible date. They are to receive a written referral from the VACMC to the program(s) which the VACMC believes, in good faith; the applicant/recipient may be eligible.

The eligibility of each adult in the assistance unit is dependent upon the individual maintaining regular registration and corporation with IDES recommendations for employment and/or training, unless exempt as previously described.

An applicant/recipient must be able to participate in the Community Work Program between the hours of 7:00am and 5:00pm

## **Sub-Section 611**

Applicants/recipients will receive assistance while waiting for any opening at any VA rehab center serviced by the VACMC, however, will be denied assistance should the applicant fail to report to the first available rehab opening. 1. **FAMILY CASE** - A family case is defined as at least one adult and one child.
2. **INDIVIDUAL CASE** - An Individual Case is defined as a case in which the applicant is the veteran, the surviving spouse of the veteran, or the minor child of a veteran who is either living alone or with others not included in the assistance unit.

### Sub-Section 803

### PAYMENT PROVISION

Assistance is to be issued in the form of a voucher, an assistance letter, or a direct payment to a vendor. A vendor payment made by the VACMC, although not necessarily a full payment shall constitute, for VACMC purposes, payment in full for the goods and services covered thereby.

The recipient of VACMC assistance may allocate the total amount of benefits for which he/she is approved by the VACMC among the assistance items listed in Sub-Section 804. No voucher or check shall be issued for payment exceeding the actual amount due on the bill presented.

### Sub-Section 804

### ASSISTANCE ITEMS

The level of total assistance available to an eligible applicant shall be determined using the Budget Computation Worksheet. The applicant may allocate up to the maximum assistance he/she is eligible for among the assistance items listed with the exception of food and transportation.

The following assistance items are to be considered and may be included for Veterans Assistance:

1. **FOOD** - A food expense is automatically computed as part of the budget worksheet. A Social Security number must be provided to the VACMC for each member of the assistance unit receiving this assistance.

The maximum amount for a food voucher or certificate will not exceed \$50.00 for the first person and \$25.00 per additional unique individual in Veterans Assistance unit over the assistance period.

Food purchases may be made in a grocery store of the applicant's/recipient's choice as long as there is an existing agreement to accept a VACMC voucher or certificate.

2. **PERSONAL NEEDS** - Personal needs include toiletries, paper products, personal hygiene products, cleaning supplies, and minor first aid products.

The expense is automatically computed on the budget worksheet. Personal needs are provided for with food vouchers and are limited by the maximum amount of assistance available to an eligible applicant.

3. **SHELTER** - Shelter includes; rent, mortgage payments, (interest and principle only), mobile home payments, or mobile home lot rental. *The VACMC cannot provide assistance for rent or mortgage in which the occupied building is in an unsafe condition and/or the number of occupants in a building or unit exceeds the number allowed under State and Local laws.*

**Payment in Full** – Veterans Assistance and the applicants'/recipients resources must be sufficient to pay the current monthly rent or mortgage payment. Partial payments will not be sent to landlords or mortgage companies. It is the applicants'/recipients responsibility to provide the difference between Veterans Assistance and the monthly rent or

mortgage within the 30 day assistance period. Verifiable written Statements of Support from other social service agencies are acceptable.

**Subsidized Housing** - Applicants receiving Section 8 housing vouchers or living in HUD subsidized units may only be eligible for limited assistance as determined by agreements with the local Housing Authority. Applicants/recipients must meet the eligibility requirements for Emergency Veterans Assistance and the amount of aid can't exceed \$500 in any 24 month period. All such assistance shall be reported directly to the McHenry County Housing Authority. Applicants living with a Section 8 client or subsidized unit recipient shall not be granted housing or utility assistance.

**Shared Living Arrangement** - When a recipient shares a dwelling, the amount budgeted as shelter or rent should be determined on an equal share basis among the adult members of the household.

**Eligible applicants over the age of 65** whose only source of income is from Social Security will have an independent living expense up to \$140 to defer the cost of transportation and assistance with daily living. Additionally, up to \$300 will be considered as a housing expense for owner occupied residences in cases where the mortgage is paid off and there is a verifiable need and intention to conduct necessary home repairs.

**Payment Restrictions** – Veterans Assistance is not available for back (unpaid) rent. Rental payments are not to be made to relatives of the applicant unless it is a separate dwelling of rental property. Veterans Assistance is not available to pay for taxes, insurance, repairs, or mortgages in arrears.

**4. UTILITIES AND HEATING FUEL** - Allowable utilities include heating fuel, cooking fuel, electricity, telephone, water, waste water, and garbage disposal.

Assistance for heating oil, or gas stored on site is available only for the months of October through April. The utilities must be in the applicant's name or the applicant must provide verification that he/she is responsible for the utility payments under the terms of the rental/lease agreement. Veterans Assistance is not available for utility deposits, connection or reconnection charges. Only the current amount due (based on actual use) or budget payment (whichever is smaller) will be considered as the current expense. Veterans Assistance can be used to make arrears payments on utilities as long as payment does not create a credit balance with the utility. Repair plans (insurance) offered by some utilities are not to be considered part of the use charges and will be subtracted from the current amount due.

**Telephone** - The VACMC can pay the basic charge for one telephone in the household. The VACMC will not pay for the installation of telephone service nor for past due telephone bills. The basic charge is based on a basic phone plan, and is the amount necessary to obtain a dial tone (currently \$39.99). The countable expense and maximum payment is determined by the Veterans Assistance Commission.

**5. TRANSPORTATION** - Transportation will be provided to eligible veterans in the following manner:

**A.** Transportation to the Captain James A. Lovell Federal Health Care Center is available to the veteran and medically necessary companion via the VACMC van or bus. Veterans Assistance will not be used to pay for transportation to the Lovell FHCC.

**B.** A motor vehicle fuel voucher can be provided to an eligible applicant who is actively seeking employment and has recorded his trips to visit employers or IDES. A fuel voucher can also be provided an eligible applicant for transportation to medical appointments as long as the trips have been recorded. Proper recording will include; date of trip, destination address, and round trip miles.

**C.** Pre-approved vehicle repairs for the eligible household's primary vehicle is available provided that the vendor is willing to accept payment from the Veterans Assistance Commission, and that the applicant/recipient pre-pays the difference between Veterans Assistance and the repair estimate.

The VACMC does not provide funds to purchase a motor vehicle, vehicle insurance, or license. Prior to receiving a motor vehicle fuel voucher, the applicant must provide the VACMC with a copy of his/her current driver's license, a current motor vehicle registration form and a current Illinois insurance card for the vehicle being fueled.

Transient travel expenses can be provided a transient veteran one time. An example of such an expense would be motor vehicle fuel, a one way bus ticket, or transportation to the nearest Veterans Affairs Medical Center. This would

be a grant to assist an honorably discharged veteran who has become stranded in McHenry County, en-route to another state or county, through no fault of his or her own. This grant may not exceed the maximum payout level for one eligible applicant.

**8. MEDICAL CARE** – Payment for medical care is only available if the VACMC is able to secure grant funds for such programs. Conditions under which an applicant/recipient may be eligible for medical are outlined in such grant agreements.

**9. BURIAL - 55 ILCS 5/5-27001 et seq.** – Burial of Indigent Veterans and Their Families - The Counties Code authorizes the McHenry County Board to bear the expense of interment of honorably discharged veterans of selected conflicts and certain family members. These individuals must not have sufficient means to defray the funeral expenses of the deceased and does not apply to family members who were receiving public assistance at the time of their demise. The maximum assistance available is \$900 and shall not be available for any burial ground or cemetery used exclusively for the burial of paupers, nor in a portion of any cemetery or burial ground reserved for paupers. The request for such funds must originate with the funeral home.

The VACMC has been appointed to represent the McHenry County Board in this matter.

### **Sub-Section 805**

### **BUDGETING**

The budgeting process has a dual purpose: (a) to determine eligibility and (b) to determine the amount of assistance for which an individual or family is eligible.

All financial information from the applicant/recipient needed in this budgeting process is contained in the Application for Veterans Assistance. All assistance items for which the applicant may be eligible are found in the previous sub-sections of Section 800 of this Handbook. The amount(s) allowed for assistance items are shown in Appendix A of this Handbook.

Using the VACMC Budget Computation worksheet, determine the applicant's non-exempt income, earned and unearned, currently available to meet his/her needs.

To provide help in arriving at a monthly earned income figure, particularly in new cases, the applicant is required to furnish to the VACMC a record of his/her earnings for the month prior to submission of the application.

All non-exempt income, earned and unearned income, of all eligible household members are to be converted to a monthly average. To arrive at this amount:

Multiply weekly income by 4.33;

Multiply bi-weekly income by 2.17;

Multiply semi-monthly income by 2.

Enter the computed figure for monthly earned income on the budget worksheet as Gross Monthly Earnings. Using any income disregards and employment deductions, described in Section 700 of this Handbook, that may apply to the case as well as other applicable deductions and exemptions listed on the worksheet, deduct the total amount of earned income to be disregarded. The remainder is the Total Monthly Non-Exempt Earned Income.

To this figure, any non-exempt unearned income, computed if necessary to a monthly average, and non-exempt assets should be added.

Next, using the allowance for assistance based on the current VACMC standards, consider each assistance item to be included for veterans Assistance as it pertains to the particular case, Family or Individual.

If the total of these payment level allowances is more than the total of the non-exempt income plus the non-exempt assets, financial eligibility may exist.

If, on the other hand, the total of non-exempt income and non-exempt assets is greater than the total of the payment level allowances, the applicant should be denied or the case should be closed.

The budgeting process described above is required for each new case and each time an ongoing case is predetermined for eligibility.

## **Sub-Section 806**

## **OVERPAYMENTS AND REIMBURSEMENTS**

Overpayments are payments issued in a given month to, or on behalf of, an applicant/recipient by voucher which result in an income maintenance payment level which is higher in any amount than that provided for in the VACMC standards.

Overpayments may result from caseworker/administrative error or from intentional or unintentional misrepresentation of facts by the applicant or recipient.

When it is known that a recipient of Veterans Assistance has received an overpayment, but all information necessary to determine the amount is not available from the case record, the information is to be requested from the recipient. If the necessary information is not provided, the entire assistance benefit issued at the time the overpayment occurred will be considered an overpayment, not just the assistance item(s) in question.

Notice of any alleged overpayment and the intention of the VACMC to recoup the overpayment is to be given in writing to the recipient by the issuance of a properly completed Notice of Change in Veterans Assistance.

The Notice must include the factual reason(s) for the overpayment and the legal reference for the overpayment. An attachment to the Notice of Change in Veterans Assistance will specify the amount of assistance that was issued during the time of overpayment, by month; the amount of assistance that should have been issued, by month; and the total amount of the overpayment. The Notice is also to include all appeal rights of the applicant/recipient. If the recipient elects to appeal the matter of the overpayment, no recoupment of the overpayment is to take place while the appeal is pending.

If an overpayment is found to have occurred, the recipient may, within thirty (30) days of the notice of overpayment, request that it be waived if the overpayment was received without the fault of the recipient. The VACMC is to issue a written decision on the requested waiver and the recipient must be notified of his/her right to appeal the decision.

If an applicant willfully misrepresented income to qualify for assistance and fails to reimburse the VACMC the ineligible amount, the VACMC shall; notify the applicants Township Administrator of General Assistance and surrounding VACMC Superintendents of the overpayment, file a complaint with the States Attorney's Office, and; with the approval of the States Attorney, file a 1099 with the IRS declaring the amount as unreported income.

If a client has been denied assistance from TANF, SSI, Food Stamps, Medicaid, Unemployment, an administrator of General Assistance or another Veterans Assistance Commission due to an overpayment, the applicant/recipient shall not be eligible for Veterans Assistance until the overpayment is recovered.

Recovery is the repayment of the amount of the overpayment from the applicant's/recipient's assets, either as a result of a voluntary agreement between the applicant/recipient and the affected agency or as a result of legal action.

**Section 900**

**DISPOSITION OF AN APPLICATION FOR VETERANS ASSISTANCE**

Disposition of an application for Veterans Assistance must include the following:

## Section 1200

## EMERGENCY & DISASTER VETERANS ASSISTANCE

*Emergency Veterans Assistance (EVA) may be available to applicants/recipients who are not eligible for Veterans Assistance due to their income. EVA is available to assist applicants/recipients who, by no fault of their own, fell behind on their mortgage, rent, or utilities (excluding telephone). Funding for EVA is not certain thus may not be available throughout the year. If approved for EVA the applicant will not be eligible for EVA again for 24 consecutive months.*

**Not eligible for Veterans Assistance due to income** – means that the applicant/recipients income exceeded the maximum income allowable for Veterans Assistance, however, he/she met all other requirements for eligibility.

**By no fault of their own** – indicates that the applicant/recipient experienced a recent unforeseeable incident which resulted in the current financial situation.

**Funding for EVA** – is budgeted on a year to year basis. If the EVA funds are exhausted any time during the fiscal year, EVA will be unavailable until the next fiscal year.

### Sub-Section 1201 ELIGIBILITY

*Eligibility for Emergency Veterans Assistance is about the same as for Veterans Assistance except that the applicant's income is higher than what can be approved for Veterans Assistance and less than an established EVA Standard of Need, a Statement of Cause is required to establish the cause of the financial emergency, and the applicant has to be verifiably in arrears with either rent, mortgage, or utilities. Eligibility for EVA (if available) will automatically be determined during the application process for Veterans Assistance.*

**Statement of Cause** – is required from the applicant to explain the verifiable incident that resulted in the household falling behind on the mortgage, rent, or utility. To be eligible for EVA the incident had to have been beyond the applicant's control.

**Verification of being in arrears** – can be demonstrated with a 5 day notice, statement from a mortgage company, or arrears utility bills.

### Sub-Section 1202 ASSISTANCE ITEMS

**Payment of arrears utilities (except for telephone)** – Payment is made for arrears utility bills for actual use. EVA for the connection or reconnection of utilities is not available.

**Payment of rent or mortgage in arrears** – is available as long as EVA plus available resources from the applicant can bring the household current on their rent or mortgage. Partial payments will not be sent to a landlord or mortgage company.

### Sub-Section 1203 LEVEL OF EMERGENCY VETERANS ASSISTANCE

*The level of EVA available to an applicant is based on very similar requirements to Veterans Assistance except the established Pay Out Level for an eligible family size is higher.*

### Sub-Section 1204 DISASTER VETERANS ASSISTANCE (DVA)

*A disaster is defined as a man caused or act of God (not caused by the applicant or members of the applicants household) which renders the home unlivable as determined by local officials or agencies. A recognized "First Response Agency" who provides emergency housing in response to a disaster will refer an applicant to the Veterans Assistance Commission.*

The Veterans Assistance Budget Worksheet is used to determine the level of assistance, however, income is not considered. The DVA will be used to reimburse or extend housing assistance being provided by the "First Response Agency" (pending VACMC approval). Additionally, food vouchers, certificates will be provided based on the eligible family size in addition to the DVA provided. Disaster Veterans Assistance may be granted only once in the applicants lifetime.

*The VACMC Transportation service to the Lovell FHCC is available to veterans who are eligible to use the facility and reside in McHenry County. Veteran Clients are picked up from centralized locations within the county and transported to Lovell FHCC. The vehicles leave the FHCC at a specified time and return our veteran clients to the centralized VACMC Bus Stops. The VACMC is the only service to the FHCC currently available in McHenry County. Although the service is not a mandatory function of the VACMC, both the Commission and the County Board feel it important enough to continue funding its operation.*

**Sub-Section 1301 ELIGIBILITY**

Transportation will be provided to Veterans, Military Retirees, eligible dependents (space available), and the assistants of those veterans requiring assistance. A completed application and a copy of the veterans Honorable Discharge, DD-214, and photo ID card must be on file at the VACMC office prior to our being able to provide transportation. Veterans not having a copy of their Discharge will receive assistance with requesting a copy from the National Archives & Records Administration.

**Sub-Section 1302 DESCRIPTION OF SERVICE**

All veterans and their assistants are picked up from a designated pick-up point at a time to ensure that our veterans are at the hospital by 8:00am depending on traffic and/or weather. The Bus leaves the hospital at 12 noon. A second Bus may be available for later appoints. The second bus would arrive at Lovell FHCC by 10:00am and leaves the hospital no later than 2:00pm. If you need to stay later it is your responsibility to prearrange transportation. The VACMC Transportation Service is not a replacement for an ambulance; clients experiencing medical distress are strongly encouraged to dial '911' for immediate attention rather than the VACMC Transportation Line for next day transportation to the VA Hospital.

The VACMC requires asks for and gives priority to veterans with actual appointments at the Medical Center. The veteran is responsible for providing the VACMC with a future appointment sheet from the Medical Center. Copies of appointment sheets are to be given to the driver prior to leaving the Medical Center.

The VACMC understands that appointments may be changed or added at any time after they leave the hospital. Veterans may also call in their appointments using the dedicated transportation service line (815-334-0303). Clients are asked to leave their name, appointment date and time, which clinic, and which VACMC Bus Stops they prefer. Clients are asked to call in appointments as soon as they are aware so we can match vehicles and drivers based on expected passenger load. Calls for next day appointments must be received by 11:00am the business day prior to the appointment. The VACMC is not responsible for transportation not being available to a client who did not notify the VACMC Office of an upcoming appointment. A client may also simply arrive at a VACMC Bus Stops and get transportation to Lovell FHCC if space is available both to the hospital and from the hospital.

Clients need to call the transportation line (815-334-0303) after 3:00pm the day before their appointment to find out what time the bus will be leaving their VACMC Bus Stops.

**Sub-Section 1303 SIGNIFICANT MOBILITY PROBLEMS AND DISABILITIES**

The VACMC operates wheelchair accessible vehicles to assist limited mobility veterans and those using standard wheelchairs. Veterans who require the use of a wheelchair or have other significant conditions/limitations must notify the VACMC Dispatcher at least 24 hours prior to the appointment. This is to ensure the Driver has the correct vehicle and can be prepared to provide limited assistance.

In those cases where a veteran suffers significant mobility problems the VACMC will determine if it is possible for us to safely and comfortably transport the veteran without further aggravating the condition. If it is determined that the VACMC can transport the veteran, he/she will be required to bring along an assistant. The VACMC may also require an assistant for clients who cannot safely navigate the VA Hospital on their own. It is the veteran's, (or the veteran's family), responsibility to obtain an assistant.

Mobility Scooters do not meet the minimum safety standard for automotive seating and may have special transportation requirements. The VACMC does not transport Mobility Scooters. Clients who use such a scooter are encouraged to reserve one of the many scooters at the Lovell FHCC so it can be waiting when the bus arrives.

The VACMC transports individuals with a variety of medical issues. Clients with cold or flu like symptoms will be asked to wear a mask so as not to expose other passengers. Clients whose condition presents a risk to the health and safety of other passengers may be denied the use of the VACMC Transportation Service. In all such cases, the Superintendent will notify the VACMC Board of Appeals of the decision. If the VACMC transportation service is not appropriate for you we will work with you and the VA to secure more appropriate transportation. Currently, the Lovell FHCC prefers to be notified when the VACMC is aware of a veteran who is confined to a wheelchair. This is so the FHCC can arrange suitable transportation for the veteran.

**Sub-Section 1304 SAFETY**

All passengers are required to properly use seat and shoulder belts. *Failure to use the belts will result in loss of transportation privileges.* The driver needs to remain focused on the road, please do not talk to the driver while the vehicle is in motion. Passengers will be discouraged from using the front passenger seat.

If a veteran experiences a medical emergency on the trip to the Lovell Federal Health Care Center the Driver will stop the vehicle, call the paramedics, and render first aid. The distressed veteran may be taken to the nearest hospital by emergency vehicle. The VACMC Transportation Service is not a replacement for an ambulance; clients experiencing medical distress are strongly encouraged to dial ‘911’ for immediate attention rather than the VACMC Transportation Line for next day transportation to the VA Hospital.

**Sub-Section 1305 SMOKING, DRINKING, AND EATING**

Smoking is not permitted on the vehicles, and will result in loss of vehicle privileges. Open food containers and eating is not permitted on the bus. Beverages are permitted as long as they are in a covered ‘car cup’. Individuals who are intoxicated, or who attempt to bring alcohol on the vehicle will lose their privilege to use the VACMC Transportation Service.

**Sub-Section 1306 UNETHICAL BEHAVIOR**

Clients and their assistant’s are expected to be on their best behavior while waiting at the VACMC Bus Stops, in the bus, and at the Lovell FHCC. Harassment of other passengers, VA Hospital employees, or VACMC employees will not be tolerated.

The VACMC Transportation Service is a free service offered to McHenry County Veterans that is funded by local tax dollars. As such, clients are not eligible for a transportation allowance from the Lovell FHCC. Clients caught taking a transportation allowance from the Lovell FHCC will be reported to the VA.

Persons found engaging in unlawful activities at any point during the service will be reported to authorities.

**Sub-Section 1307 DRIVERS RESPONSIBILITIES**

*The Employee Guidebook – The Commission had adopted all the guidelines set forth in the McHenry County Employee Handbook. Each driver is responsible for following those guidelines. In addition to following the Employee Handbook, drivers are responsible for the following;*

**Clean, Safe, and Polite** – Transportation Service Providers are expected to maintain a clean and groomed appearance. Each vehicle is to be operated in a safe manner in accordance with acceptable ‘Rules of the Road’. As representatives of the VACMC they are to be polite at all times and observe each client’s privacy.

**DOT Physical, Drug Testing, Driver Safety, and First Aid & CPR** – Each driver is expected to pass a DOT Physical and Drug and Alcohol testing prior to employment. DOT Physicals will be repeated every other year or in accordance with DOT guidelines. A driver can be called in for Drug or Alcohol testing at anytime during their employment with the VACMC. Prior to driving clients without on board supervision, each driver must attend and pass a 4 hour driver

safety course. The course is to be repeated every three years or as required by the State of Illinois or the County of McHenry. Drivers will be provided with First Aid & CPR Training as soon as a class can be scheduled.

**Incident Reporting** – In the case of an incident where someone on the vehicle got injured, a written report of the incident must be provided upon returning to the VACMC Office. Incidents involving passenger behavior or unknown damage to a vehicle must be verbally reported to the VACMC office the day of discovery and a written report provided no later than the next day the driver is scheduled. In the event of a collision, the driver is to take photos of the damage and get report information from the attending police officer. The driver is **not** to resume driving the vehicle. Office personal and another driver will promptly arrive to transport passengers to the VA Hospital or the pickup points. The driver involved in the collision will be required to immediately report for drug and alcohol testing if he/she is physically able.

**Pre-Trip Report** – All drivers are required to perform a pre-trip safety check and report prior to loading passengers. Reports are to be turned in to the VACMC Office daily. All drivers are expected to help maintain the cleanliness of the vehicles.

**Undocumented Passenger** – The driver may pick up passengers from the designated VACMC Bus Stops or the VA Hospital who are not on their list if there is room on the vehicle. The driver is to notify the office of the extra passenger prior to moving the vehicle. The passenger's full name, 5 character VA ID Number, and location of pick up must be provided.

**Passengers Returning to VACMC Bus Stops** – Drivers are authorized to offer passengers the use of a VACMC telephone so passengers can contact their rides with the approximate time the bus will return to the pickup point. The driver may wait at a VACMC Bus Stops for a passenger whose ride had not arrived on time. If a passenger's ride does not arrive the driver is to contact the office prior to departing.

#### **Sub-Section 1308**

#### **COORDINATOR RESPONSIBILITIES**

**Transportation Reports** – It is the responsibility of the Transportation Coordinator to assemble regular transportation reports and provide them to the Commission and other interested agencies. Incident reports are to be forwarded directly to the McHenry County Safety Department.

**Driver Safety Meetings** – The Transportation Coordinator is required to schedule quarterly driver safety meetings. The content of the meetings are to address concerns raised by the drivers, report changes in policy, discuss, safety issues, and share information and guidance for any transportation related issue. Items that require a follow-up will be noted and reported back to the drivers in writing as soon as possible.

**Determination of Transportation Applicants/Recipients Eligibility for the Service** – The Transportation Coordinator will make a determination if the Service is appropriate for a client. If it is found that a client is not eligible for continued service due to disability or illness it is the responsibility of the Coordinator or Deputy to assist with identifying alternate transportation. In such cases, the VACMC cannot guarantee that the alternative transportation will be a service free to the veteran. In any case where it is determined that the VACMC is not able to provide transportation to a client, the Coordinator is to provide a report to the VACMC Board of Appeals.

**Passenger Concerns** – The Transportation Coordinator or the Deputy will address passenger concerns to the best of his or her ability in accordance with the established rules set forth by the County of McHenry as approved by the Commission.

**Sub-Section 1401****VA DISABILITY OR PENSION CLAIMS**

*The Veterans Assistance Commission may be available to provide assistance to veterans and/or their families with preparing and presenting claims to the US Department of Veterans Affairs. A Veterans Service Officer who is certified by a recognized Veterans Service Organization and by the General Counsel of the US Department of Veterans Affairs to prosecute veterans claims, must be present in order to prepare and submit a VA Claim. All such claims are to be consistent with the guidelines set forth by the National Association of County Veterans Service Officers and/or the certifying Veterans Service Organization.*

**Certified by a Recognized Veterans Service Organization** – indicates that the Service Officer holding the certification was trained in VA Claims Prosecution. The Service Organization must be recognized by the US Department of Veterans Affairs as one that can, under the name of the organization, present and prosecute claims on behalf of veterans and their families.

**Prosecution of Claims** – in this case is the act of an Accredited Veterans Service Officer advocating on behalf of a veteran claimant or his/her family before the US Department of Veterans Affairs in order to help the claimant get a specific benefit.

**Sub-Section 1402****OTHER VA BENEFITS ASSISTANCE**

The Veterans Service Officer or counselor will assist the veteran or family member with the paperwork or filing requirements to obtain other VA Benefits. The Veterans Service Officer or counselor will assist to the best of his/her ability, or help the applicant identify a counselor better qualified to assist with a particular benefit.

# **Appendix A**

## **Standards of Needs Tables**

The Standard of Need Tables (Table A-1 thru A-3) were developed using information from the Illinois Department of Human Services, Township General Assistance program and the US Department of Health and Human Services.

The number of people in the assistance unit, having been predetermined in the application for assistance, is the left hand column in the table. Crossing this number to the center column provides the Standard of Need. The applicant's income, as determined in Section 700, is subtracted from the appropriate Standard of Need. If this results in a negative number the applicant is not qualified for financial assistance. If the result is a positive number the applicant is eligible for financial assistance up to that figure or to the figure listed in the right hand column, whichever is lower.
