Well followers, what can I say, Don has done it again. Tonight's public gathering was canceled hours before 6pm when it was supposed to take place. But in the usual Don manner, he had to grandstand it and have a meeting outside of village hall. He recorded it in true Don fashion, go to his page and watch it. I'm so embarrassed for our village to have these three represent us. Betsy Straw looks seriously like a homeless person standing there agreeing with all Don is spewing. Austin Davies sure isn't doing his law practice any favors by being right by Don's side. It is obvious now why Don appointed this "Yes" man. He must of been Don's consultant this whole time. Austin is one of these people who's status on a board goes to his head, he really wants to be something. Then there is Don the clown, doing what Don does best, absolutely nothing but preaching about stuff he absolutely knows nothing about. Also don't let Don fool you people, he did not want a key to village hall when it was offered to him, he did not want the responsibility, nor did he want the liquor commissioners badge. Why, because Don's only intent was to Defame Costanza, cause as much crap for our village as he can, all in the name of revenge. Sad sad day when Don was appointed, and we are all paying for it. Like I said before part of these charges are under Don's watch but he is to busy trying

Like I said before part of these charges are under Don's watch, but he is to busy trying to find that smoking gun on Costanza, that he ignores his basic duties as Village president. But he'll take that 120k for his term and not donate or give any of it back. That is the real injustice here.
