Drug Code NA	Evidence Pkg Type Other	Property Code 905-BODY CAMERA VIDEO		
NARRATIVE				

On June 17, 2022, at approximately 0955 hours, I met with [REDACTED] [REDACTED] and essentially learned the following.

I [REDACTED] the reason I was there, and she was aware since [REDACTED] [REDACTED] and [REDACTED] [REDACTED] have sent many FOIA requests to the Mahomet Road District.

I [REDACTED] to [REDACTED] that I wanted to ask her some questions, but she did not have to answer them, and she could ask me to leave at anytime she wanted to. I then spoke to [REDACTED] and essentially learned the following.

[REDACTED] stated this has been going on since 2005 she believed. She did not meet [REDACTED] [REDACTED] until 2006. [REDACTED] stated that for the first ten (10) years of their marriage she lived in a different county so her kid could finish school and [REDACTED] lived in Mahomet Township. She did not realize anything was happening until [REDACTED] [REDACTED] had a private investigator follow her around while she picked her children up from school in Clinton, Illinois. She stated that at this time is when she learned "the hatred they had for my husband".

She then stated that she now takes the long way when she goes to the office. She is tired of not being able to mow her yard or go to work without them ([REDACTED] [REDACTED] or people they know) taking pictures of her. [REDACTED] then stated that yesterday (June 16, 2022) they followed her from McDonalds to the office. She further stated she notices them and when they realize it, they try to back off to act like they are not following but they still are.

MALLOCH, BRYAN

officer's initials _____ approved _____ (SS2204875 - #A2206311)

████████ stated they are following other employees as well and trying to turn other employees against one another by saying someone else said something about that person so they can get them upset.

████████ stated that she was so scared last night that she could not even take her trash out. She feels these are desperate people, desperate for a job. She feels that ██████ is a desperate person because he found out that the investigation was sent, and no charges were filed right now. ██████ stated ██████ is out of the money he provided to ██████ when he "try to cheat his way on the ballot" and feels that may be another reason they are doing this.

████████ stated that before the election ██████ moved here from the Bloomington area because according to her, he had some businesses go bankrupt. ██████ was then asked around 2007 to leave the position he held at a local bank. A negotiated exit according to ████████████████████ then stated now you have two (2) people looking for a job who don't like ██████ "jealous of him, is my take on it".

████████ stated that in 2008-2009 ██████ would sit on the overpass near the road district building and try to log into their computers remotely.

████████ stated ██████ first ran against ██████ in 2009 and lost at the caucus to become the road district commissioner. The laws were different then and ██████ was able to file paperwork and run as an independent. This is the time that ██████ had ██████████ followed while she was picking up her children from school. She would further state that they would print out ██████' farm payments and put them on the table of the Hen House restaurant. She believes this occurred to say that he makes this much money for his farm why does he need the commissioner position. ██████ lost this election and she felt that they backed off a little bit at this time.

████████ then stated ██████ tried to run for the same position again but was not present at the caucus. The law was changed (unknown when) that requires you to be present to run. ██████ filed and appeal in Champaign County in 2021 which he lost and was not able to be on the ballot. ██████████ stated she was guessing that was the fuel for this investigation.

████████ stated that she is the administrative assistant for ██████████ and does what he asks her to do. She does go into the office sometimes but can accomplish a lot of her work from home just using her cellular telephone.

████████ then stated that ██████████ was now taking a petition around for signatures to have ██████████ ██████████ (Township Supervisor) recalled. She continued to say that "they have called vendors, they threaten vendors, they have called vendors wives and told them their husband is going to get in trouble if they don't get their husband to do this". ██████████ stated that the road district and township are working with their attorneys to send out apology letters to each of the vendors and have even personally called some of them.

I then asked ██████████ if she owns Central Culvert and Tile. She stated she is the majority owner while ██████████ owns a small percentage of it, and he gets no income from the business.

I asked if the Mahomet Township had culverts delivered to her business and she stated they used to, but not anymore. Metal Culverts would charge a fee for a partial load. So, when the township only had a partial load, her business would order enough for her company to make it a full load to avoid a fee for the township (saving the township money). She said it would be dropped off at Central Culvert and Tile or her company would go pick it up. All the property was banded separately, stored in a separate area and each business received their own invoice for the property they ordered. Another reason that the Mahomet Township did this was because they don't have the proper equipment to unload and transport the pipes and it would cost the township a significant amount of money to purchase the necessary equipment. She continued to state that the Mahomet Road District is paying the same price for inventory as Central Culvert and Tile which again is saving the township money. ██████████ stated her business is a distributor for Metal Culverts, so she gets a discounted price on material. She stated that it was never a secret that her business helped the township pick-up/store the inventory.

████████ stated the only reason she started the business was because individuals would come to ██████████ a lot wanting tile and it is illegal for him to sell road district property, so they opened this business. This was to eliminate people coming to ██████████ asking for materials.

█ showed me copies of several invoices (documented in supplemental report A2205640) that were addressed to Central Culvert and Tile. She later provided copies of these invoices which are attached to the above supplemental report.

█ then asked if I was aware of the incident involving █ and █ at the grain elevator several years ago. I advised that I was. She stated she was not aware of what exactly happened until █ did the same thing to █ █ at a township meeting at the end of May 2022. █ yelled at █ █ something like "what the hell are you doing" and got nose to nose with him and put his hands behind his back trying to provoke █

I then asked █ to explain the process for the delivery of white rock for the road district. She stated none of the white rock at Central Culvert and Tile (CCT) belongs to the road district. █ further stated that when █ and she knew they were going to build their current home, they were able to get some recycled concrete and some rock. They had it delivered to CCT and have moved it to their property as needed when they do projects at their house. They also have used it for another property of their farm landlord.

She does not understand why they think any of that rock was the townships. It was never delivered by any of the township equipment and never removed from the property by any township equipment. When it does get taken out, it is with their own equipment or by Klein farms.

█ then stated within the past couple weeks █ █ an employee of the road district also takes care of a cemetery south of Mansfield. A company (Illinia or Open Road) was chipping the roads and were two truck loads short. The company reached out to █ █ and said we are short two loads of chip can we get some. █ said yes and they came and picked it up and used it. █ stated when they were delivering the chip, █ and his girlfriend were driving by taking video of them doing it. Shereth stated they give chip to other townships, or the Village of Mahomet, to help them out. She states this is not uncommon for townships to help each other out.

██████ states that she knows that they also have a problem with ADS and the tile. She states most of the time the tile will get picked up by whomever is doing the job for the township from ADS and delivered directly to the job site and the contractor puts it in. ██████ then states that there is a variety of uses for the culverts as well not just for driveways. She states that these items go directly to the jobsite as well and contractors install them.

I then asked ██████ about the employees of the road district working for ██████ on his farm but being paid through the road district. ██████ stated that "██████ has the ability to do what it takes to maintain qualified employees". The employees that plow is not allowed to take vacation from December 1 to March 31st.

██████ stated what the guys do on the farm is compensated by the farm. They don't get paid by the road district for doing work personally on ██████' farm.

I asked how many full-time employees the road district has, and she stated four (4) and four (4) seasonal employees. I asked if there is a certain number of hours required to work at the township. She stated that is up to ██████

██████ stated that she is tired and scared. Scared for the other employees, scared for herself. She stated she knows she has probably lost business because she refuses to answer any call that is private anymore. That is because random people will call her telephone and try and get ██████ phone number or address, which she won't give to them or other information regarding employees or her business.

She continued to say that while at the road district building, she took two (2) calls in one day. They would ask to speak to ██████ about a culvert. She would ask for their address and basic information and the caller would refuse to give it. They would just say we were told to call here to get culverts from Central Culvert and Tile. This has happened several times in the past three (3) months.

██████ then stated that they had a conversation with ██████ ██████ the Township attorney. ██████ told ██████ that if he believed anything was wrong

or going on, he would not represent the township anymore.

I [redacted] to [redacted] that I would document her statement and forward it to the appropriate office for review.

[redacted] did get an order of protection (2022OP000525) against [redacted] on June 20, 2022 which has a court date of July 11, 2022.

Nothing further.

This incident was captured on my Axon body camera. This report is a summary of the statements and events that were given to me by the individual(s) I spoke with pertaining to this incident. This report is not directly quoted unless otherwise noted. The statements in this report may or may not be in the chronological order as they were given to me. I did view part of my Axon body camera for assistance in the completion of this report.
